BUSINESS FARMING.

Producers and Consumers' Exchange in Maine—Insurance in Kansas.

A producers and consumers' exchange has been recently formed in Brunswick, Me., among the grangers for the benefit of farmers in marketing crops and buying supplies. The above name was chosen as the official name of the company. It was decided to fix the capital at \$10,000, divided into 10,000 shares at \$1 each, as originally suggested. It was thought that this would be better than to raise the price. It was also voted that the stockholders or members of the company should be confined to members of the Patrons of Husbandry, excepting those who had already subscribed for stock or did so before Nov. 10 last. Bylaws were adopted which fully protect the stockholders. The following were elected directors. Mandeville E. Hall of Turner Center, C. S. Stetson, master of Maine state grange; C. H. Blackwell, Skowhegan, master of Wesserunett grange; Walter L. Warren of West Baldwin and E. G. Tilley of Ashland.

Eugene H. Libby, state grange secretary, was elected clerk, B. L. Stevens of Cushing treasurer and E. C. Patten, assistant steward of the state grange, auditor. At a directors' meeting later Mandeville E. Hall was elected president and C. S. Stetson vice president.

The Daniel Kern was recently wrecked by being run into by the George W. Elder and was sunk in one hundred feet of water in the Columbia river. She has been raised and overhauled and put in commission again.

THE KANSAS GRANGE.

Fire and Tornado Insurance an Important Feature in Kansas.

In various states different phases of grange activity are emphasized. In Kansas the Patrons' fire and tornado insurance stands well to the front. On Dec. 1, 1909, the total risks carried amounted to \$9,404,705. The average cost of insurance per \$1,000 was \$2.41, the highest for many years. Among the things the Kansas state grange would like to see accomplished are these: Establishment of the office of state fire marshal, the teaching of the elements of agricultural training and domestic science in all consolidated rural schools, placing all state wide utilities, especially pipe lines and telephone and telegraph companies, under control of the railroad commissioner, the establishment of an experiment farm where seeds shall be grown and tested instead of issuing poor seeds to the people, as the government now does, and national aid for good roads.

California state grange has a project on foot to secure permanent pleasure grounds for the use of members of the Order.

Giants Win First Game of Season

Gresham opened the baseball season last Sunday by defeating the Catholic Young Men's Club of Portland by a score of six to four. Brot, the midgut twirler of the Giants, was all to the good, not a hit or a run being allowed of his delivery until the ninth inning, when a pass to first, a scratch hit and a long hit to center field scored four runs for the visitors. Miller, of the visitors, was hit hard in the first inning but came back strong in the second and pitched a nice game.

Next Sunday, May 1st, the Giants will meet the Portland Blues and a good one is looked for as the Blues are a fast team and have the reputation of playing great ball.

New Livery Has Fine Building

There are harness rooms, waiting rooms, an office, a large carriage room, ample storage for feed, a pressure water service, and everything else that goes to make a good service. They will do an extensive sale business, buying and selling and this means much to Gresham since it will bring people money into our community and if successful will make it notable as a horse market.

HER ONE QUESTION.

The Woman in the Case, as Usual, Had the Last Word.

When Mr. Jenkins went to his bedroom at half past 1 it was with the determination of going to sleep and with another determination that he would not be interviewed by Mrs. Jenkins. So as soon as he had entered the door and deposited his lamp upon the dressing table he commenced to undress and to make his speech:

"I locked the front door. I put the chain on. I pulled the key out a little bit. The dog is inside. I put the kitten out. I emptied the drip pan of the refrigerator. The cook took the silver to bed with her. I put a cane under the knob of the back hall door. I put the fastenings over the bathroom windows. The parlor fire has coal on. I put the cake box back in the closet. I did not drink all the milk. It is not going to rain. Nobody gave me any message for you. I mailed your letter as soon as I got downtown. Your mother did not call at the office. Nobody died that we are interested in. Did not hear of a marriage or engagement. I was very busy at the office making out bills. I have hung my clothes over chair backs. I want a new egg for breakfast. I think that is all, and I will now put out the light."

Mr. Jenkins felt that he had hedged against all inquiry, and a triumphant smile was upon his face as he took hold of the gas check and sighted a line for the bed when he was earthquake by the query from Mrs. Jenkins, "Why don't you take off your hat?"—Argonaut.

A new family has moved into the Kirkwood place and are making gratifying improvements.

We have passed through the census ordeal and are yet alive. Ross Lovelace of Rockwood is the enumerator. It is hoped everyone answered the questions cheerfully and desiring that Oregon should make a good showing in the galaxy of states.

The Buckley boys have helped to put in the crops of a number of the neighbors, working with teams and implements every hour that could be spared from the home work. There is an independence and a dignity attending farming that no other occupation can give. Let us hope that our boys throughout the country will stay with the plow and help to bring agriculture up to the highest standard. Every boy can be proud to say, "I am a farmer's son."
