### Exhibition Pianos.

The Eilers Piano House had one of the most attractive exhibits of pianos and talking machines at the Grand Fair. These were viewed and admired by many people including music teachers and music lovers. Each one of these instruments was selected by the houses' expert for exhibition and hence there can be no question as to their quality. Mr. J. P. Simonson, special salesman for the house, is in the field to dispose of these beautiful instruments. He says the house will give on these the same low price and easy terms given the thousands of buyers during their big sale in August. This is special and should be taken advantage of at once.

## MOUNT SCOTT

Mrs. O. R. Additon has just returned from a trip through southern Oregon.

Miss Maud Darnall left for Kansas Sunday morning.

Lillie May Locke, daughter of Spencer Locke was married to Vincent K. Tichenor of Clatskanie, on Wednesday. They were married in Sellwood by Rev. Thompson.

Mr. Honnill has been confined to his bed the past week due to nervous shock and illness.

Mrs. Hyde, of Irvington, was visiting her sister, Mrs. Geisler, Mouday.

Dona Paul entertained her friends on Saturday afternoon, at a party in honor of her 14th birthday anniversary.

Mrs. Ida Johnson has been suffering from quinsy for several days.

George Spring, Sr., left for Auburn, Cal., Thursday night to visit his sister whom he has not seen for 27 years. He expects to be back home for Christmas.

Mrs. Davis, recently from Oklahoma, is the new teacher at Lents. She will take up her new duties Monday.

Rev. Zimmerman and wife spent Thursday evening with his mother, prior to his departure for Pendleton, where they are moving.

Mr. Wickam moved into his house on Main street, Thursday.

Lents has now a school of fifteen teachers and over 500 pupils. What about the people who opposed a six-room annex two years ago? How long would

their proposed two rooms have gone? It is singular how far our old time residents miss the mark in estimating the public needs and development. But that estimate was undoubtedly based on their experience, and that being narrow, of course resulted in a conclusion far below the mark.

The car service at Lents is on the bum. No other place on the line has as poor connections as Lents Junction. Fully half the time, Mt. Scott cars fail to meet the through trains and waits are caused thereby varying from ten minutes to an hour. It is hard to tell who is running the service out here, Mr. Fuller or the carmen. They seem to go when they like, turn back when they get tired of going on, and "the public be darned." Such institutions are supposed to be run for the public convenience, but not so here.

We have been interested to note the generally disorderly condition of streets and back yards in the Mt. Scott business sections. Tin cans, old papers, hay, boxes and other unmentionable things are so prevalent as to go without comment and the health officer, too, is having his say.

Do you patronize the library stationed in your midst? Papers, magazines and books for the asking. The evenings are growing long now and there is lots of time for reading. Visit the library to see what they have if for nothing more, and when going, carry down your back number magazines. They will be up-to-date for someone else.

Million a Year For Roads. Connecticut still leads in the good roads movement as a state. She was the third to get into it, New Jersey being the first, four years before her, and Massachusetts the second, in 1863. Now Connecticut spends \$1,000,000 a year while the first spends but \$600,

000 and the second but \$100,000 less than that. Connecticut spends the largest amount per capita for good roads by far, the only other states whose total annual appropriations are larger being New York, with \$5,000,000, and Pennsylvania, with \$1,500,000, but both states are vastly larger than little Connecticut.
