Improvement Board Meets

The Montavilla Improvement Board met in regular session last Monday evening at the office of Secretary Carter. An unusually large attendance was present. Dr. Deveney of the committee on street lights reported he had been assured that a number of lights would be placed in the near future.

The annual election of officers was as follows: president, W. C. Aylsworth; vice president, E. Epton; secretary, O. E. Carter; financial secretary, S. P. Osburn; treasurer, C. B. LaFollette.

The open meeting scheduled for March 2nd was postponed to a later date, owing to the fact that printed matter relative to the amendments to be voted on at the coming election was not yet to be had, and as the discussion of these measures was the object of the meeting, it was deemed advisable to wait until such time as data could be secured.

The meetings of the board are well attended and there seems to be a disposition on the part of the citizens to take an active interest in the upbuilding of Montavilla.

Anniversary Reception

On Tuesday, February 11, occurred the first anniversary of the Montavilla reading room and the event was duly observed by the interested friends.

The ladies of the Home Training association served refreshments from three to nine giving everyone a chance to inspect the new reading room and also an opportunity to contribute to the library fund.

In the evening Miss Isom, Miss Fox and Dr. Elliot, president of the library association, came out from town and gave excellent talks, commending the work already done and urging the citizens to continue their efforts in behalf of the reading room.

Two readings given by Miss Olivette Mills and Miss Synette Lewis were much enjoyed.

Montavilla citizens are justly proud of their reading room and of the excellent record which it has made in the past year, not only in circulation and attendance but in the per cent of non-fiction read. A great deal of credit is due the ladies of the Home Training association and also to the excellent librarians, Mrs. Mitchell, who is a favorite not only with the boys and girls but the older people as well. May the next year be even more of a success than the past one.

same, 1,402 papers were read by members, 2,401 persons discussed these papers, 1,181 speakers gave addresses on various topics, 6,202 persons rendered vocal selections, 5,240 persons gave readings, 415 dramatic features were carried out, 3,087 persons participated in same, 1,336 other lecture hour features given, 14,007 persons furnished those features. Total number of persons contributing something to the lecture hour of the year in Massachusetts granges were 48,796; total combined audience at the grange meetings of the year in the state 245,835. There were 24 grange meetings devoted to the interests of the public schools and 183 grange meetings devoted to patriotic themes. Many grange meetings were devoted to town and village improvement.

A question that called for considerable discussion was that relative to the establishment of grange department stores throughout the state, which should be controlled by members of the Order, but should be open for supplying patrons and the general public with merchandise. The proposition did not meet with favor, and other plans were suggested to the same end, one being that a special purchasing agent be appointed to buy goods in bulk and distribute them to members of the Order. Another plan contemplated an arrangement with dealers in grain, feed and general farm supplies by which the lowest price might be secured. The whole matter was referred to a committee of three, of which the overseer of the state grange, John E. Gifford, was appointed chairman.

Among the resolutions adopted were those favoring the organization of local cow testing associations among dairymen in order that only profitable cows may be kept, favoring a uniform standard for milk, demanding a total of 12 1/2 per cent of solids, of which 3.5 per cent should be butter fat, indorsing the good roads movement and opposing the restricting of driving of automobiles on public highways. The sixth degree was conferred on a class of over 300. Charles D. Richardson was re-elected state master.

A clergyman in a country town was asked to fill the pulpit for the pastor of a church not far from his own. He accepted the invitation. Before the services began he was handed several notices which he was asked to read and was told that they were usually given out just before the sermon.

Among them was a long and elaborate apology to the congregation for the absence of the clergyman who had been expected to speak to them and whose place this minister had been called upon to fill on an emergency. It was the last one, and he read it without comment or change of countenance. Then opening the Bible he announced his text, "Wherefore, then, be ye content with what ye have."

New Year's in the Alps.

Among the many time honored customs of the Alps none is more interesting than that of New Year. The village pastor delivers his sermon, which is listened to by people who have come a distance of many miles over snow frequently thirty feet deep. When midnight comes the bells ring out upon the frosty Alpine air, and as they re-echo far and wide over the hills and valleys there are mountain villages where the melody of other village church bells chords in harmony, producing a concert no city could afford.

The largest charter membership of any grange ever organized in recent years is 170. Milford, Mass., holds the honor in this respect. The grange was organized Dec. 3 by State Deputy Herbold, 8,730 persons participated in

Romance of a Great Painting.

No picture perhaps has had so romantic an adventure or so miraculous an escape as Raphael's "Christ Bearing the Cross." It was ordered by the fraternity of Mount Olivet at Palermo, the brothers wishing to have a specimen of the celebrated Italian painter's work hanging in their monastery. The picture is remarkable for the truth with which the painter has portrayed the suffering of the Saviour as he bends beneath the heavy load. Raphael painted it in Rome, where he carried out so much of his work, and the picture was carefully packed and dispatched by sea to Sicily. During the short voyage a storm arose, and the wind and waves became so violent that the vessel was wrecked. The crew and passengers perished, and no trace of the ship or her cargo was seen again, save the picture, which, floating in its case on the water, was washed ashore and discovered by the expectant monks. On the case being opened it was found that the sea water had in no way injured the divine beauty of the painting, which was hung up at Palermo amid great rejoicing and thanksgiving at its miraculous escape.—London Standard.

A Splendid Tribute.

The Philadelphia North American says editorially that the grange is the most progressive body of citizens in Pennsylvania. Not a single public reform or economic betterment has been effected which did not first find supporters and advocates in this organization. Their organization is a power known and recognized.

A new grange national bank has been built at Troy, Pa., of gray pressed brick. It will be a two story structure 32 by 60 feet. Pennsylvania seems to have a monopoly on grange banks.

A Few Definitions.

Many children are so crammed with everything that they really know nothing.

In proof of this read these veritable specimens of definitions written by public school children:

"Stability is taking care of a stable."

"A mosquito is the child of black and white parents."

"Monastery is the place for monks."

"Toxin is something to do with getting drunk."

"Expotation is to have the small-pox."

"Cannibal is two brothers who killed each other in the Bible."—Literary Digest.
