## MASTER'S ADDRESS

(Continued from first page.)

earthly ambition. Individual happiness depends upon general prosperity. The prosperity of a nation is in proportion to the value of its productions. The productions of the earth are subject to the influence of natural laws; hence, knowledge is the foundation of happiness.

Then followed three ultimate objects for which the organization was founded: (1) to lighten labor by diffusing a knowledge of its aims and purposes; (2) to expand the mind by tracing the beautiful laws the great creator has established in the universe; (3) to enlarge our views of creative wisdom and power. Thus in the very inception of the grange movement was the threefold nature of man recognized and provided for. He was to be dealt with as a physical man, a mental man and a moral man.

We should have ability to impart instruction and arouse interest in further study of a question. It is not necessary for me to tell you that I am deficient there as a master, but I will say that sympathy, enthusiasm, concentration, efficiency are all essential, but the greatest of these is efficiency. Sympathy is a divine attribute, but it never prepared an appetizing meal to be converted into productive energy in the human furnace. Enthusiasm is good, but it never bound up a wound or saved a life while the doctor was coming. Concentration is essential and beautiful, but it may lose in desire to do. Sympathy, enthusiasm, concentration plus efficiency will do more to cure human ills than any other quartet of human qualities.

Brothers and sisters, I thank you for your kindness and your forbearance with me during the term just ended and wish the new officers success in all your undertakings. I thank you again. Good bye as an officer.

The grange meeting will begin at 10 a. m. and during the forenoon the third and fourth degrees will be given to six candidates. In the afternoon will come installation and program.

## Columbia Grange Begins New Year

Columbia grange met in regular session on Saturday. As it was installation day the grange was fortunate in securing Mrs. Townsend of Fairview, who in a most able and beautiful manner installed the officers. The basket social which was held on Tuesday evening was a complete success, both financially and socially, and the New Year was ushered by the merry-makers until early in the morning.

## QUESTIONS FOR JUNE VOTER

(Continued from page 1.)

will limit the amount of money a candidate can spend himself and also provide that the state shall assume some portion of the expenses of the election. This is called the Hantley bill, which is to prevent corrupt practices in nominations and elections. It is a long and complicated measure. Signatures to a petition to get this bill before the people are being asked for. It has merit, and the writer advises all voters to get hold of a copy and study its provisions. It will be found worth while. It may be said in this connection that at the coming June election there will be numerous measures, some complicated, on which voters should inform themselves thoroughly. Some of these measures will be far-reaching in their effect and importance. No voter should vote on any of them until he shall have read them over and thoroughly digested them and arrived at his own conclusion. There may be the cloven hoof concealed somewhere in these measures that should be submitted. There is but one safe place on a street car track and that is off of the track and on the sidewalk. A voter is always fully justified and este in voting no on every measure that he does not fully understand.

## Interesting Debate Held at Sandy

The Sandy Debating and Literary society held one of its most enjoyable debates of the season last week. The question was "Resolved, that women should have equal political rights with men." It was led on the affirmative by A. C. Thomas, L. Lorman, M. V. Thomas and M. McCormick, and on the negative by E. F. Bruns, assisted by E. Coleman, F. E. McGugin, J. Bell and B. Nelson. After an interesting debate that brought forth many facts and fiction and much humor, cheers and applause both pro and con, the judges, Misses Alice McGugin, Rose Leaf and O. H. Meining, decided the question in favor of the negative side.

The literary part of the program was exceptionally good. Miss Rose Leaf recited a piece which brought forth applause that hardly ended. Miss Rose and Carolina Varietti also recited in a very pleasing manner. Amil Beck's recitation entitled, "When I was a Little Boy," was received with great applause, while Sandy's most favorite humorist, Mr. Bell, kept the audience roaring with laughter until the almost wee hours of Sunday when the meeting adjourned, after having one of the most enjoyable times of the season.

The question for next Saturday night is, Resolved, "That art is more pleasing to the eye than nature." F. E. McGugin and L. Lorman will be the leading disputants.

