### REFORESTATION IS EASY. .

Observations of a Practical Timberman Clearly Set Forth.

(By J. S. Young, Inman-Poulsen Log-ging Co., Kelso, Wash.)

The Timberman: As the question of nserving our present forests and reforesting our logged-off lands is now ommanding so much attention, a few observations from one who has given the subject considerable thought may not be out of place.

People who are dealing with statistics and theories tell us that our forests will be practically exhausted in fifty years, at the present rate of cutting; and as the rate of consumption will undoubtedly increase, it would seem that our The leader of the Nicaraguan rebels only hope of a supply for future gener-

# Japan's Working of Manchurian Mines Not a Monopoly.

# KNOX SAYS DOOR IS LEFT OPEN

### Both Nations Assure United States Territory Is Open to Anyone Who Finds Minerals.

Washington, Nov. 16 .- Recent treat es estered into by China and Japan as to the operation of coal mines along the South Manchurian railway and the Antung Mukden railway do not create monopolies, and hence are not viola-tions of the "open door" or the "equal opportunities" principles, to the observance of which all leading

powers are pledged.

This is the conclusion reached by the state department after a long and careful investigation of the question

involved. The department today issued the fol-

owing statement:
"In view of the widespread publicity of the statement that the recent Chinese-Japanese agreement relating to-Manchuria created for Chinese and shook his head.

"It's no use," he said, "to lift the lid, as it would mean that the whole mine would blaze up and there would be no possibility of recovering even the bodies. The coal deposits would take fire and the timber supports would crumble. Perhaps another shaft will have to be dug to recover the remains of the men."

Manchuria created for Chinese and Japanese subjects a monopoly to carry on mining operations along the South Manchurian railway and the Antung Mukden railway, which would exclude Americans from an extensive field of industrial enterprise, inquiry has been made of the two signatory powers and official assurance has been received from each to the effect that no such exclusive claim to mining rights was MAY DEFY PEOPLE.
