## MONTAVILLA

### LOCAL NEWS ITEMS

H. B. Dickinson says that when good domestic coal can be dug from a seven-foot vein, drawn out of the mine on a level, by a horse, coasted by gravity down grade less than a mile and loaded onto barges in 500 and 1000 ton lots and towed by steamer to market, a distance of not to exceed fifty-five miles, it is but one more of the many natural advantages which augurs the future greatness of the city of Portland. Such is the property of the Consumers Coal company, near the Cowlitz river, Washington.

We hear of wet basements and damp cellars in other parts of the city, but nothing of the kind in Montavilla.

The lands around Montavilla are the lightest, warmest, and with proper care will produce the earliest fruits and vegetables of any place in the vicinity of Portland. Ask Mr. Huntley, whose land is near "stony butte" if this is not true.

Another year will see many of the old useless, unsightly fences removed, as

Peterson removes another of the old-time settlers on the Section Line road. He had been ill for a long time and was at one time a patient at the hospital. A man whose character was upright and honest, a good neighbor and true friend, his death came as a shock to those whose esteem he enjoyed and appreciated. Mr. Peterson was well known in our community and leaves a widow and two sons. He was laid to rest Sunday.

### When to Go Home.

From the Bluffton, Ind., Banner: "When tired out, go home. When you want consolation, go home. When you want fun, go home. When you want to show others that you have reformed, go home and let your family get acquainted with the fact. When you want to show yourself at your best go home and do it there. When you feel like being extra liberal go home and practice on your wife and children first. When you want to shine with extra brilliancy go home and light up the whole household." To which we would add, when you have a bad cold go home and take Chamberlain's Cough Remedy and a quick cure is certain. For sale by all dealers.
