BENEFIT OF WINNIPEG MARKET

One Lumberman Says Trust Controls All of the Northern Pacific Land Grant Timber.

Washington, Dec. 14.—Washington lumbermen who appeared as witnesses yesterday before the Interstate Commerce commission, took particular pains to "rub it in" on James J. Hill, because of his threat to drive more lumbermen into bankruptcy. One witness brought out the fact that, while the railroads assert that the old rate on lumber from Puget Sound to Chicago, Denver and Kansas City was not commensurate, the great Northern is today loading lumber at Vancouver, bringing it to Puget Sound, thence East through the United States and back to Canada, landing it at Winnipeg and more distant points, for 40 cents, the rate formerly in force on Puget Sound lumber shipped an equal distance in the United States. Another witness recalled Mr. Hill's assurance given Washington lumbermen at a banquet some time ago to the effect that his roads would never impose a rate on lumber that would be injurious to the milling industry of the Northwest.

The Oregon men closed their testimony by submitting further comparisons of lumber rates from the South and West to Chicago and Kansas City. Several witnesses testified as to the technical case of the Oregon and Washington lumbermen, according to the amount of output of their companies, the points of destination of their product and the prices paid for it. The rates which the Oregon and Washington lumber producers were forced to pay were offered in testimony and the assertion was made that these rates were such as to compel the producers of lumber in the Pacific Northwest to close their mills. Witnesses testified that they were unable to place their product on the market East of the Rocky mountains at a profit, and that they could not depend upon the local market in their territory to provide such a market as would enable them to maintain their business.

The line of cross examination indicated the purpose of the railroads to show that the rates were not exorbitant, but really were fair and equitable compared with the rates given producers of manufactured lumber in the yellow pine districts.

W. C. Miller, president of the Southwestern Washington Lumbermen's association, testified that 90 per cent of the mills in his section of the state had closed since it became known the lumber rate was to be advanced, and those mills now have on hand 70,000,000 feet of lumber, for which there is no market. He said the Weyerhaeusers now owned all the timber lands of the Northern Pacific grant and virtually controlled the price within 100 miles of the road. They bought 1,000,000 acres for \$6,000,000 and sold one section of that for \$75,000 stamper. He said they now controlled prices and emphasized the fact that the members of his association were anxious that the Interstate commission should open the Portland market to Washington lumber so that Southwestern Washington millmen could dump their common stock into Oregon and other Harrison territory. No indication of an end of the hearing is in sight. Several other cases are pressing for hearing by the commission, but it is not likely that the pending cases will be concluded before the middle of next week.

RECOVER 320 BODIES.

Monongah, W. Va., Dec. 14.—The search in mines No. 6 and 8 of the Fairmont Coal company for victims of last Friday's explosion was suspended early tonight, partly because fire had again broken out in mine No. 8, and partly because practically every section of the two mines has been explored and it was not believed that further search along the same lines would result in the finding of more bodies. Three hundred and twenty bodies have been removed. Of these 71 were Americans.

GOING EASY ON EXCLUSION.

Seattle, Dec. 14.—The Japanese-Korean Exclusion league of Seattle has radically modified its position on the exclusion of Orientals. When first organized the league declared in favor of the exclusion of all Orientals, and advocated this for months. Lately the sentiment has changed, and tonight the leaders of the league indorsed a petition which will be laid before congress calling for the exclusion of Orientals, with the exception of merchants, students and travelers, leaving only the laboring classes.

WEEDING OUT JAPANESE.

Norfolk, Va., Dec. 14.—According to the report of petty officers on shore leave tonight, when the fleet pulls out Monday for the Pacific there will not be a Japanese cook or servant on any of the ironclads. This report is to the effect that the Japanese are being quietly but rapidly weeded out by order of the commanding officer, and their places are being filled by negroes. No reason is given for the order by the officers.

LOWEST BIDDER ON CANAL LUMBER.

