tion of pay. The moncommissioned officer does not cor-respond with an unsilied laborer; he corre-sponds to the best type of skilled workman or to the subordinate official in civil insi-tutions. Wages have greatly increased in outside occupations in the last 40 years and the pay of the soldier. He the pay of the officers, should be propertionately increased. The first screated of a company, if a good man must be one of such executive and administrative ability, and such knowledge of his strade, as to be work far more than we at present pay him. The same is true of the regimental screatent major. These men should be men who had tilly resolved to make the Army a life occupation and they should be given a chance to secure these fluid preads. The increase over the present pay need not be great in the lower the present pay need not be great in the lower the present pay need not be great to the origen the hardes for the first one or two enlatments hat the increase should be marked for the noncommissioned officers of the apper grades who zerve iong enough to make it evident that they intend to stay perma-neetive in the Army while additionat may crease should be marked for upper solved offleers of the upper a serve long enough to make it hat they fatend to stay perma-the Army, while additional pay given for high qualifications in

re. n of warrant officer should be nd there should be not only an eay, but an increase of priviopen to noncommissioned of filling them desirably dpoint. The rate of de-rmy now in time of peace deserter should be treated ble of maint standpoint.

tear of two. The markemannahip on all each shifts have the part of the order of the series. The series of the order in the series of the series of the order of the series of the order of the series the officers and enimed men of the Navy, it is true of them, as likewise of the officers and enileted men of the Army, that they form a hody whose intervats should be chase to the heart of every good American. In return the meat risid performance of duty should be chasted from them. The reward should be sample when they do their best; and mathing leng than their heat about be to located. It is life to hope for the these results when the ment in the senior grades come to those grades late in its and every to should be a now. By removing the rank of lights and end in the first insta as would eliminate the unit. After the grade of lieutenant-commander, that is, when we come to the grade of animatil rank the grade of lieutenant-commander, that is, when we come to the grades he a prin-cipal test of fitness. Those who are passed by should, after a certain length of serv-ice in their respective grades, he retired of a given humber of men it may be well that almost all would make good lieuten-ants and most of ther good lieuten-ants and most of ther good lieuten-ants and most of ther good lieuten-ants and most of the should be fitness. Those who append lieutenant commanders, while only a minority will be fit to be captains, and but three or four to be admirate.

se who object to promotion.

Chinese Students.

Chinese Students. This Nation should help in every pres-icable way in the education of the Chinese eople, so that the vast and populous Em-ire of China may gradually adapt (self to nodern conditions. One way of doing this s by premoting the coming of Chinese stu-tents to the courty and making it at-ractive to them to take courses at our uni-cusities and higher educational institutions, or educators should, so far as possible, also concerted action toward this end. Maileo and Central America.

.

Include to them to take courses at our universities and plather educational institutions, Our educators should, so far as possible, take concerted action toward this end.
 Meslice and Central America.
 On the courtenes invitation of the President of Meslice, the Sectember and October and was releved everywhere with the sectember and control of the president of Meslice and Courtenes in the courtenes of the courtenes of the sectember and the sectember and increase of the president of the president of the proble of Meslice was here and increase of the president and increase of the preside of Meslice and the proble of Meslice was here and increase of the preside of Meslice and the proble of Meslice and the increase of the the sector friendly attitude and the increase of the the class neightorface of the two countries the relations which exists between Muslice and the Entited States are put ensue for Meslice to the Pather. Much of the increase for Meslice only by the shifting waters of the Bio Grande. Many thousands of Meslicens are resident in Meslice are induced that over 40,000 Americans are resident in Meslice and the scale prover discortion in the one for the sector induction in the scale of the two further and the sector frequent in Meslice and the course relation promoted that and the sector for the stream of the scale of the further and americans are resident in Meslice and the sector for the stream of the scale of the scal

Magistrate of that nepublic.
International Barsen of American Republics
One of the results of the Pan-American Conference at Rio Janeiro In the Summer of 1000 has been a great increase in the activity and userliness of the International Bureau of American Republics. That institution, which includes all the American "c-sublics in its membership and brings all their representatives together, is doing a really valuable work in informing the people of the International their representatives together, is doing a really valuable work in the other Republics and in making the United States about the other Republics and in making the United States appropriations determined when it was doing a work on a much smaller scale and rendering much less valuable service. Trecomment that the contribution of this Government to the expenses of the bureau be made commenurate with its increases work. THEODORE ROOSEVELT.
