Propositions to Be Voted on in June

The voter will have much to think about between now and the first Monday in June if he votes intelligently on each of the following propositions:

To increase the annual appropriation to the State University to \$125,000.

To require railroads to issue passes to all state, county and district officials.

To appropriate \$100,000 for national guard armories.

To exempt certain property from taxation.

To prevent the legislature from amending or repealing initiative laws (by the state grant.)

To give each city or town the sole right to regulate its business houses, gambling, theater and the like as it pleases.

To extend suffrage to women.

For an amendment of section 29 (evidently intended to be section 28) of article 3 of the constitution, changing the compensation of members of the legislature to \$400 for each regular session and \$10 per day for each extra session, instead of \$3 per day and mileage.

Section 28 provides the time when laws take effect, and the proposed amendment is therefore wrongly numbered.

Wore Out the Snow. My old friend Crabtree, of the real early Oklahoma days, tells this tale about an early day snowstorm: "One day, after many days of dry weather, a big snow came and visited our drought stricken land. The faces of the farmers were all smiles, because it meant a wheat crop. But alas! An old time wind came up from the south that blew about forty miles an hour and drifted the snow northward for a day. Then came an eighty mile an hour wind from the north that drifted it back south again. This condition of wind continued daily until the snowstorm was blown and worn out, and not a snowflake could be found anywhere in the county."—Watough (Ola.) Herald.
