

MOUNT SCOTT

Chas. Blakesley has been sick for a few days, symptoms indicating an attack of appendicitis.

Albert Rodgers has been ill for several days.

Lents suffered a surprise on Saturday night when the little house belonging to Mrs. Piper was partially wrecked by a discharge of dynamite. An investigation developed that Mrs. John H. Smoke was residing there temporarily, that she was separated from her husband and that she blamed him for the attempt on the lives of the household. Mr. Smoke was placed under arrest and will probably suffer the penalty for attempted murder.

J. B. Marshall, Mr. Fowler and others on Gilbert road are having their property platted for sale as town lots. Lents will soon reach to Gilberts.

G. E. L. Allen has bought the Wickham property near the schoolhouse and has moved onto it.

Evan W. Kelley, employed in the California Forestry service, spent the last of the week with his aunt, Mrs. Zimmerman.

MONTAVILLA

Last Saturday evening all the people of Montavilla were invited to be present at the formal opening of the Montavilla Department store. Those who attended were treated to an excellent program and generous dishes of ice cream.

Miss Bertha Pollock entertained at her home on the Base Line road in honor of her nineteenth birthday. A very enjoyable time was had by all present.

Mr. and Mrs. J. H. Ray have been called to Bellingham, Wash., where Mr. Ray's parents both died during the past week.

Mrs. F. P. Kurtz of Eugene is visiting her parents, Mr. and Mrs. Mertz on Miner st.

Master Frank Madden, who has been suffering from a severe attack of appendicitis, is slowly improving.

A magnificent summer home was recently constructed in one of Montavilla's newly platted additions. It is rumored that several others of the same kind are to be erected in the near future.

Insistent rumors are being circulated of a good many cases of scarlet fever in the Montavilla school. At present the physician is making daily trips and has already quarantined several families.

David McMillan and Herbert Carlton have gone to Alaska for the summer fishing season. Mr. McMillan is a marine engineer and holds a responsible position.

Appropriate.

"It is an ill wind that blows nobody good."
"Did you say an ill wind?"
"Yes."
"Then you'd better call in that hot air doctor."

Why Not Buy the Best while Land is Cheap

Acreage combining fine speculative possibilities with great fertility, nearness to market, and at reasonable price, must rank high commercially.

Land Just Outside the Present Active Speculative Area Around Portland

and within a few miles of tidewater, is probably the

Most Inviting of all fields for Investment

There is an element of safety and it will double and treble before the completion of the Panama Canal and then some more.

I am developing 100 acres 12 miles southeasterly of the city, near the O. W. P. R. R., on a direct line to Mt. Hood, a fine view of which is had. A perennial stream flows through it, which will irrigate half of it by gravity, greatly increasing profits of products. All of it is rich virgin soil, much is sedimentary, containing two beaver dams. A zone of 20 acres is suitable for celery (\$1000 per annum can be taken from an acre), as much more is onion land and the overhanging industry. Scientific gardening brings quicker results and is equally profitable.

I wish to interest a high class gardener, a florist and a greenhouse man, a dairyman and a fruitman.

They can form a home builders association, each having a water right and a wood lot. Am clearing with an engine and saving the saplings and logs which will amount to at least 1000 cords of fuel for furnaces. An auto truck can carry their aggregate products to the depot over the fine plank road 7-8 of a mile distant. A dozen families would have constant employment.

Much of this tract equals the \$500 per acre land. It will be suburban at an early day. My price for a short time is \$185 per acre.

Discriminating and intelligent buyers will be interested and are invited to communicate with the owner.
