

Big Income—ship entering the harbor.

Too many people judge the world by their own breadth.

A man can be run down in the street as well as in health.

You want to be sure of your footing before you climb too high.

The increase in the price of leather has made shoes pinch more than ever.

Bennera—A woman is always changing her mind. Jennera—Not when she decides that she wants a new gown.

It is a poor friend that will pat you on the back and kick your feet out from under you at the same time.

Boyce—I wonder what makes a dog howl when music plays. Joyce—I don't know, unless the music awakens the fleas.

Comfortable Prison.

Cetinje, the capital of the Kingdom of Montenegro, has probably the most remarkable prison in the world. No walls surround it and the inmates, who furnish their own cells just as they please, seem to stay there only because they find their quarters comfortable. The diet is liberal, with wine on occasions and cigarettes to taste. There is no work to do; no distinctive garb is worn; and comparatively free intercourse is allowed with the outside world. On certain feast days the prisoners are allowed to entertain their friends.

A Bad Stomach

will cause you untold misery, for when this organ is out of order the entire digestive system becomes deranged and the first thing you know, you are real sick. The best medicine to correct, sweeten and tone the stomach is **Hostetter's Stomach Bitters** and a trial will convince you of that fact. It is for **Headache, Indigestion, Dyspepsia and Malaria.** Get

Hereditary Instinct.

When baby turns away from the amiable visitor who is trying to make friends, and rushes to mother and buries his face in her skirts, he is doing exactly what it was wise for children to do in the ancient forest, when stranger and danger were the same thing, and not just rhymes as they are now.

And Neither Means It.

A man who has kept accurate count says that of ten men you meet eight will say something disagreeable, while nine out of ten women will say something agreeable.

CAP and BELLS

HIS LOBSTER RUSE WORKED

Old Bird Stays Out Until After Lock-Up Time and Gains Admission by Clever Trick.

The Old Bird reached home late, and found he had exceeded lock-up time.

He rang and rang, and then he rang again. After that he rang, and, as that had no effect, he thought he'd ring, and so he rang. At last his wife's head popped out of an upstairs window.

"You can go away," she said. "I'm tired of this."

"So am I," said the Old Bird. "You won't get in tonight!" she declared.

"But, my dear," expostulated the husband, "I have brought home a boiled lobster and two bottles of champagne."

Mrs. Old Bird's head popped in, and soon she had stumped downstairs and opened the door.

"I'll make a light, dear," she said, leading the way through the dark hall towards the dining-room.

Then she turned on the electric current, and, looking at her spouse, frowned.

"Well," she demanded, "where are the lobster and champagne?"

"Here, my dear!" said the Old Bird with a laugh, and tapped his vest.

In Paris.

The French artist was showing his latest picture.

"Eet is one noble picture," boasted the painter. "See ze fleece of ze clouds and ze fleece on ze sheep, on ze hillside."

"Any more fleece?" laughed the critic.

"Not now, monsieur. But zere will be some more fleecing when ze American millionaire ask for ze one old 'masterpiece and I sell him zis."

Those Jealous Summer Girls.

Clara—So you are really engaged to George at last?

Dora—Yes; isn't it just beautiful?

Clara—I'm glad for you; and he's such a brave fellow, too.

Dora—Is George brave?

Clara—I should say he was. Why, he upset the skiff we were in last summer purposely and declared he wouldn't save me unless I promised to marry him.

Professional Wisdom.

Customer—By the way, is Dr. Pills as good a physician as Dr. Cubebs?

Druggist—Can't say, but Dr. Cubebs evidently doesn't think so.

Customer—But when he went on his vacation he turned his patients over to Dr. Pills.

Druggist—Well, what further proof do you want?

PROOF OF SINCERITY.

Dolly—But are his attentions sincere?

Polly—Well, in his love letters he never writes "Please destroy."

The Rival Belles.

He—I really believe Miss Highup tried to cut us.

She (rival belle)—If she had tried she would have succeeded. Did you ever see such a hatchet-face?—New York Weekly.

Had No Kick.

"Catch any fish?"

"None."

"Better luck next time."

"I'm satisfied. I don't care to have cheap fish biting these expensive 'tion."

As Pa Sees It.

Little Willie—Say, pa, what is organized charity?

Pa—Organized charity, my son, is the condensed milk of human kindness.

FASHION HINTS

Just a suspicion of the hobbled skirt is shown in this afternoon dress of chiffon voile. It is made over a pompadour silk, a little of which shows unveiled at the upper part of the waist.

WISE USE OF BY-PRODUCTS.

Has Brought Wealth to Thousands Engaged in Different Industries.

Not so long ago many things which are now bringing wealth to those who handle them went to waste. One-half of the best sugar industry went to waste. Now, through the latest scientific processes, fully 90 per cent of the sugar can be obtained, writes Madison C. Peters. A few years ago fully one-half of the slaughter house trade represented waste, only the principal parts of the carcass being sent to market. Now all of the by-products are put to some use. The blood is used for dyeing industries, while from the muscular tissue we get beef extract, from the hide shoes, from the hair and bristles brushes, from hoofs and horns gelatine and horn utensils, from entrails and refuse fats for soaps, from the bones phosphorus for fertilizer.

