scene in it. I never fall to make a big hit when I die." "I don't doubt it," replied the heartless manager, "and I may say that you would make the biggest hit of your life if you would go away somewhere and die right now."-Chicago Record-Herald.

Johnny (sitting up in his bed at 12:30 p. m.) - Dad, I'm so thirsty. Pa-Lie quietly and go to sleep. Johnny (after a pause) -But, dad, I must have a drink of water. I'm so thirsty. Pa-If you don't go to sleep this minute I'll have to thrash you. A long silence, then Johnny replied-All right, dad. If you're getting up to thrash me, you might bring me a glass of water at the same time.

How to Enjoy Whist. "How can one learn to enjoy the game of whist?"-Aspirant.

Get yourself roped into a game as partner to some one who helped Hoyle write his book. The other two players must also be experts. Start in pleasantly to enliven the game with a few well-chosen anecdotes, now and then making the wrong play. After your partner has slapped your ears and sworn at you and put the black curse on you and all your ancestry and called you a fool a few times you will awake to the real joy of the gentle and intellectual game. We have tried this several times, but not at frequent intervals, and we can guarantee its efficacy. -Chicago News.

Often a man imposes on himself when he taxes his memory. ..

BAD BLOOD THE SOURCE OF ALL DISEASE

Every part of the body is dependent on the blood for nourishment and When this life stream is flowing through the system in a state of purity and richness we are assured of perfect and uninterrupted health; because pure blood is nature's safe-guard against disease. When, however, the body is fed on weak, impure or polluted blood, the system is deprived of its strength, disease germs collect, and the trouble is manifested in various ways. Pustular cruptions, pimples, rashes and the different skin affections show that the blood is in a feverish and diseased condition as a result of too much acid or the presence of some irritating humor. Sores and Ulcers are the result of morbid, unhealthy matter in the blood, and Rheumatism, Catarrh, Scrofula, Contagious Blood Poison, etc., are all deep-seated blood disorders that will continue to grow worse as long as the poison remains. These impurities and poisons find their way into the blood in various ways. Often a sluggish, inactive condition of the system, and torpid state of the avenues of bodily waste, leaves the refuse and waste matters to sour and form uric and other acids, which are taken up by the blood and distributed throughout the circulation. Coming in contact with contagious diseases is another cause for the poisoning of the blood; we also breathe the germs and microbes of Malaria into our lungs, and when these get into the blood in sufficient quantity it becomes a carrier of disease instead of health. Some dition of some mucous membrane.
