The Publisher's. Claims Sustained

UNITED STATES COURT OF CLAIMS The Publishers of Webster's International Dictionary allege that it "is, in fact, the popular Unabridged thoroughly re-edited in every detail, and vastly enriched in every part, with the purpose of adapting it to meet the larger and severer requirements of another generation."

and severer requirements of another generation."

We are of the opinion that this allegation most clearly and accurately describes the work that has been accomplished and the result that has been reached. The Dictionary, as it now stands, has been tooroughly redited in every detail, has been corrected in every part, and is admirably adapted to meet the larger and severer requirements of a generation which demands more of popular philological knowledge than any generation that the world has ever contained.

It is perhaps needless to add that we refer to the dictionary in our judicial work as of the highest authority in accuracy of definition; and that in the future as in the past it will be the source of constant reference.

Had Tetter for Thirty Years

I had suffered with tetter for thirty years and have tried almost countless remedies with little, if any, relief Three boxes of Chamberlain's Salve cured me. It was a torture. It breaks out a little sometimes, but nothing to what it used to do .- D. H. Beach, Midland City, Ala. Chamberlain's Salve is for sale by all druggists.

This is an ailment for which Chamberlain's Pain Balm has proven espe berlain's Pain Balm has proven espe-cially valuable. In almost every in-stance it affords prompt and permanent relief. Luke LaGrange of Orange, Mich., says of it: "After using a plas-ter and other remedies for three weeks for a bad lame back, I purchased a bot-tle of Chamberlain's Pain Balm, and two applications effected a cure." For sale by all druggists. sale by all druggists.

Chamberlain's Cough Remedy One of the Best on the Market

For many years Chamberlain's Cough Remedy has constantly gained in favor and popularity until it is now one of the post staple medicines in use and has an enormous sale. It is intended especially for acute throat and lung diseases, such as coughs, colds and croup, and can always be depended upo... It is pleasant and safe to take and is un-doubtedly the best in the market for purposes for which it is intended. Sold by all druggists.

Administratrix' Notice

Notice is hereby given that the undersigned by an order of the county court of Multnomal ounty, Oregon, has been appointed as admin-stratrix of the estate of William F. Fetting. ceased. All persons having claims against uch estate are required to present ther within six months from the date of this notice with the proper vouchers, to the undersigne at the office of E. B. Dufur, 727 Chamber ommerce, Portland, Oregon.

Dated this 10th day of September, 1907, First publication Sept. 13; last Oct. 11.

Attack of Diarrhoea Cured by One Dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy.

I was so weak from an attack of diarthoea that I could scarcely attend to my duties, when I took a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It cured me entirely and I Remedy. It cured me entirely and I had been taking other medicine for nine days without relief. I heartily recommend this remedy as being the best to my knowledge for bowel complaints.—

JOHN D'S BIG SHARE

Rockefeller Has 247,690 Shares of Standard Oll.

VALUE HAS DECREASED GREATLY

Big Oil Combine Has Made Profits of Over Eight Hundred Millions Since 1882.

New York, Sept. 21,-Records of the stockholders of the Standard Oil company of New Jersey, laid bare yesterday at the hearing of the government's suit for the dissolution of the alleged oil combine, disclosed the fact that John D. Rockefeller owns 247,690 handle our forests with regard to the shares, or nearly five times as much stock, as any other individual shareholder, and that he and his associates who signed the trust agreement in 1882 still control a majority of the stock. Measured by the present market price of \$440 a share, the holdings of Mr. Rockefeller in the Standard Oil company have a value of \$109,000,000. The stockholders' record of August 17, 1907, shows that the University of Chicago is the owner of 5,000 shares of Standard Oil stock.

The depreciation in the price of the stock within the past 10 years, about the time the agitation began, has been more than \$400 a share. Since legal proceedings against the Standard Oil company were instituted, the stock has steadily declined, until it is now around \$440. This represents a loss of over \$100,000,000 on the holdings of John D. Rockefeller.

The shrinkage in the market value of the stock cost the University of Chi-cago about \$2,000,000.

