

'JUICE' WHAT IS IT?

It is the term applied by electrical workers to the currents of electricity which flow through a copper wire.

"JUICE" is probably Man's greatest invention and brings to the use of the household light and power at a moment's notice.

It is the cheapest, when convenience and cleanliness are considered.

It is the safest from danger of fire and there is nothing to equal it in our cosmopolitan life.

If you are interested in the great agent of man fill out this blank, mail it to Room 818, Elecuric Building, Portland, Oregon, and the information will be given you.

To the Portland Railway, Light and Power Co.,
Portland, Oregon,

Please furnish me with the information as to

what it will cost me to put Light or Power

in my room-home or factory.

GRESHAM AND VICINITY

RESUME OF THE WEEK'S DOINGS IN AND AROUND THE CITY

E. E. Sleret has an auto.

Mrs. C. E. Pugh has been quite ill the past week.

Miss Minnie Lawrence went to Portland Thursday.

Wilbur Thompson, who has been so ill, continues to improve.

John Brown is preparing to move on to his lots on the Clannahan tract and is erecting temporary quarters to move into.

E. B. Thompson, who returned on account of his brother's serious illness, has gone to eastern Oregon for a month on business.

Mrs. C. Kidder and daughter, Miss Nellie Kidder, of Peconica, Ill., are visiting at the home of Mrs. Kidder's son, L. L. Kidder.

The services in the M. E. church next Sunday June 25th will be conducted by Professor Edwin Sherwood of Salem at the usual hours.

The Gresham Grange will meet at 11 a. m. Saturday, June 24th. It being children's day there will be a strawberry dinner and children's program.

The Gresham Giants will play Rupert's Costerinos next Sunday on the home diamond. The Giants won from the Troutdale team last Sunday. Score was 13 to 5.

Work is on in full blast on the track that will be made for the driving association on the Fair grounds. Several teams are busy removing dirt, and making the necessary fills.

Mrs. A. L. McDonald and daughter, Madeline, left on Tuesday last for Vancouver, B. C., where they will join Mr. McDonald who went there several weeks ago. They will probably make Vancouver their permanent home.

Mrs. Bachmeyer entertained the "I Can" class of the Methodist Sunday School at her home last Friday evening. Some forty members of the class were present and from the reports from those present we are lead to believe that all had a royal good time.

An unknown man was drowned from the boom-logs that surrounded the fish wheel on F. H. Crane's place, Thursday of last week. He was seen struggling in the water and calling for help, but before assistance could be given he had disappeared. Who he was is a mystery yet, as no one is reported missing.

Contracts were let this week for two new buildings at the county farm, near Fairview. One will be a nurses' dormitory 40x78 feet, two stories high. It will be of pressed brick with cement trimmings and contain 14 bedrooms, parlor, sitting room and kitchen. It will have a full basement and be fully equipped throughout.

C. A. Ruby is building one of the biggest barns in the vicinity on his Base Line ranch. It is 100 feet long, 40 feet wide and 60 feet high. He is making preparations to take care of enough hay to do him through the year. Last season he had to put in a carload during the worst weather, which emergency he will avoid hereafter.

Gresham Grange will meet in special session next Saturday, the occasion being the celebration of the children's day program. The event has been purposely delayed so a strawberry dinner could be served at the same time. All are invited to come and participate in a special program and one of the best dinners ever served by some of the best cooks in the state.

Mrs. M. Iwakoshi, a Japanese lady living at Orient, has a thriving colony of silk worms which she raised from imported cocoons during the past spring. The worms are just now pinning their silk and will soon be ready to leave their present shape and come forth as a butterfly. It is very interesting to see them at this stage and watch them at work.

The railroads, state agricultural college and the business interests of Portland are united on a plan to aid Morrow, Sherman and Gilliam counties in agricultural advancement. A demonstration train will be operated next fall through that section and experts from the state college will explain the possibilities of diversified farming and stock raising in order to build up the soil, although there is no intention to do away with wheat as the principal crop. It is believed, however, that improved methods will conserve moisture in the soil and by growing other things than the single grain, as at present, two crops can be had in three years instead of two in four years as at present. Seed will be distributed from the train and prizes offered for the best results obtained by farmers.

BARBERS' NOTICE

Our shop will be open July 3rd
until midnight and closed on the 4th.

Sig. Knighton
Harry Wood.

Dick Forbes Jr., for several years in the engraving business in Portland and for the last two years a student of the art in New York, Boston, and Los Angeles, is again in the county, and for the last two weeks with his father at Linne-man. He expects to stay in Oregon for awhile at least.

