A Charming Woman

is one who is lovely in face, form, mind and temper. But it's hard for a woman to be charming without health. A weak, sickly woman will be nervous and irritable. Constipation and kidney poisons show in pimples, blotches, skin eruptions and a wretched complexion. But Electric Bitters always prove a godsend to women who want health, beauty and friends. They regulate Stomach, Liver and Kidneys, purify the blood; give strong nerves, bright eyes, pure breath, smooth, velvety skin, lovely complexion and perfect health. Try them. 50c at all Gresham druggists.

MOUNT SCOTT

Mrs. Jennie Richardson, one of the Lents school teachers, went to Eugene Saturday with Dr. and Mrs. Short of Gresham, in the doctor's machine.

Lents school did not get its dues in the wintertime of the children's parade of carnival week. But the judges of the parade took recognition of the merits of the work done by our little ones and awarded the cup to them for their excellent display and for the large attendance. This makes the second year for this award. One more trial and the cup remains with the Lents schools.

Work is begun on the removal of the old school house. It will be placed in the back yard for the present and a new 12 room addition will be begun at once, completing the building started last year. The city plans to erect another one in the Woodmere district this summer and this part of the district will be relieved for the present of its congestion.

Much comment is being made on the very poor service offered by the city water service at this time. Of course it should be taken into consideration that the mains through this section are altogether inadequate for the service required. Thousands are now using pipes that were laid to supply a few hundred and it is simply impossible to get the water through in time to supply the demand.

The Lents bakery has just completed a new oven which is reported to be one of the finest in the city.

The Multnomah County Bank will occupy half of the Chauncey block in a week or so. The rooms have been rented and are among the most desirable in the town.

CHERRYVILLE

The good old summer time. Hot and dry in this neck of the woods. Who said it rained all the time in Oregon?

After a residence in the state of over six months we still fail to have web feet or moss on our back.

Richard Teneyck of Marmot is completing his immense barn size 100x50. It took 60,000 shingles to cover this barn and nearly 100,000 feet of lumber. These excellent people, Mr. and Mrs. Teneyck have a family of eleven children and strange to relate, have scarcely ever had a doctor in the house professionally. It would be a difficult matter to find another family of the same size in the eastern states with such a record.

Your typo made us say that all "standpatters" were headed for prohibition. We meant to say oblivion. We write carelessly and should take more time to be exact, but let the printers beware or we will come into the office some day with a big box of cherries from Cherryville. (Come on, brother, with the cherries, and better copy, or it will be lemons for you—Tivo)

One of the railroad squatters was warned off from his land one day last week by a little squirt of a lawyer and said he must adjourn sine die or words to that effect. There is gall for you! The railroad company has lost all claim to its land all over the state. The courts will so decide it as they have already done in every instance at this stage of the game. Goodbye "Bret" railroad attorney! We'll see you later. Selah!

Fine weather for working the road, and our Road Boss, David Douglas, has nearly finished his job for this district as the amount of money appropriated is nearly expended. It is rumored that the automobile club at Portland are going to come across with \$10,000 to expend on the Mt. Hood. Good idea, and ought to be done. As they say in Oregon a big band of automobiles go by every Saturday and Sunday bound for the summer hotels up near the Hood. They ran until midnight last Saturday and judging from the racket some of them must have had a pretty fair sized "jag on."

What this county needs, Clackamas county, especially, is not more saloons, but cheese factories and fruit canneries. Either would probably be of vast benefit to the people generally.

"Wayside" tarried over night at the hospitable home of Mr. and Mrs. Wm. P. Roberts up near Dover lately and found much of interest to a wayfarer man. His orchard and garden are unusually well kept and bring good results as he got first prize on apples at Portland last fall and also at the Grange Fair in Sandy.

Mr. and Mrs. Fisher, living on the auto road up near Firwood, have a model farm and home where everything is kept in apple pie order, and by the same token they still have apples in a good state of preservation, as your correspondent can testify.

A quince tree on the farm of Mr. Roberts near Dover has young fruit on, and is only three years from the sprout. A mere twig was cut off three years ago and now is beginning to bear fruit.

James McCabe has a camp up near Marmot where he boards men and teams who work on the tunnel being built, or rather dug between the Big Sandy and the Little Sandy. There are really two tunnels, one of which is 4700 feet long and the other 1000 feet. These tunnels are dug or bored through solid rock and the miners use largely dynamite to blast the rock. It is a hazardous and dangerous job, but so far no one has been hurt; only about 1000 feet have been done so far.

Four fine horses, two roans and a black, were discovered Tuesday east of Alder Creek and within one mile and half from Salmon river bridge, shot through the head and probably dead about a week. Heavy team of horses, all shod. Presumably the work of some disgruntled teamster. It may be these horses were stolen and the thief, fearful of being caught, killed the horses rather than leave them.