Accountants for the government are still engaged on the records of the liquidating trustees and ledgers obtained from the Standard Oil company, and, while the examination has not been fully completed, it is said that the books show that from 1882 to the present time the oil combine has earned between \$800,000,000 and \$900,000, 000. It is expected that next week the exact figures will be produced in court.

EIGHTEEN MINERS KILLED.

Cage Drops 760 Feet to Bottom Shaft.

Negaunnee, Mich., Sept. 21.—By a cage plunging 760 feet down the shaft of the Jones & Laughlin iron mine, 11 men were killed and seven fatally in-The cage with its homan freight was being lowered on its first trip of the day, when the brake sudden-ly failed to hold. Two other men sprang to the assistance of the one at the brake, but their efforts did not avail and the wire cable continued to unreel from the drum like thread from

The cage shot down a couple of hundred feet before a kink in the too rapidly paying out cable caused it to part and from that point the cage had a sheer drop to the bottom of the shaft. The safety catches with which it was equipped failed to operate. The surg-ing of the cable and its mad flight tore out part of the side of the engine house and ripped out several of the sheaves in and about the shaft house. Workmen at the bottom of the mine immediately set about the task of removing

The bodies lay in one pile, a mass of lifeless flesh and blood. The bones of the bodies were so shattered that the men, when they struck, were piled on top of each other like so many pelts of leather. Seven men were found still

When all the miners came from under the ground and many anxious wives and others failed to find members of the families who worked in the mine, the scene was pitiful. Priests and ministers moved among the people consoling them and begging them to be calm

Japanese Are Pouring In.

Victoria, B. C, Sept. 1.—The steam-er Indiana arrived at quarantine with 275 Japanese destined for Vancouver, and remained at quarantine until some time last evening in order to reach Vancouver about 3 o'clock this mornng. The Japanese had heard of riots in Vancouver, and were anxious to land here. The Shinano Maru also brought 312 Japanese, 193 being for Victoria and Vancouver and 119 for Seattle. According to advices by the Shinano Maru, cholera is epdiemic in many

parts of Japan. Two More Plague Deaths.

San Francisco, Sept. 21.—The total number of bubonic plague cases to date, as reported at today's meeting of the board of health, is 35, an increase of two over yesterday's score. Twenty these 35 have died, and there are 20 patients under observation as unverifled suspects. The wholesale merchants south of Market street, in the waterfront neighborhood, have united in a statement to the authorities that they will at once begin a general campaign of cleaning up their premises and dis-

Large Fleet Is Gathering.

San Francisco, Sept. 21 .- The growing fleet of warships in the bay was added to today by the arrival from Bremerton navy yard of the armored cruiser Charleston. The cruiser pro-ceeded at once to Mare island, where she joined the cruisers Albany, Cin-cinnati, Raleigh and a number of tcrpedo boat destroyers. In all probability all of the vessels will remain at the navy yard until the coming of the cruiser squadron from Honolulu.

Date For Pettibone Trial. Boise, Sept. 21.—By agreement of attorneys and the court, the trial of George A. Pettibone is fixed for October 4. Judge Hawley expects to with-draw from the Borah case in order to give all his time to preparation for the Pettibone trial. Pettibone is charged with complicity in the warder of gov-

PRESERVE THE FOREST.

Country Will Look to Northwest for Supply Before Long.

"The Northwest section, comprising Oregon, Washington, and Idaho, will lege, in a recent conversation. "Just tendance to oversee the pickers and now, about one-fourth of the merchantable timber of the United States is in Washington and Oregon. The With a scoop a picker can gather 20 'Lake State region,' including Michi-gan, Wisconsin and Minnesota, is lum-bered and logged; so is the Southern belt, including northern Alabama and Georgia, Tennessee, Kentucky, the western parts of West Virgicia and Virginia; the eastern part of Texas, Arkansas, and the southern part of Missouri. In a very few years, more than at present, the people of the United States will be looking to the Pacific Northwest for much of their lumber "What we must do is to learn t

PROFESSOR E. O. SIECKE

future crop; that is, cutting to a diameter lim t, and not leaving the land to revert back to the state for taxes, as has been the policy of many of the lumber companies in the lake region. The high prices for lumber will make it possible to leave trees having a diameter of from twelve to twenty-four inches for the future crop. Then these devel-oping tracts of forest land should be well cared for. Fires should be kept out, and laws should be rigorously enforced preventing the cutting down of the trees until they have grown to the right size. All this means, of course, a great need for skilled foresters, and considerable expense, but it will be t perpetuate the rich forests of the Paciic Northwest, and every dollar of such expenditure will return to the people doubled and trebled."