Washington, Dec. 14.—The Olson-Mahoney Lumber company, of San Francisco, was the lowest bidder at \$124,372 for furnishing the Isthmian Canal commission with approximately 6,000,000 feet of lumber, ranging in sizes from 13 to 12 1/2 inches. The material is to be delivered at Colon or LaBoca. There were 21 bidders. It is expected that the Olson-Mahoney company will get the contract.

WILL CONTINUE 2 1/2 CENT RATE.

Montgomery, Dec. 14.—The Southern railway today agreed to keep in force the 2 1/2-cent passenger rate until the other state rate questions are settled.

RATE CASE HEARING.

Lumbermen Tell Troubles to Interstate Commission.

Washington, Dec. 13.—Two Oregon millmen yesterday testified before the Interstate Commerce commission that when it was rumored that the rate on Pacific coast lumber was to be advanced they saw R. B. Miller, general freight agent of the O. R. & N., and told him the increase would drive them out of Denver, Kansas City and Chicago territory. Mr. Miller is reported to have replied that the new rates were experimental, and if the trade would stand then they would be maintained, but if not satisfactory, the rates would be restored to the old figures. It was his opinion as well as Mr. Harriman's, that lumbermen were extremely prosperous, and that their large outputs justified the raise.

Later, when the subject was broached to James J. Hill by the Puget sound millmen, Mr. Hill lost his temper and retorted that, while many mills had been driven to bankruptcy already, still others could be wiped out before the commission could dispose of this case.

"We are going to give you people out here a chance to cool your heels," he declared as he turned away. Mr. Hill, Howard Elliott, J. C. Stubbs, J. M. Hannaford and many other railroad men will be placed on the stand before the hearing closes.

WORK IS RESUMED.

No Trouble at Goldfield When Non-Union Men Take Charge.

Goldfield, Nev., Dec. 13.—The first day of the attempt to re-open the mine of Goldfield without the aid of the Western Federation of Miners has passed, and there has not been a single instance of attempted violence or disorder in the camp. Unarmed pickets of the Goldfield miners union have approached as close to the scene of the operations as the armed guards of the Mineowners' association would permit and have succeeded in inducing some of those who had signed the agreement to return to work, to violate that agreement and leave the mine.

It was stated last night that the leaders of the strike had secured what evidence they want to prosecute some of the mining operators under a statute of the state of Nevada, which makes it a crime punishable by a fine of not more than \$500 or more than \$300, or imprisonment for not less than 20 nor more than 150 days, or both, to require an employee to promise or agree not to become a member or remain a member of any labor organization. Arrests may be expected at any time, it is stated by some, while others characterize the whole report of probable arrest as a bluff.

MEET IN DENVER.

National Democratic Convention is Called for July 7, 1908.

Washington, Dec. 13.—After deciding to hold the next Democratic national convention at Denver, and fixing the date of the meeting for July 7, 1908, the Democratic National committee late yesterday entered upon a spirited debate on the propriety of accepting more of the \$100,000, offered by Denver for the convention than is actually needed to pay the convention expenses in that city. The opposition to the acceptance of the contribution took the form of a resolution by Representative Clayton, of Alabama, declining money not actually needed for the convention, but after a long debate the resolution was laid on the table by a vote of 31 to 14.

BODIES ARE WASHED AWAY.

Bloomburg, Pa., Dec. 13.—Owing to the high water in the Susquehanna river and the terrific force of the current, no attempt was made today to recover the bodies of the seven men drowned yesterday when the Millville bridge collapsed. The water rose rapidly until noon, when it began to subside. With the flood as it is at present any attempt to recover the bodies would be futile, and probably nothing can be done in that connection for several days. All of the seriously injured are expected to recover.

MEN FED THROUGH PIPE.

Reno, Nev., Dec. 13.—The three miners—Brown, McDonald and Bailey, who have been entombed for a week in a drift at the 110-foot level of the Alpha shaft of the Giroux mine at Ely, still are alive and are able to communicate with the miners at the top of the shaft. They have been given food through the six-inch water pipe connecting with the surface to last them a week, and in case this pipe is broken they will not die of starvation or thirst. The work of clearing the shaft is progressing slowly.

