OUR FOURTH YEAR

We are entering our fourth year as a financial institution of Gresham and it is our earnest desire to be of more service and make this a greater year for the community.

Did you ever stop to think?

Of the many opportunities that a banking institution puts within your reach?

1. It protects your money by placing it immediately under "Burglary" and "Hold Up" insurance, relieving you from all care and worry.
2. It lends you money.
3. It lends money to the very man from whom you seek work or trade.
4. It gives you advice and assistance free of cost.
5. It offers you a place of safe deposit for even small sums, which, if persistently saved, will eventually develop into a snug balance.

Good standing at the Bank establishes your credit in the community.

These things are worth thinking about.

You see a man who is getting out of the rut, getting ahead, making some progress, full of hope and energy—HE IS THE MAN WITH A BANK ACCOUNT.

A Common Cold.

We claim that if catching cold could be avoided some of the most dangerous and fatal diseases would never be heard of. A cold often forms a culture bed for germs of infectious diseases. Consumption, pneumonia, diphtheria and scarlet fever, four of the most dangerous and fatal diseases of this class. The culture bed formed by the cold favors the development of the germs of these diseases, that would not otherwise find lodgment. There is little danger, however, of any of these diseases being contracted when a good expectorant cough medicine like Chamberlain's Cough Remedy is used. It cleans out these culture beds that favor the development of the germs of these diseases. That is why this remedy has proved so universally successful in preventing pneumonia. It not only cures your cold quickly, but minimizes the risk of contracting these dangerous diseases. For sale by Gresham Drug Co.

For That Terrible Itching.

Eczema, tetter and salt rheum keep their victims in perpetual torment. The application of Chamberlain's Salve will instantly allay this itching, and many cases have been cured by its use. For sale by Gresham Drug Co.