CRANBERRIES IN OREGON

Venture Proving a Success Tillamook County.

"Cranberries raised in Oregon" the new slogan for the commercial bodies to cry out to the world at large now that the fields of Tillamook county are producing large quantities of the berries that round out the Tlankseiv. ing dinner. B. O. Snuffer, of Tillamook, recently exhibited a box of berries in Portland which were picked from the march in Tillamook county. Mr. Snuffer, in telling about the new industry, said:

"The vines from which these berries were picked have not been touched for eight years except to pick the berries Because the berries require so little care and attention, the profits are very large. Not an acre from the pate these berries came from has ever duced less than 925 bushels and with care would yield 800 bushels. The berries sell for \$3 a bushel. King picked 1,000 bushels an acre from

a tract he owned. "I commenced the culture of cranberries in the spring of 1893, and fine that the vines are well adapted to this climate. They grow vigorously and where the bogs are properly prepared they are enormously productive. While picking my crop one year I measured off some ground and picked them care fully, and found that they produced at the rate of 1,000 bushels to the scre Allowing \$1 per bushel as net profit, I do not know of an agricultural product that will compare with it, and p'acing

figures at a minimum. "It costs about \$200 to prepare the ground and plant the vines, including the cost of the plants. The bog must be so situated that it can be drained off by means of ditches to the depth of at least 15 inches, and one must also have control of plenty of water for irrigation and flooding purposes. Although I have seen some marshes that were a success without any water supply, I do not consider it safe, in view of the large

"A bog once set in the proper shape will last indefinitely. The first cost, although quite large, cuts little figure

"I find that the cranberries grown here are of a darker color than those grown in the East; those here are much superior in flavor, and also weigh more to the bushel. The size of the berry is about the same.

"According to my experience, the McFarland cranberry is the best variety for the Pacific coast. It is the largest and most prolific, a splendid keeper, and by all odds the best seller. In the East this sort is considered a poor keeper, but it appears to be better adapted to this climate, and grow to

perfection here.
"I have had good success with the Cherry and Bell variety. They yield well and sell well, and are of good olor. Their flavor is excelled by none, and they are of good size, though not as large as the McFarland berry.

"The picking season is usually one of pleasure, for several reasons, to both picker and protietor. The weather is generally fine-September and October -when men, wemen and children come for an outing in the cranbherry fields. They come with a camping outfit, pre pared to enjoy the pleasures of outdoor life, the health giving ocean breezes and a rest from the city and home toil "In picking, lines are strecthed cross a plat of ground three feet apart and each picker works between the lines, the vines making a carpet upon which to work. They hang on uprights about six inches high and are

truly beautiful to look upon. The berries are a bright red color, and, in many cases three and four deep, touch-ing each other, completely hide the vines and ground beneath.

"The pickers are given a six-quart witness the fullest development of its berries clean as they go. When the lumber industry within the next ten measure is full it is emptied into a years," said Professor E. O. Siecke. bushel box, and when the box is full the head of the newly established school of they are given a check which is good head of the newly established school of they are given a check which is good forestry at the Washington State colfor 75 cents. Yard men are in at-

> "In the East the vines are often in fested with insect pests, and if the growers have not control of the water the whole crop is in danger. I understand the pests have been imported here at different times in shipping in plants, but they soon dis ppear, as they cannot live in this climate. "There is money in the cramberry bosiness and the many bogs of Tilla-

means and energy to develop them." ORLANDO RICH IN ORE.

mook county are waiting for men of

Strike is Made 287 Feet From the Portal of Tuhnel.