## The Beekeepers.

The name "beekeeper" applied to British yeomen of the guard has a singular derivation. It is said to come from "beefetter," the guardian of the buffet on occasions of state banquets.

**Scott's Kisses.**

A highly popular custom of the young Scots of past years was for young men to go about the streets ringing doorbells, and theirs was the right to kiss the girl who answered the ring. In case the girl proved elderly or unattractive there was no evading the expected salute, however much it might go against the grain of the bell ringer.

## J. J. JOHNSON TELLS OF MOUNTAIN

(Continued from first page)

We have lost, however, during the year by suspension for non-payment of dues, 3; card (to join other granges), 14; death, 2, a total of 19, leaving our membership at the beginning of this year, 238—31 members more than at the close of last year, a gain of 20.6 per cent. In addition to this number we have also 11 more candidates who are entitled to be initiated and more applications in the hands of our secretary, awaiting our final action.

The average attendance for the year is 106. At three meetings only has the attendance been less than 100, these 95, 85 and 97 respectively. The highest number during the year was 166; our February meeting, the lowest, being largely due to a severe storm raging all day, making it quite impossible for many to attend; otherwise our average attendance would have been materially increased. From this data we see that our attendance has been about 40 per cent of our membership on an average each month, several months being over 50 per cent, a most satisfactory record for a grange with a membership so large and so widely scattered.

Attendance during 1907 was over 23 per cent higher than in 1906, 40 per cent higher than in 1905 and 76 per cent higher than in 1904.

Hand in hand with this good record of attendance we find continued interest in ritualistic work during the year. Officers and members have striven hard to maintain a high standard of work in our grange, and have done their utmost to encourage and stimulate other granges to more nearly perfect work.

We are also pleased to know that the State grange officials recognize in our work the highest benefit to them in promoting better work in other granges. In this connection I must say that the opportunity afforded us by the State grange to exemplify the work for our eastern Oregon brothers and sisters last May was much enjoyed.

I do not deem it necessary to call your attention to the many important questions which the grange is urging before our legislatures and the people, for these questions are laid before you from time to time in our meetings, and you are all quite familiar with them. The one thing necessary at all times is for us as true Patrons of Husbandry to stand firmly with our state body in all matters put before the people by them. Our greatest power and influence lies in unity of purpose and action. Let us be conservative, but forceful; charitable, but just, and wield our ballots and our energy in the best interests of ourselves and of the whole common people.

During the year death has claimed two of our most faithful brothers, J. W. Brock and Gustaf Peterson. Removed from our councils, we miss their cheerful greetings and fraternal encouragement. Their voices are silent, but the influence of their lives and their devotion to the grand principles of our order will ever be with us.

In conclusion, I wish to express my sincere appreciation of the harmonious relations existing among our whole membership. Our differences, which we must necessarily have, and our mistakes, which have been many, have been treated in that truly fraternal spirit rarely found in so large a body. Let us hope that such kindly and harmonious feelings may continue. Our influence as a grange upon the general public has been greatly fostered and strengthened by the friendly attitude of the public press, to which we should and do feel and express the deepest gratitude. I desire to further say that I am especially pleased with the great interest shown during the year by officers and members in all lines of our work. I wish to thank you one and all for this spirit of co-operation and support, and hope and trust that the same spirit of enthusiasm may continue and that our grange may improve and advance even more in 1908 than it has in 1907.

## Proposed Constitutional Amendment

It is proposed to amend by initiative Article IV of the Constitution of the State of Oregon as follows:

Article IV of the Constitution of the State of Oregon shall be and hereby is amended by inserting the following section after Section 22 and before Section 23 in said article and it shall be designated as "Section 22a" of said Article IV.

Section 22a.—The Legislative Assembly shall not directly or indirectly repeal or amend, or in any wise modify any act or law enacted by the people or legal voters of the State of Oregon in the exercise of the initiative power reserved to them by this Constitution; the power to repeal, amend or modify any such act or law to be and remain exclusively in the legal voters of the state.

The petitions to have this question placed upon the ballots for the coming June election are already signed and sent in.