Henry Gullickson was badly injured last Friday evening while watching the crew lower a section of pipe into the ditch. The tripod at one end slipped and threw the iron tackle onto him. He is slowly recovering.

Gresham's Mayor and recorder are busy these days checking up accounts and records preparatory to disposal of water and sewage bonds and getting the funds for the anticipated improvements in these features.

Last Sunday morning the Shattuck & Lindsey team won from the Pleasant Home team. The score was 10 to 3. In the afternoon Corbett team won from the Shattuck & Lindsey team to the tune of 9 to 8.

Gresham schools are a little ahead of other towns of the same size in the west. The Journal gives them credit for having arranged to establish a domestic economy department for the next year's work.

Miss Bessie Howitt will attend the reunion of the Kelly Clan next Saturday at the home of Mrs. A. B. Manley, 663 Williams Ave., Portland. Miss Howitt is a descendant of Clinton Kelley.

Mrs. Frank M. Bethel, wife of for-an Bethel of the Herald force, passed Wednesday with the latter, returning to her home in Portland yesterday morning.

Mrs. Ella Hornish has gone to Seattle on a business trip and when she returns, in a short time she will go to Kansas on a visit.

Miss Harriet Alexander, who is a teacher at The Dalles, is spending her vacation at her home here.

Vera Smith will spend the summer at Roseburg, Ore., and Fresno, Calif.

Chas. Kane and family of Portland, were out in their auto last week.

HORSERADISH. GROW IT

Horseradish is generally in demand, why not grow it? It rotates well with cabbage or beets and increases the income from the ground. The cost of growing horseradish alone is about \$40 an acre. An acre produces from two to four tons of roots, which sell for \$10 to \$50 a ton.

Horseradish is propagated easily by root cuttings. These are four to seven inches long and the size of a pencil. The roots are dropped top end up in holes or furrows in the cabbage rows. The top of the cuttings should be from three to five inches below the surface of the ground. This deep planting delays the growth of the tops until after the tillage of the first crop. If the tops grow so much that they bother, they may be cut off two or three times early in the season without injury.

Plow the roots out late in the fall. Store them in pits or in the cellar, or sell them. It is necessary to destroy all small roots, as they will grow the next season and be a nuisance.

Very deep, cool, rich soil is best suited to horseradish. On account of the extreme hardness of the plant, it grows well on wide range of soil. Heavy clay soil is least adapted to its growth.

TO KEEP MILK SWEET

Clean milk cannot be produced when handled carelessly.

The milker should wear clean clothing, preferably white. The cow's flank and udder should be wiped with a damp cloth before milking. The milker should have clean dry hands; he should never allow his hands to become moist with milk, as it frequently drips into the pail, carrying with it thousands of bacteria.

After the milk has been drawn it should not be allowed to stand in the barn until the remainder of the cows are milked. It must be taken to the milk room at once and poured over a cooler which will bring it down to a temperature of 50 degrees F., if possible, but if water that cold cannot be obtained, 60 degrees, not higher, will do almost as well. The milk should be kept as cold as possible while delivering. This can be done by packing wet sacks around the cans or bottles, or ice may be packed around them.

The dairyman is often blamed for sour milk which has been soured by the carelessness of the consumer. To remedy this the delivery man should instruct his patrons concerning the care of milk among his patrons.

The secret of sweet, long-keeping milk in preventing as much foreign material as possible from entering it at as low a temperature as possible.

The uniform success that has attended the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy has made it a favorite everywhere. It can always be depended upon. For sale by all druggists.

LENTS W. C. T. U. NOTES.

The closing Institute of the season will be held at University Park on Thursday June 25th:

At 10:00 a. m., Devotions led by Mrs. Barkley. Roll Call responded to with quotations from the Union Signal.

Papers on the following themes will be read and discussed: "Peace and Mercy", by Mrs. J. C. Scott; "Work Among Sailors", Mrs. Reiborf; "Franchise", Mrs. Trumble; "Christian Citizen", Mrs. Norman; "Press", Miss Lyman.

Social and Red Letter Days, Mrs. Addison.

A parliamentary question box in charge of Mrs. Clark.

Physical Culture Drill, Mrs. Little.

Music furnished by University Park W. C. T. U.

Social hour and lunch at noon.

At the afternoon devotional hour there will be an address on "Foreign Missionary Work and Temperance", by Mrs. A. E. Ayers. A returned missionary of India. Meeting held in M. E. church.

It is worse than useless to take any medicine internally for muscular or chronic rheumatism. All that is needed is a free application of Chamberlain's Liniment. For sale by all druggists.