D. M. Adams, mining engineer, who has been investigating recent strikes at the Orlando mine, in Northern Idaho. has submitted his report to the board of directors. Mr. Adams expresses himself as well pleased with the appearance of the mines. He says in

"The lead was encountered 287 fee from the portal of the tunnel, and was crosscut 10 feet on the d p of the lead. which varies from 12 inches to two feet in width. The tunnel at the intersec tion of the lead is about four feet wide, and in cross cutting the lead more than a ton of high grade shipping ore was taken out. This ore will average 60 per cent antimony, and as antimony ore is worth \$2 per unit, the ore is therefore worth \$120 per ton, on the cars at Burke, Idaho. This is the main ead we have been driving for for more than 12 months. The strike shows that we have a well defined, strong and persistent lead, carrying a high perentage of first class shipping ore, proved for more than 200 feet in depth and for about 100 feet on the strike of the

"The tunnel is no 302 feet under

England's National Color. Why red should have been selecta: the national color becomes intelligie when we look at the cross of St. Sir Walter Scott, when he rote of how "their own sea hath belimed those red cross powers," was erely anticipating the phrase of toay. But Oliver Cromwell, when for e first time he put the English soldier a red coat, probably did as much as t. George to monopolize red as the naonal color. The aggressive color has, owever, many meanings and has lent self to many uses. In the days of ie Romans when it flared on the head a slave it stood for freedom; in the ays of the French revolution it stood or freedom backed by blows, while in he streets of the city to-day the red ross stands for succor. So far back as he reign of Henry II. there was a red ook of the exchequer, a record of the ames of all who held lands "per barniam," and at this moment persons tate find their names entered in a red

Getting Practice. "I counted seven girls taking down my sermon in shorthand this mornng," said a suburban minister. "I am getting tired of this business of turnng church into school. It is a desecration of the Sabbath and of the sanctuary, and it gets worse year by year "When the thing first began, I admit that I was flattered. I thought the solitary shorthand writer in my front pew was a reporter. I took unday. In vain, of course. The short-

ook .-- London Chronicle.

pains that morning, and I searched all the newspapers the next hand writer was merely a student of stenography, using me to practice on "Students of stenography should practice on actors and on lecturers, but no-that would cost money. Nething sults them but ministers, and every Sunday, all over our land, young men and women, with their pads and fountain pens, go to church solely to improve their shorthand."

"Can you point out a man who at the age of thirty has not committed at one time in his life a crime that would have sent him to the penitentiary?" remarked a trusty at the penitentiary the other day. "I do not believe that there is a man living, excluding, for the looks of the thing, the clergy, who has not done something to bring him here had he received his just deserts. It is not always a great crime that sends a man to the penitentiary. There are men in here for stealing chickens or clover seed or nothing at all. It is easy to get behind the walls. There are many men on the outside who should be in here. I am personally acquainted with a few myself. But the difference between these people and myself is that I have been caught and they have not."-Columbus Dispatch.

It Blew.

When a British battleship was lying the visiting vessel was discussing rough weather with a group of Ameri

"Still, that wind was nothing to one laughed the lieutenant. "Why, it blew so hard that it took four men to hold Prince Louis' hat on, and even then it blew the anchors off the buttons on his coat."-Woman's Home Companion

In order to put a stop to the practice of binding women's feet, the Chinese Board of Education has issued an order prohibiting the sale of small shoes.

Joseph Niz, the Wesleyan reformer took 3,845 signatures to the pledge in a nine days' gospel temperance meeting re-cently held in Bradford, England.

Veritable Gold Mine.

1906 the Indiana Company Earner More Than Ten Times Its Capital Stock.

New York, Sept. 19 .- More light was shed upon the remarkable earning capacity of the various subsidiary com panies of the Standard Oil company vesterday when Frank O. Kellogg, wh s conducting the Federal suits, sucseeded in placing upon the record the profits of 17 of the principal subsidiary companies in the years 1903 and 1906 The statement of earnings of the Stand ard Oil comeny of Indiana, which was recently fined \$29,240,000 by Judge Landis, of Chicago, for rebating, dis closed that in 1906 the company carned \$10,516,082 on a capitalization of \$1, 000,000, or over 1,000 per cent a year The Indiana company in 1906 earned more than any subsidiary company of the big combine.

