Watching the Crab Fishers

The Herald received an interesting letter from our friend D. M. Cathey, who was taking a vacation at Gearhart Park on the coast. Space will not permit of its publication in its entirety, but we quote the following bit about crab fishing: "Scores of men, women and children lined along the water's edge—and sometimes a little further in—grabbing and scrambling after the fish that the angry waves threw on the pebbled shore. It was a laughable sight to see the people catch the fish and get away before the surf caught them, a multitude of spectators—with a desire to catch fish, but not get their feet wet,—bursting with fits of laughter at the men, women and children scrambling for fish was the order of the day. Gearhart is a quiet place with no saloons."
