Mrs. Geo. E. Couper of this place celebrated her birthday on Monday of this week at a picnic near her home. Several of the neighbors were present and some beautiful gifts were given by her children and other friends and children. Mrs. Couper is a lineal descendant of the royal line of the Stuarts of England and Scotland. Her ancestor who emigrated to this country in an early day was a brother of Charles the First, who was beheaded by Oliver Cromwell. This unfortunate monarch had a foolish notion that he was Divine-ly anointed King and that the people of his realm were his absolute serfs. He met his death bravely and as one writer observed "nothing became true so well in life as his departure from it." The immediate family of Mrs. Couper have preserved the family name of Henriella, wife of Charles the First from that day to this as some female member of the line has born that name. Charles the second, who succeeded his father after Cromwell who was really the ablest ruler that England ever had—paid no attention to the absolute King's business but was a sport from start to finish.
