CHERRYVILLE

The hunters month. The unexpected has happened. A gentle rain visited us the first of the week. Cherries are entirely gone around Portland are now in fine condition here. Vincent Friel met with a very painful accident last Saturday while working on Mt. Hood trail for Mr. Coleman. It appears that while working with a party of men with axes an ax flew off the handle and hit him on the fleshy part of the arm inflicting a serious wound. Mr. Coleman sewed up the gash and the cut seems to be healing all right.

The initiative and referendum as well as direct legislation and corrupt practice act originated right here in Clatsop county at the home of Seth Luelen near Milwaukee assisted by W. U. Wren according to an article in McClure's magazine for July. Both of these gentlemen, according to that article are Spiritualists which in some form or another is held by the world's most advanced thinkers, notably Sir Oliver Lodge of London, a fellow of the Royal Society, editor Stead of the Pall Mall Gazette of London and many other eminent men.

The Evening Journal of Portland in a late issue says that Real Winter and Jack Frost of that city have taken a trip to the mountains. Small wonder to that for as their names imply they can't stand the heat in Portland.

If you want to make some of them "long green" another season, sink a barrel in the ground two-thirds full of fertilizer, fill up the remainder with dirt and then plant some long green cucumbers on top.

In perusing a recent Portland paper an article appeared telling about the enormous amount collected by Billy Sunday in the course of one season. It is a sad commentary on the intelligence of the American people that they will "fall" for the ravings of this ridiculous blatherskite. The writer once reported one of his meetings for an Illinois newspaper, and among other foolish things he said was that "Old Emerson, old Holmes (Oliver Wendell), old Ben Franklin, old Wm. Penn and many other great men were in hell." Of course they were not orthodox.

Attack Like Tigers.

In fighting to keep the blood pure the white corpuscles attack disease germs like tigers. But often germs multiply so fast the little fighters are overcome. Then see pimples, boils, eczema, salt-rheum and sores multiply and strengthen when an appetite fail. This condition demands Electric Bitters to regulate stomach, liver and kidneys and to expel poisons from the blood. "They are the best blood purifier," writes C. T. Budahn, of Tracy, Calif. CHAMPION

The Relief Rake prevents the grain from bunching between platform and elevator—keeps all grain, particularly short stuff, from gathering at the inner end of cutter bar and insures a steady flow of grain to the elevator. Invaluable when in tangled or badly lodged grain.
An exclusive CHAMPION feature.

Positive Force Feed Elevator insures a positive and continuous flow of grain to the packer arms. Eliminates bunching at the Binding Attachment by forcing the grain clear into the attachment. Works accurately on all weights of grain and under all conditions. This is an exclusive CHAMPION feature.

The Force Feed Elevator and the Relief Rake Make the Champion Binder the Best Machine You Can Buy

These two features alone should be sufficient to convince any careful buyer that the Champion Binder is the most serviceable machine in the field, but when you consider the many other advantages found on the Improved Champion Binder, among them the balancing Sectors which keep the machine perfectly balanced in all heights of grain, the ball and roller bearings which make it light running and easy pulling and the simple, efficient driving mechanism, there remains no room for doubt of the superiority of the Champion. It represents the greatest possible binder value for the money.
