## PROFESSOR R. A. PEARSON.

Grange Member at Head of Agricultural Department of New York. Governor Hughes of New York state recently appointed Professor Raymond A. Pearson of Cornell Agricultural College as commissioner of agriculture to succeed Charles A. Wieting, whose term of office had expired. This appointment is particularly pleasing to the members of the grange of New York state, in which Professor Pearson is an active worker. He is a member of Forest City grange of Ithaca, N. Y.

R. A. PEARSON.

He has done valuable work in the dairy division of Cornell college for the past five years and has been a close student of agricultural life. He was born in Evansville, Ind., in 1873. He prepared for college at Ithaca and entered Cornell, from which he graduated in 1894, securing his master of science degree in 1898. After graduation he entered the milk business in Philadelphia and was one of the first to control the production of a sanitary milk supply for a large city. He was in the milk business one year and then entered the government service as assistant chief of the dairy division, doing some excellent work under Secretary of Agriculture James Wilson. He went to Cornell in 1903, and under his supervision the department of dairy industry has reached its present high position. To Professor Pearson almost entirely is due the building up of this department. His reputation in the agricultural world has been made through hard, consistent work, and his ability is recognized throughout the country. He has always stood for the farmer and has been prominent in state grange work. He has declined numerous offers of positions in agricultural lines in other states.

Professor Pearson's new honor will bring with it a salary of \$4,000. He will also be allowed expenses not to exceed \$500 a year. As an added honor his new position will make him a member of the board of trustees of Cornell university, and he will thus be still more closely connected with Cornell. He will also be a member of the board of control of the experiment station at Geneva and of the state fair commission. His term of office will be three years.

## GRANGE NEWS IN BRIEF

Lents grange met Saturday, July 11. Mr. Fairer was initiated into the first degree and Mrs. E. C. Neiner was re-admitted. The lecture hour was mostly given to discussion of the new hall and postal savings question. Being a very warm day the session was not prolonged. Several new candidates were balloted on. First and second degree will be given next time.

Pleasant Valley grange held its regular bi-monthly meeting Saturday night. It having been decided at the last meeting that it should be an open meeting, a literary program of some length was prepared by our efficient lecturer. The program consisted of declamation reading, vocal and instrumental music, tableaux and shadow pictures. A cake contest was held by the young ladies. Miss Myrtle Snashall received first prize for the most artistic cake. The committee said nothing about the quality of the prize cake as they did not taste it. The silk quilt raffle was won by Mrs. E. C. Holcomb. It brought \$30 and was a gift of Mrs. Ryan. The lecture hour is open to the general public and all are welcome.

**How to Kill Your Town.**  
Go to other towns and buy your goods.

Denounce your merchants because they make a profit on their goods.

Make your own town out a very bad place, and stab it every chance you get.

Refuse to unite in any scheme for the betterment of the material interests of the people.

Tell your merchant that you can buy your goods a great deal cheaper in another town and charge him with extortion.

Keep every cent you get, and don't do anything of a public nature unless you can make something out of it directly.

When you say anything of your town say it in such a way that it will leave the impression that you have no faith in it.

Patronize outside newspapers to the exclusion of your own, and then denounce your home paper for not being as large as the city papers.

An hour's vigorous exercise each day will put the man who is occupied in close and confining indoor pursuits in shape so that he can do more and better quality of work in the seven or nine hours remaining than he would be capable of were he to devote the entire time at his disposal to work without any exercise. This is a fact that thousands of men don't seem to realize until they are broken down with nervous exhaustion, which is usually the direct result of not keeping the body in the proper physical and nervous trim through wholesome and much needed exercise.

## THE MAN BEHIND THE PLOW

There's been a lot to say about the man behind the gun, And folks have praised him highly for the noble work he done; He won a lot of honor for the land where men are free— It was him that sent the Spaniards kitting' back across the sea. But he's had his day of glory, had his little spree, and now There's another to be mentioned—his the man behind the plow.

A battleship's a wonder and an army's mighty grand, And warriar's a profession only heroes understand; There's something sort of 'thrillin' in a flag that's wavin' high, And it makes you want to holler when the boys go marchin' by; But when the shootin' over and the fightin's done, somehow We find we're still dependin' on the man behind the plow.

They sing about the glories of the man behind the gun, And the books are full of stories of the wonders he has done; The world has been made over by the fearless ones who fight; Lands that use to be in darkness they have opened to the light; When God's children snarl the soldier has to settle up the row, And folks haven't time for thinkin' of the man behind the plow.

In all the pomp and splendor of an army on parade, And through all the awful darkness that the smoke of battles made; In the halls where jewels glitter and where shoutin' men debate; In the palaces where rulers deal out honors to the great, There is not a single person who'd be doin' business now Or have medals if it wasn't for the man behind the plow.