ROOSEVELT SENDS COMMISSION.

Washington, Dec. 13.—Assistant Secretary Murray, of the department of Commerce and Labor, Commissioner Charles P. Neill and Herbert Knox Smith, commissioner of corporations, left Washington at 3 o'clock this afternoon for Goldfield, Nev., to make a thorough investigation of the trouble between the miners and mine operators at that place. Mr. Murray and Mr. Smith made this announcement after a conference with President Roosevelt.

PASS THIS AROUND

Tells How to Make a Simple Rheumatism Cure at Home.

Prescription Given Which Suffers of Dread Disease Can Easily Make Up and Try at Home at Small Cost.

To relieve the worst forms of Rheumatism, take a teaspoonful of the following mixture after each meal and at bedtime:

Fluid Extract Dandelion, one-half ounce; Compound Kargos, one ounce; Compound Syrup Sarsaparilla, three ounces.

The harmless ingredients can be obtained from any druggist in the smaller towns, and are easily mixed by shaking them well in a bottle. Relief is generally felt from the first few doses.

This prescription, states a well-known authority in the Cleveland morning paper, forces the clogged-up, inactive kidneys to filter and strain from the blood the poisonous waste matter and uric acid, which causes Rheumatism.

As Rheumatism is not only the most painful and torturous disease, but dangerous to life, this simple recipe will no doubt be greatly valued by many sufferers here at home, who should at once prepare the mixture to get this relief.

It is said that a person who would take this prescription regularly, a dose or two daily, or even a few times a week, would never have serious Kidney or Urinary disorders or Rheumatism.

Cut this out and preserve it. Good Rheumatism prescriptions which really relieve are scarce, indeed, and when you need it, you want it badly.

Visitor—How are conditions here? Has audience returned?

Resident—Conditions are slowly settling down to their former basis, but confidence has not returned. Most of the people still believe it was the children of their nest, forces the clogged-up, inactive kidneys to filter and strain from the blood the poisonous waste matter and uric acid, which causes Rheumatism.

CATARRH BLOOD AND SYSTEM DISORDERED

Catarrh is not merely an inflammation of the tissues of the head and throat, as the symptoms of ringing noises in the ears, mucous dropping back into the throat, continual hawking and spitting, etc., would seem to indicate; it is a blood disease in which the entire circulation and the greater part of the system are involved. Catarrh is due to the presence of an excess of uric acid in the blood. The Liver, Kidneys and Bowels frequently become torpid and dull in their action and instead of carrying off the refuse and waste of the body, leave it to sour and form uric acid in the system. This is taken up by the blood and through its circulation distributed to all parts of the system. These impurities in the blood irritate and inflame the different membranes and tissues of the body, and the contracting of a cold will start the secretions and other disgusting and disagreeable symptoms of Catarrh. As the blood goes to all parts of the body the catarrhal poison affects all parts of the system. The head has a tight, full feeling, nose continually stopped up, pains above the eyes, slight fever comes and goes, the stomach is upset and the entire system disordered as I

affected by this disease. It is a waste of time to try to cure Catarrh with sprays, washes, inhalations, etc. Such treatment does not reach the blood, and can, therefore, do nothing more than temporarily relieve the discomfort of the trouble. To cure Catarrh permanently the blood must be thoroughly purified and the system cleansed of all poisons, and at the same time strengthened and built up. Nothing equals S. S. S. for this purpose. It attacks the disease at its head, goes down to the very bottom of the trouble and makes a complete and lasting cure. S. S. S. removes every particle of the catarrhal poison from the blood, making this vital stream pure, fresh and healthy. Then the inflamed membranes begin to heal, the head is loosened and cleared, the hawking and spitting cease, the constitution is built up and vigorous health restored. S. S. S. also tones up the stomach and digestion and acts as a fine tonic to the entire system. If you are suffering with Catarrh begin the use of S. S. S. and write us a statement of your case and our physicians will send you literature about Catarrh, and give you special medical advice without charge. S. S. S. is for sale at all first class drug stores.