Mr. Kellogg developed during the lay, while Clarence G. Fay, assistant comptroller of the Standard Oil company, was on the stand, a curious prob-lem of financial bookkeeping or hand-ling of accounts, which Mr. Fay failed to explain. From figures submitted it was shown that the Standard Oil company of New York in 1904 made a pro fit of \$7,775,760, and paid as dividends to the Standard Oil company of New Jersey the total sum of \$32,998,430 This transaction reduced the net ascet of the New York company from \$40, 425,900 to \$15,179,706, while the lia bilities leaped from \$47,646,235 in 1903 to \$81,395.145 in 1904, an increase of nearly \$34,000,000. The gross assets of the New York company, however, increased from \$88,0,4,561 in 1903 to \$96,574,852 in 1904. Meanwhile the accounts receivable of the Standard Oil company of New Jersey grew from \$19, 045,041 in 1903 to \$58,272,924.

Mr. Fay was closely questioned as to the nature of the increased liabilities of the New York company, and the increase in the accounts receivable of the Standard Oil company, of New Jersey, but he said he could not tell until he had examined the books of both com panies, which he told Mr. Kellogg he

LOOT OF ROBBERS \$40,000.

Currency Stolen in Montana Train

Hold-Up. Spokane, Wash., Sept. 19 .- Forty thousand dollars in currency, the greater part of which was in bills of large denomination, is now declared to be the haul made by the robbers who held up the Great Northern Oriental imited train near Rexford, Mont., on the morning of September 11.

This money, according to reports received here, was consigned by the Commercial National bank, of Chicago, to the Old National bank, of this city. In spite of the fact that the money was consigned to the Spokane Sbank, the continuous cont as the money was fully insured in one of the big Eastern companies. The money stolen is said to have been in four registered packages, each package containing \$10,000. These were in the car which was dynamited by the robbers. From the investigation of the officials it is believed the \$40,000 was practically the full amount secured by

"The Old National bank knows noth ng of the loss of such a shipmen other than that inquiries have been made as to whether it was received here or not," said W. J. Kommers, assistant cashier of the institution. "The Commercial National bank, of Chicago, may be tracing such a ship-ment, but we know nothing of it. The bank is not our Chicago correspondent.'

Nebraska Fears Disease.

Lincoln, Neb., Sept. 19 .- Fear of ar epidemic of beriberi, a disease with which 20 Japanese laborers of Alva are afflicted, prompted City Physician Slattery today to order an inspection of the Orientals in this city, and he will try to have it extended to the entire county. Dr. W. L. Wilson, state health inspector, visited the camp at Alva and ordered the afflicted laborers segregated. No official action on the part of the state board of health has been taken. Many Japanese are em-

Use Fuel Oil on Warships.

London, Sept. 19 .- A radical change s regards fuel for the navy has been decided upon by the British govern-ment. Hereafter oil is to be substituted for coal at the various navy bases. Heavy purchases of petroleum already have been made in Texas, California and Roumania, and it is stated that the purpose of the government is to utilize the entire output of Nigeria, where drilling parties under control admiralty have been employed for some time, and where the oil deposits are said to be almost illimitable.

Flour Trust Raises Prices. San Francisco, Sept. 19 .- The flour in New York harbor a lieutenant of trust has raised the price of flour 20 cents a barrel, or 5 cents a sack. The trust has also notified the grocers that can naval officers, one of whom repeat- they must charge the consumers this ed the tale of the day that was so advance. All the principal flour mills windy that the crows had to walk in this and neighboring cities belong home. of a sack of flour was \$1.55, the new we encountered in the bay of Biscay," order provides that the consumer shall hereafter pay \$1.60 a sack for the same

Regain Trade of Alaska.

San Francisco, Sept. 19 .- In order to regain, if possible, the Alaska trade, which is worth \$15,000,000 a year, the merchants of this city, at a largely attended meeting yesterday in the chamber of commerce, authorized a commit tee, representing all the big shipping firms here, to negotiate for the estab-lishment of a direct line of steamers to Nome and the southeastern points in