We're a-buildin' mighty cities and we're gainin' lofty heights; We're a-winnin' lots of glory and we're settin' things to rights; We're a-showin' all creation how the world's affairs should run; Future men'll gaze in wonder at the things that we have done, And they'll overlook the feller, just the same as we do now, Who's the whole concern's foundation—that's the man behind the plow.

## EDITORIAL COMMENT

We wish to advise our friends to step lightly when approaching The Herald office, especially at night. Recent improvements have effected the face of things so we might get lost ourselves.

We are still continuing to hear echoes about the Gresham celebration—"Going to have another one next year?" Perhaps. Too early to figure now but if we do it will be a surpriser. We know how now.

Did anyone ever see such haying weather as prevailed early this week? Dry enough for quick curing, shady enough to prevent bleaching and cool enough most of the time to make fine handling. And there seems to be some hay too.

Now that the Fair has a show of life let us loose no opportunity to keep it moving. We may kill it entirely now by a little neglect. Be on hand Saturday evening to give it all the encouragement you can. Remember the time, 8 p. m.

We wish to call the attention of our subscribers to our clubbing lists. By taking advantage of the offering, two good papers may be obtained in some instances for the price of one and in one case two for less money than the price of one.

Let us remember in boosting the Fair that there is a big country tributary to Gresham. It is well enough for our citizens to be liberal in subscribing to its support but it is more desirable that we interest people at a distance in the surrounding districts. If we secure their financial support we will also secure their interest and good will and their representation in the exhibits we hope to have made. By this we do not mean that the surrounding country should be expected to do the whole thing but that it should hold a fair portion of the amount to be raised.

The Herald will try a new make up next week and perhaps longer. The size of the sheet has not been satisfactory for quite a while. We look forward to the time when there will be no patent inside matter and in order to adjust ourselves to that time the change in form will be made now.

We shall endeavor to give just as much news as ever and if anything is omitted it will probably be some editorial material, the limitation of which will, we believe, be quite satisfactory. Our observation has been that the one mainly interested in the editorials has been the editor, and he chiefly because he has to write them. We have prepared to begin a new story which we hope will meet the approval of every lover of good stories and also come up to our expectations as to quality.

There has been a lot of talk this summer about the discomforts caused by the onslaught of mosquitoes which we have been compelled to bear. We have noticed several small children literally covered with welts caused by mosquitoes. We can hardly

imagine anything more annoying to older people but when babies in arms are so subjected to these attacks the result is not only pitiful but dangerous. The mosquito is a poisonous insect. With each bite it injects a stinging acid that poisons the flesh and causes coagulation of the blood. Subsequent rubbing to ally the itching bruises the flesh and the decomposition of broken down tissue may end in sores of more serious nature. Nor is this all. The mosquito breeds in water alive with germs. His body offers a most excellent opportunity for their distribution. He is notable for carrying malaria germs. A few injections of these and you have enough of them in your blood to inoculate a regiment.

If you are especially strong you may successfully resist the disease they produce but though it may not completely incapacitate you for active work, it has a tendency to weaken the system which is apparent in the apathy—tired feeling so hard to overcome. How then about the little child who is not able to express his discomfort intelligently. Every parent should endeavor to protect their homes by using screens or by any conceivable means from the dangers that attend the mosquito bite. Of course you cannot altogether prevent the breeding of mosquitos. Many of them that reach us come from the pools and sloughs near the rivers. But many more breed in pools or barrels near your homes. Drain the pools, empty the barrels or put a little coal oil on the surface. That will "fix 'em."

Will some small boy who reads this department try to figure out for himself and mail the writer of these notes an explanation of how angeliworms get into the tub by the well during the night—that is, why are they not seen there at night, but are found there in the morning? This is a natural history phenomenon that has caused a good many older boys and girls to scratch their heads.

## Contest Notice

Department of the Interior, United States Land Office.

Portland, Ore., July 1, 1908.

A sufficient contest affidavit having been filed in this office by Lora R. Brindley, contestant, against Homestead entry No. 13138, made October 10, 1907, for S.W. 1/4, Section 17, Township 11 N., Range 6 E., by Florence Viethier, contestee, in which it is alleged that she is well acquainted with the tract of land embraced in the homestead entry, and knows the present condition of the same; also that said entrywoman has abandoned the same, and especially for the last six months; that she has never resided upon or cultivated said land in any manner, and that there are no improvements thereon, and that said alleged absence from the said land was not due to her employment in the Army, Navy, or Marine Corps of the United States as a private soldier, officer, seaman or mariner during the war with Spain, or during any other war in which the United States may be engaged. Said parties are hereby notified to appear, respond and offer evidence concerning said allegation at 10 o'clock a. m. on September 24, 1908, before the Register and Receiver at the United States Land Office in Portland, Oregon.

The said contestant having, in a proper affidavit, filed June 29, 1908, set forth facts which show that the above-entitled personal service of this notice cannot be made, it is hereby ordered and directed that such notice be given by due and proper publication.

ALGERNON S. DRISSELL, Register.

First publication July 10, 1908; last publication July 31, 1908.
