Always give a good feeding of hay before the cows are turned to pasture the first time in the spring.
 The changes in feed should be brought about gradually and with as much care as possible.
 In case your calves show signs of having scours, give them a teaspoonful of fine charcoal with the milk for a few days. When the trouble disappears, begin feeding hay and you will not have any more difficulty with the scours.

 Five acres of ground is being platted by L. Seward under the name of "Rose-evolt." This will add greatly to our suburb.
 The world has for us just what we have for the world. It flings back the echo of our own voices.
 We are glad to know that Montavilla is to be represented in the Rose Carnival by a beautiful float and that it is to be furnished by the residents of our suburbs. All the societies have united in one harmonious body to make this a great success. Let us push hard and strive to have one of the best floats in the parade.

Chamberlain's Liniment.
 This is a new preparation and a good one. It is especially valuable as a cure for chronic and muscular rheumatism, and for the relief from pain which it affords in acute inflammatory rheumatism. Those who have used it have invariably spoken of it in the highest terms of praise. Lame back, lame shoulder and stiff neck are due to rheumatism of the muscles, usually brought on by exposure to damp or cold, and are quickly cured by applying this liniment freely and massaging the affected parts. Soreness of the muscles, whether induced by violent exercise or injury, is allayed by this liniment. For sale by Gresham Drug Co.
 The Oregon palate is never without a relish for a good warm soaking, growing rain, but never did it taste more like a full meal than during the last days of dry, record-breaking April.
