How to Fasten Handles on Umprellas. Sometimes a person would like to change some expensive umbrella handle to another umbrella and fasten it on solid. This can be done by cleaning out the hole left in the handle from the old rod and filling the hole with powdered sulphur. Place the handle in a solid, upright position, and after heating the umbrella rod red hot push the rod down into the bole con taining the sulphur. The not rod fuses the sulphur, and when cold it will hold the rod solid. This method may be applied to fastening rods into stone, iron or wood.

No young man can hope to accomplish much who has not made his life draw in every emergency.

POINTERS ON DRAFT HORSES

An expert authority on breeding horses gives the following information on the draft horse, an animal that Miss Ethel Bradfield returned from a plays an important part in farm work at this season of the year. He says:

simple rules to go by in the selection of horse breeding stock. In all my ex-Cardinals, last Sunday, score 18 to 10 perience of the last thirty years I have acquired a good many rules. I have found from my experience and observation that if you will observe a few Old Soldiers Picnic to be hed in the simple rules you will not be misled

You must keep in mind what he is for. He is not to be cut up into steaks and roasts, like the steer. He is an E. E. Marshall has returned from animal of strength. They do not look prepossessing at all. I like to buy them at that time. good, with a good set of legs and sufficient bone, and he makes a good horse, He should have heavy, sloping shoulders and good feet. And, though he may have a long head and his joints look big. I care nothing for that, but only for good bones, but the average farmer would say that he is too coarse. I know be will win out, and nine times out of ten be will make a high priced. perfect draft horse.

Succulent Feed For Lambs.

Recent experiments at the lowa exat ordinary prices cheaper gains on lambs may be made with dry feed Youth's Companion. than with roots or sliage. When corn and silage are low in price the gains made with silage are a little cheuper a reservoir of power on which he can than those made with dry feed. The in an out of the way spot where the largest total gains were made by the lambs getting sugar beets, and the finish of this lot was also a little better. required the largest amount of matwhere sugar beets and mangels were fed. The chief objection to mangels and sugar beets is the large amount of hand labor required to raise them.

Sheep on Roughage. If corn is scarce sheep will beat hogs on pasture, provided they get plenty of corn, but when the hogs get plenty of corn they will range pretty well with sheep. Both animals have their place. Hogs are of no use to work at roughage. A small flock of sheep will do better than a large one.

INDIANS AND BULLETS.

A Sample of the Strenuous Life In Kentucky Ir. 1777.

In 1777, while Harrodsburg, Ky., was so beset with Indians that the inhabitants were in straits for daily bread, a young man, only sixteen years old, made himself extremely useful by venturing out of the fort before daybreak and returning with a load of game after nightfait. This intrepid Youth was James Ray, afterward Gen-

One day in the year just mentioned Ray and another young man were shooting at a mark near the fort, when the second man was guddenly shot down by the Indians. Ray looked in the direction whence the shot had come, saw the enemy and was on the point of raising his rifle when he was set upon by another band who had crept near him unseen.

He took to his heels and, being a quick runner, reached the fort amid a shower of bullets, but the gates were shut, and the men inside were so frightened that they dared not open them. Finding himself shut out, Ray threw himself tlat on the ground in the rear of a stump, and here, perhaps seven steps from the fort and within sight of his mother, he lay for four hours, while the builets of the Indians tore up the ground on either side of

At last be grew impatient and called out to the garrison.

"For heaven's sake, dig a hole under the cabin wall and take me in!" The men inside set to work imme-

diately, and the brave young bunter was speedily safe inside the fort. FORTUNE ISLAND.

The Story of the Buried Prize of an English Buccaneer.

An English buccaneer, having looted and fired a rich prize, found himself pursued in turn by a Spanish pirate, and in order to save his treasure sought some isolated shore on which to bury it until the time came to divide the quire of C. W. Cassidy, Sandy, Ore. If spoils with his followers. So he can into the Bahama group and, landing on a low lying strip of sand and palm trees, cached his plunder and, naming the place Fortune Island, sailed away He left a number of negro slaves be hind to guard the buried treasure, and the present inhabitants are said to be descended from these slaves. The For-And you want the legs under the tune islanders believe the old sea rover Fairview, has purchased the Smith corners, like a table. The Grange In Politics.

At a recent meeting of Eureka grange at Lyons, N. Y., the lecturer introduced for discussion the question as to whether or not the grange should take an interest in politics or discuss political questions. He said that the charter of the grange provided that politics and religion could not be discussed in grange meetings; but, inas much as some of the granges had discussed the direct nominations bill, at that time much in evidence in New York state, and had adopted resolutions favoring such a bill in the legislature, be thought the topic a timely were not consistent with the charter declarations, and according to reports practically all agreed with him.

What Prominent Men Say.

William McKinley said. "There is but one way for the farmers to secure just legislation, and that is through a compact organization of the agriculturni classes.

Theodore Roosevelt said, "Such a movement as the grange is good in itself and capable of well nigh infinite further extension for good."

Ex-Governor Nash of Objo said, "The 10 per cent of the farmers who are The Hanson house has been shingled organized secure more legislation benefiting agriculture than the 90 per cent who are unorganized."

Dedicating Farm Homes.

The Whitehead dedication ceremony. we are glad to note, is being used in dedicating farm homes. The farm of A. B. Armstrong of McKenn county. Pa., was dedicated by this beautiful ceremony on June 14.
