Do You Belong to "The Citizens' Committee?"

This committee is made up of the men who sit around an excavation for a new building, whittle pine sticks, spit tobacco juice on the fresh dirt and watch the other fellows work.

It's all right to show interest in new buildings, in town development and progress, but there's a better way.

You can do more good for yourself and the community by resigning from "The Citizens' Committee" and getting into the General Progress Committee.

This committee is the one that PUTS UP THE NEW BUILDINGS, brings new business into town to occupy them, paints the old houses, keeps the sidewalks in good repair, beautifies the front yards, cleans up the back yards and otherwise makes this town a better town to live in.

The General Progress Committee is the Unofficial Town Booming Committee. It really ought to be organized and made official. Let all of us work together for the advancement of the town we live in, and there will be more room around new excavations for the fellows at work to throw out the dirt.

Eternal industry is the price of progress. Let's all fall in line for the General Progress Committee—and then

JUST WATCH THE OLD TOWN GROW.
