The rural letter carriers have been called upon for a statement of the actual expenses upon their routes during the past six months for the purpose of presenting data to Congress to influence an increase in salaries. Cow testers are working through many of the dairy herds of Eastern Multnomah, having been called upon by the dairymen for the purpose of anticipating enforcement of the law at a later date. Not many diseased cows have been found except upon the Columbia slough, where conditions were pretty bad among some herds. Around Gresham the loss will be about 10 per cent. This loss will be replaced with healthy young animals from other localities.

Lents Telephone Company Looking Eastward.

J. R. Marshall and W. L. Hotchkiss, president and secretary of the Lents Telephone Company, were in Gresham on Thursday in the interest of their company. The Lents company connects up with the Home company and gives free city service to its patrons. This company has not passed the year mark yet it has had a remarkable growth. Its phones reach eastward to Sycamore, and there is a strong probability that they will build to Gresham before the year is out. A special meeting of the stockholders was held last Thursday evening, the occasion being the amending of the by-laws to cover several deficiencies that have shown up within the year. According to the revised laws stockholders that do not pay up may have their shares sold by the company to cover the balance due and such expenses as has not been met in the course of the sale. Then there are a number of other features that are well worthy of investigation by everyone interested in stock companies. They have shown themselves awake to all the legal requirements of a successful organization and will no doubt make themselves known by their growing business.

Came Near Choking to Death.

A little boy, the son of Chris. D. Peterson, a well known resident of the village of Jacksonville, Iowa, had a sudden and violent attack of croup. Much thick stringy phlegm came up after giving Chamberlain's Cough Remedy. Mr. Peterson says: "I think he would have choked to death had we not given him this remedy." For sale by Gresham Drug Co.

WELCHES

There is still about 5 inches of snow on the ground.

Mr. Morton, living across Sandy river, had quite an experience with a cougar this week. Otto Aschoff and Geo. Ten Eyck visited Government Camp the first of last week and went as far as the timber line on Mt. Hood on skis.

Paul Dunn has been very busy hauling stove wood.

A Sprained Ankle.

As a rule a man will feel well satisfied if he can hobble around on crutches in two or three weeks after spraining his ankle, and it is often two or three months before he is fully recovered. This is an unnecessary loss of time as by applying Chamberlain's Liniment as directed, a cure may as a rule be effected in less than one week's time and in many cases within three days. Sold by Gresham Drug Co.