Skin milk used to be almost valueless until chemistry found a way of extracting the casein from it, and of this good buttons are now made, and it is used also medicinally for numerous remedies. Whey, or what is left, when the curd is taken off, was once worthless waste. Now they are making lactose, or sugar of milk, from it. Recent industries have turned this rubbish into coatings and sizings for paper, waterproof glues for wood veneers, substitutes for hens' eggs, hard rubber lactic acid and other useful commodities.

The world of mining has been revolutionized in the past few years. The culm that used to be piled up at the mouth of the coal mines, and which nobody would carry away, is now almost as valuable as the unbroken coal. Artificial diamonds, rubies and sapphires are produced from it. The tailings of coal mines had the mineral in such minute particles that it could not be extracted. Some one discovered that gold was soluble in a weak solution of potassium cyanide; the discovery was applied in practice, every particle was recovered and seemingly worthless ore produced millions of dollars. The loss also in silver mines was enormous until a method was found of freeing the mineral from the lead.

Much of the enormous wealth amassed by the Standard Oil Company has come from wise use of the by-products. Paraffin, to cite just one instance, which has proved so immensely profitable to the concern, is made from a disagreeable substance once thrown into the river, until the authorities got after the company because of the pollution it produced. To burn it made an unbearable stench, and in despair the company appealed to the chemists how to get rid of the nuisance, when a process was discovered to convert it into paraffin.

A certain jurist was an enthusiastic golfer. Once he had occasion to interrogate, in a criminal suit, a boy witness from Bala.

"Now, my lad," he said, "are you acquainted with the nature and significance of an oath?"

The boy, raising his brows in surprise, answered:

"Of course I am, sir. Don't I caddy for you at the Country club?"

PHYSICAL WRECK RESTORED TO HEALTH BY GREAT KIDNEY REMEDY.

I feel it my duty to furnish you with my testimonial as to what your remedy Swamp-Root did for me when I was a physical wreck from kidney and bladder trouble. Some years ago I was not able to do any work and could only just creep around, and am satisfied that had it not been for Dr. Kilmer's Swamp-Root I would not have lived. After using the preparation for one month I was able to work some and when I had used \$8.00 worth of Swamp-Root I could do a good day's work. I used about \$10.00 worth altogether and would not take \$10,000 for the good that it did me. I consider it a God-send to suffering humanity for the diseases for which you recommend it and have recommended it to many sufferers.

Memorial to a Discoverer.

The town hall of Lunenburg, in Hanover, contains a touching memorial to a pig who breathed his last three hundred years ago. This consists of a handsome glass case inclosing a ham in excellent preservation, and underneath a black marble tablet, with the following inscription in gold letters: "Passers by, here you behold the mortal remains of the pig which acquired for itself the imperishable glory by the discovery of the salt springs of Lunenburg."

Mothers will find Mrs. Winstow's Soothing Syrup the best remedy to use for their children during the teething period.

Olive Oil to Remove Cinders.

The man with the cinder in his eye was suffering great pain. Every one had a different method of relief to suggest, but nothing had the desired effect. At length one of the bystanders procured a little olive oil from the lunch room. This was poured into the eye and relief was instant. "I learned that method of dealing with cinders while abroad," said the bystander, "and I guess it is about as effective as anything after all."

Highest Good in Life.

The highest good is found in the way of doing good, giving what we have, our best selves, to others. Let a man seek efficiency in his business, let him seek leadership in his profession, let him seek enriching some other lives. This is the myrrh that preserves to us all that we gain and perfumes all, while selfishness is the moth that breeds decay and death.

Priceless Relic Found.

The first original description of America ever written has just been discovered. It was penned by Dr. Diego Alvarez Chanca, physician to the second fleet of Columbus, and was dated at the Port of Isabella, Santo Domingo, in January, 1494. Dr. Fernandez de Ybarra, of the New York Academy of Sciences, with the Smithsonian Institution of Washington, aiding and abetting, uncovered the documents.

Worms

"Cascarets are certainly fine. I gave a friend one when the doctor was treating him for cancer of the stomach. The next morning he passed four pieces of a tape worm. He then got a box and in three days he passed a tape-worm 45 feet long. It was Mr. Matt Freck, of Millerburg, Dauphin Co., Pa. I am quite a worker for Cascarets. I use them myself and find them beneficial for most any disease caused by impure blood."

Fascinating Forty-Five.

A typical, well-preserved, well-educated woman of the present day who confesses to forty, but whose heart and complexion are both as fresh as if at least ten years younger, has a keener zest for life than many a woman only half her age. Perfectly groomed, exquisitely polished in style and manner, she is a thing of beauty in a very real sense of the word, and she knows her power—Gentlewoman.

The "Toothbrush Plant."

One of the most curious plants in the world is what is called the toothbrush plant of Jamaica. It is a species of creeper, and has nothing striking about its appearance. By cutting pieces of it to a suitable length and fraying the ends, the natives convert it into a toothbrush; and a tooth powder to accompany the use of the brush is also prepared by pulverizing the dried stems.

Wasted Time.

At present too much leisure time is spent in search of that knowledge which means anything that is interesting—especially hobbies.—Exchange.

Colds on the Chest

Ask your doctor the medical name for a cold on the chest. He will say, "Bronchitis." Ask him if it is ever serious. Lastly, ask him if he prescribes Ayer's Cherry Pectoral for this disease. Keep in close touch with your family physician.

When you tell your doctor about the bad taste in your mouth, loss of appetite for breakfast, and frequent headaches, and when he sees your coated tongue, he will say, "You are bilious." Ayer's Pills work well in such cases.
