THAT WATCH OF YOURS

has needs just as much as you have. You need cleaning and fixing up once in a while, and so does your watch. About once a year the proposition of cleaning and oiling that watch comes up. It's then that you want to think of me. The treatment accorded a watch is just the same whether it is the best or the poorest make—that is, the best attention is given it. FLORA is an expert in handling watches. Let him fix up your timepiece.