Mated.

Any one with half an eye could see that he was madly in love with her, but he had not courage enough to put his fate to the test. But she was a young lady who knew her way about, as the saying goes, and one night she suggested a game of chess. He, poor fellow, eagerly swallowed the bait. If he was a novice at lovenaking he was certainly no novice at chess, and he soon had the fair maid hopelessly beaten.

"Ah!" he exclaimed as he put her in a hopeless corner. "You're in a tight corner now, Miss Mabel."

She looked at him with those beautiful eyes of hers and then said:

"I hadn't noticed any compression, George. Have I no escape?"

"None whatever," said the guileless George. "I shall mate you next move."

"Oh, George!" said she, with a becoming blush. "Er—hadn't you better ask father first?"

They are married now, and George often wonders if she is as dense at chess as she would make him believe.

Lincoln With His Children.

It was a frequent custom of Lincoln, this of carrying his children on his shoulder. He rarely went down street that he did not have one of his younger boys mounted on his shoulder, while another hung to the tail of his long coat. The antics of the boys with their father and the species of tyranny they exercised over him are still subjects of talk in Springfield. Mr. Roland Diller, who was a neighbor of Mr. Lincoln, told one of the best of the stories. He was called to the door one day by hearing a great noise of children crying, and there was Mr. Lincoln striding by with the boys, both of whom were wailing aloud. "Why, Mr. Lincoln, what's the matter with the boys?" he asked.

"Just what's the matter with the whole world," Lincoln replied. "I've got three walnuts and each wants two."—From Tarbell's "Life of Lincoln."

Whooping cough is not dangerous when the cough is kept loose and expectation easy by giving Chamberlain's Cough Remedy. It has been used in many epidemics of this disease with perfect success. For sale by all druggists.

The first general session will be held at 3:30 o'clock, Monday, July 10th, in the Berkeley Creek Theatre. William B. Pringle, chairman of the California Executive Committee of the N. E. A., will preside and will introduce the Governor of the State, Mayor of San Francisco, and prominent educators who will deliver addresses of welcome to the pedagogues.

RECORD CROPS WILL ADD VAST SUM TO OREGON'S WEALTH

That this will be the biggest year Oregon has ever known, with the biggest crop total in its history, is the prediction made by Dr. James Withycombe, director of the United States Experiment Station at Corvallis. He estimates that the total value of Oregon crops for 1911 will be more than \$125,000,000.

Tillamook will celebrate the opening of its railroad from that city to a point in the Nehalem Valley near Wheeler on July 1. This road will probably be opened between Portland and Tillamook in the fall.

Oregon's newly formed Naval Reserve will have a flagship before the end of the month for the United States Cruiser Boston has been ordered transferred to duty at Portland and will be brought here during the coming week by the officers of this organization. It will therefore be the headquarters of the Reserve and will participate in practice cruises to train the officers and men in naval maneuvers.

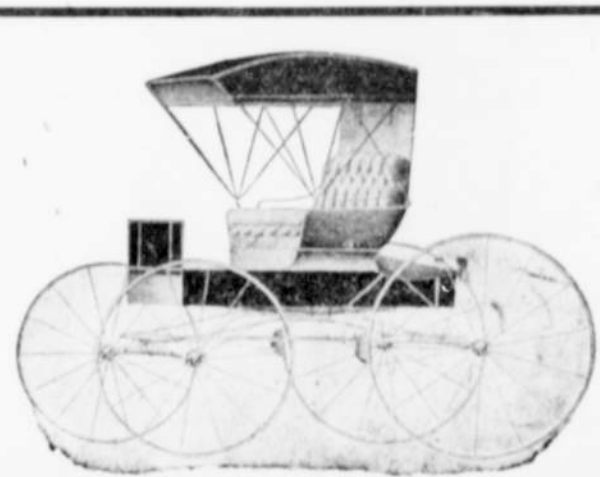

Postmasters of the state, who were in convention at Portland during the past week, endorsed the postal savings bank system and urged its extension throughout Oregon. Postmasters where these institutions have been tried were earnest advocates for them elsewhere. Next June postmasters of Oregon and Washington will meet in Portland.

Portland now claims to have the fastest motor boat in the world, the Oregon Wolf having just been launched, and it made its first appearance at races ran during the Rose Festival. This craft was built solely for speed purposes and it is expected to race her throughout the country. She runs at the rate of 41 miles an hour.

Bankers of the state have been in session in Portland the past week and they say never before has banking been in such a satisfactory condition in Oregon. With the big crops now in sight, a prosperous year is certain.

It was a long and bloody battle for life that was waged by James B. Mershon of Newark, N. J., of which he writes: "I had lost much blood from lung hemorrhages, and was very weak and run-down.
