Of Interest to Farmers and Mechanics
 Farmers and mechanics frequently meet with slight accidents and injuries which cause them much annoyance and loss of time. A cut or bruise may be cured in about one-third the time usually required by applying Chamberlain's Liniment as soon as the injury is received. This liniment is also valuable for sprains, soreness of the muscles and rheumatic pains. There is no danger of blood poisoning resulting from an injury when Chamberlain's Liniment is applied before the parts become inflamed and swollen. For sale by Gresham Drug Co.

Lumber Sold Out.

Poultry Secrets Disclosed!

THERE are secrets in the poultry business, as in any other; the best methods and newest discoveries seldom reach the amateur poultry raiser and the general public for years after they are originated. A new method of absolutely insuring the fertility of setting eggs, for example, has

Enormous Cash Value
 and its discoverer is not to be blamed for keeping it to himself. Now, for the first time, the secrets of many of the most successful poultrymen are made public. No confidence has been violated, every secret has been obtained in an honorable way.

(1) by outright purchase; (2) by free permission given the author, Michael K. Meyer; (3) by collecting old, valuable, but little known methods; (4) by Mr. Meyer's own experience covering 30 busy years. Since this book was first advertised here, 400,000 copies have been sold in 100,000 copies, and many new and valuable secrets have been added to the original book.

 The "15-cent-a-bushel" method of producing green food.
 Grinnon's Corn Feeding System; and other new rules for feeding corn and grain.
 Truslow's Secret of obtaining high market prices for poultry stock.

 Dr. Wood's Secret of Laying Food for producing eggs.
 Professor Hays' Fat Hen Secret explaining why lean hens don't lay.

AND MANY OTHERS, NOT ENUMERATED HERE
 It would be absurd to expect every bit of this information to be unknown to everyone; we make no such claim. But in the great majority of poultrymen it will be absolutely new, and of great value.

THEY'VE FARM JOURNAL—Farm Journal has for thirty years made a specialty of poultry; this department is fully edited and more valuable than any specialized poultry paper. This is only one section, however, of a remarkable magazine—monthly with 200,000 subscribers. Still a literary, technical farm paper, fully printed on cheap paper, full of practical and timely information, but a magazine for the home—new, unique in country, well printed and illustrated, clean, clear, quick, and always cheerful. (Specially practical, especially at home on a thousand-acre farm or on a suburban back garden, and in all winter ways UNLIKE ANY OTHER PAPER.)

Superior to Others
 M. L. & S. Co., Portland, Oregon, Feb. 12, 1909.
 Gentlemen: In regard to your Champion Mowers, they have given me every satisfaction. No matter if the grass be heavy or light, I consider them superior to any other machine made for the same purpose. I bought one seven years ago, and I cut all of my own hay, besides a good deal outside, and I sold it last summer for \$25. Will buy another next summer of the same kind. They are strong and durable, and no repairs to speak of.
 Truly yours,
 L. A. JOHNSON.
