LOCAL CAPITALISTS HAVE RICH MINES

Local Investors See Very Bright Prospects Ahead for Their New Holdings.

Gresham investors in mining interests tell us some interesting news this week. Joseph Bramhall has just returned from his properties in Goldfield, Nevada. Mr. Bramhall has every reason to feel good. Ore taken out of his mining interests runs to \$450 a ton and upward. An immense body of this ore is in sight.

Another man who has the best end of a mining project is John Brown of Rockwood. Last spring Mr. Brown and two other gentlemen became interested in Southern Oregon mining property, now bearing the name "Rockwood." This is a ledge of soft stone, very rich in free gold and nuggets of varying size, some running over \$100. Our limited space this week prevents justice being done to this prospect. Suffice to say that the drift and placer works along the river below all lead back to Mr. Brown's interests. He is enthusiastic in his belief that time and effort will yield him an independent fortune as a result. He may dispose of some of his interests but only a limited amount.

MOUNT SCOTT DISTRICT

At a meeting of the Lents Rebekas at Nashville last Friday night, lunch was served. Everyone present seemed to have had a good time.

Mrs. Jesse Crane returned last Saturday from an extended visit with relatives in Indiana.

On Thursday several friends gave a house-warming party to Mrs. Gray at her new bungalow at Gray's Crossing. Mrs. Max Mire and family will move to Corvallis this week, where her older children will enter college.

Cathie L. Anderson and John F. Wall were married Saturday in Vancouver. Mr. and Mrs. Floyd Marshall entertained the orchestra, of which Mr. Marshall is a member, also Miss Heath and a friend on Wednesday evening.

J. H. Kleeman and wife of Oakland, Cal., are visiting the Kayser family. Ira E. Allen went to Southern Oregon last Sunday to work in a fruit packing plant for the season.

Mrs. Lininger visited her daughter at Camas last week.

A surprise was tendered Mrs. McDowell last Tuesday, it being her birthday anniversary.

J. B. Marshall is recovering from a slight illness. Expert "Bronco Busting" is the feature of the Grange Fair that may interest some of our young people but our farmers are interested in the agricultural exhibits and fine stock show.

Gresham Man a Lucky Miner.

Several Gresham men have mining interests of which they are proud. J. N. Bramhall is one of the sure-enough lucky ones. His interests are in the Butte Boys Consolidated which is located at Goldfield, Nevada. The company has several pieces of property, some of them quite near Goldfield and two of them being about 20 miles distant. The Lida mine comprises the latter group and most of the minerals taken out so far come from it. They are ores containing copper, silver and lead. The silver runs to \$429.07 a ton and the copper to \$22.11 making a total of \$451.14 per ton. The lead was not included in this estimate, but it is valuable in the reduction of the other ores and it is thus worth about \$20 per ton to the company. One shipment has been made but within 60 or 90 days enough ore will be in position to begin carload shipments. It is expected that dividends will begin to come in within a month from that time. The company has an office at 325 Chamber of Commerce bldg., Portland, and Mr. Bramhall will be there most of the time. Or he may be seen in regard to investment, at his home in Gresham any evening. The office in Portland will be open all the time. The company will have an exhibit at the Fair in Gresham.
