Hill Admires Blooded Horses.

Merrill-Louis W. Hill and party paid Merrill a visit while on their tour of inspection of the interior sections contiguous to the route of the Hill road. The party was entertained at luncheon in the handsome ranch home of N. S. Merrill, the pioneer farmer of this part of the country, whose place is just outside the town limits. The ladies of the town served the lunch and all the business men and townspeople were there to greet the distinguished guests, who were accompanied from Klamath Falls by two dozen prominent citizens of that place.

The party filled seven autos. Mr. Hill made a brief address, saying he had not been entertained in any finer ranch home in the whole state than that in which he met the Merrill people, and predicted that the lands in

this valley would be doubled in value

within two years. The annual horse rodeo had just been completed in this part of the country the luncheon was over the party assembled on the lawn, where the fine horses this section, and his fine horses and tection, as the pressure is 100 pounds. brood mares afforded a sight for the railroad man to understand where so many of Oregon's extra good horses are bred.

CURTISS MAKES RECORD FLIGHT

Albany to New York, 137 Miles, With One Stop.

Minutes-Wins \$10,000-Train Could Not Keep Up.

New York, May 31.-Glenn H. Curiss flew from Albany to New York City in an aeroplane, Sunday, May 29, winning the \$10,000 prize offered by the New York World.

He covered the distance of 137 miles in 2 hours and 32 minutes, and came to earth as quietly and as lightly as a pigeon. His average speed for the distance-54.06 miles per hour-surpasses any other record made by an aeroplance in long-distance flight. In its entirety, his flight perhaps eclipses any flight man has made in heavierthan-air machines.

The start was made from Albany at 7:03 o'clock under weather conditions as nearly perfect as the most fastidious aviator could demand. One hour

GLENN H, CURTISS

and 23 minutes later Curtiss made hisfirst stop near Poughkeepsie, where there was an hour's intermission. Resuming his flight at 9:26, he sped southward, and landed within boundary of Manhattan Island at 10:35,

Paulhan's flight from London to Manchester, 86 miles, exceeded the Curtiss feat for distance, but not in speed or in danger. The Frenchman's average was 44.3 miles an hour and below him lay English meadow land. Curtiss followed the winding course of the historic Hudson, with jutting headlands, wooded slopes and treacherous palisades. He swung high over the It was the understanding of the offi- great bridge at Poughkeepsie, dipped at times within 50 feet of the river's broad surface, and jockeyed like a fal-

con at the turns. Only once did his craft show signs of rebellion. This was off Storm King, near West Point, when, at a height of nearly 1,000 feet a treacherous gust struck his planes. The machine dropped 40 feet and tilted perilously, but Curtiss kept his head and by adriot manipulation restored the equilibrium

of the machine. With his eyes and brain cleared of mechanician and a handful of spectators to Van Rennselaer Island, in the Hudson, three miles south of Albany, where he was to start. Waiting at the

markable scene. With the signal that Curtiss was off.

Grain Fields Fire Swept.

Chico, Cal., May 31.-News has Middletown, Cal., May 30 .- Gertie been received here of the first serious Nevins and Crystal Parriot, robust grain fire of the season, in Butte county.
