Pleasant Home has stood for a good many years, so says a contributor of the Herald for which we will echo back again—live forever.

The Pleasant Home postoffice was established in the year of 1876. July 10th its founders blazed the trail, as far east as section 28, then to Sandy for miles around this office and served the office. Its founder set the movement on foot to open the road with a bridge across the Sandy, near where now the Bull Run bridge crosses, then riding a distance of 8 miles horseback and 8 miles around. After a bridge was built there was a saving of 15 miles. The promoters of this postoffice and township here are old veterans of 1861, always were of a progressive spirit to locate emigrants to settle up its country and advance the interest of all at large.

We have always stood for education and have endeavored thus far in creating a temperance spirit in our business enterprises. We welcome to our fertile soil all home loving people. The church invites them to her ranks, to continue the uplift of this people who may come after us to carry forward the work so well begun, by those who have passed over on the other side.
