CHERRYVILLE

Finer than silk.
The weather of course.
The nice rain of last Saturday laid the dust.
Huckleberries are getting ripe on Wild Cat Mountain near Cherryville.

An injunction was placed upon exhuming the body of Mrs. Friel Sr., last Wednesday so that the grave was not opened. It is thought that another attempt will be made this week but nothing definite is known.

A mountaineer last week living up near Zig-Zag mountain went to Sandy filled up with "booze" in a "joint" and got into a drunken fight with another "booze-fighter" and was waylaid on his way home sometime in the night up near Salmon River and picked up in an unconscious condition with a badly bruised head and a couple of black eyes. Whether he fell out of the wagon or was overtaken by his late assailant no one seems to know. "Who has wounds without cause?" There are said to be three kinds of fools in this world, common fools, particular fools and d—fools and once in awhile you find one that is all three combined, to-wit, a common particular d—fool to which claim a man or men who will fill up on "bug juice" and then get into a drunken fight along. Some one will end up in being killed yet.

The railroad agents were around again insisting on the squatters who are on the so-called railroad lands signing a lease, thus putting them in the place of tenants and it is well known that squatters cannot dispute a landlord's title. One of the squatters wrote to the Attorney General of the United States and also to the Congressmen from this district and they both advised him under no consideration to sign a lease. These leases were a monstrous exhibition of gall and impudence as they bind the squatters not to use any firewood and to get off of the premises in 30 days after being warned by the railroad company and if there is any cost attached to convicting them, the squatter is to pay it and also to leave all improvements without any return for labor and money expended and also if ever traveling on any of these railroad lines not to sue or claim any damage if injured while riding on their system. This is certainly the limit! There is only one thing they omitted and that is they neglected to have the squatter have his life insured for \$10,000 for their benefit. We would like to see the color of the skunk's hair that wrote the lease. This is no time to write in a lady-like or Miss Lizzie style about this bunch of outlaws. Elliott of the Great Northern railroad says the people must stop talking about the railroads or they will injure business. Probably they will produce a panic like J. P. Morgan threatened Roosevelt in the last days of his term unless he let the Tennessee local and iron deal go through. Having tied up some of the best land in the state their bogus land grants which they have long ago lost title to, they now say if they are not allowed to have their way to do just as they please with land that they do not own. Why they will start a panic and paralyze business. A car load of salt that cost \$52.80 in Frisco, costs \$50.00 for freight to Fort Klamath, Oregon. Lemons are rolling on the ground near Santa Barbara, California, while here they cost 50 cents a dozen, still we must not complain or the bunch of railroad outlaws and bankers will start a panic. Even that thorough-faced defender of all manner of monopolies, the "Oregonian", says the railroad land grants so-called have been a great hindrance to the development of the state and something must be done to make them let up on the strangle hold on the resources of the state. Still we must not complain or the big business buccaneers will start a panic or paralyze business. Roosevelt in his testimony before the Stanley investigating committee in regard to the Tennessee Coal & Iron Company that Frank & Gray acting for the United States Steel Co., that they did not care to purchase the stock of the aforesaid company, as a business transaction, that under ordinary circumstances that they would not buy it because but little benefit would come to the United States Steel Company from this transaction. Roosevelt was surely not simple to believe this bluff although he claims he did not allow them to go on with the deal by which they acquired \$200,000,000 worth of property for \$29,000,000 and absorbed a dangerous rival that was manufacturing pig iron for \$3.00 a ton cheaper than could be manufactured anywhere in the world. Anywhere you find one of that bunch do anything to help anybody out of the hole or for any purpose but their own selfish ends. You can show the writer a white black bird. And the truth of the matter is Roosevelt knew it and went into that rotten deal with his eyes open. For the truth of these statements send your Congressman for the report of the Stanley Investigating Committee on the Tennessee Coal & Iron Co.,

SANDY

Ben Forrester, who lives on Sandy Ridge, near Eagle Creek, had the ill luck to lose his barn by fire week before last. The flames were discovered about eleven o'clock at night but were so far advanced that nothing could be done. The year's hay crop was stored in the barn and the grain was stacked on the outside, ready for the thrasher. Both hay and grain are a total loss.

What might have been a serious accident occurred Saturday evening when John Mitchell and his two sisters were driving home from Sandy. The horse became frightened and began kicking down the hill. Miss Mitchell and John were thrown out but the little girl managed to stay in. While they are badly jarred and bruised, it is hoped nothing serious will come of it. Miss Mitchell, it will be remembered, suffered a broken knee a year ago, from which she has never recovered. It is feared she may have injured that.

Mrs. Deaton and daughter of Portland, are visiting with Mr. Deaton.
Mrs. A. D. Edwards has improved some but still requires the services of a trained nurse.

Attack Like Tigers.

In fighting to keep the blood pure the white corpuscles attack disease germs like tigers. But often germs multiply so fast the little fighters are overcome. Then see pimples, boils, eczema, salt-rheum and sores multiply and strengthen when an appetite fails. This condition demands Electric Bitters to regulate stomach, liver and kidneys and to expel poisons from the blood. "They are the best blood purifier," writes C. T. Budahn, of Tracy, Calif., "I have ever found." They make rich, red blood, strong nerves and build up your health. Try them. 50c at Gresham druggists.

We are glad to welcome Miss Fox back home, and shall be glad to meet her at the grange.

This locality was very much excited last Saturday, when all at once, a large auto truck came buzzing up the road, with no less than 25 automobiles right after in a string, all loaded with a merry throng of the strong sex. It was soon learned that it was the Panama Boosters, which the commercial club of Portland were entertaining, and judging from the way the auto truck was loaded with the stuff that makes men jolly, it was evidence that they did not want their lady friends present. Although Saturday was a damp day, it is needless to say that the boosters had a good time, and the farmers were glad to be honored with a visit from them, and are looking forward with great expectation to the time of the Panama exposition, when this part of the country early will be benefited.

A play entitled the "Deacon's Second Wife," will be given next Saturday night at the grange hall. The income derived from same will go to the church fund. Everybody is respectfully invited.

CHAMPION

The Relief Rake prevents the grain from bunching between platform and elevator—keeps all grain, particularly short stuff, from gathering at the inner end of cutter bar and insures a steady flow of grain to the elevator. Invaluable when in tangled or badly lodged grain.

An exclusive CHAMPION feature.

Positive Force Feed Elevator insures a positive and continuous flow of grain to the packer arms. Eliminates bunching at the Binding Attachment by forcing the grain clear into the attachment. Works accurately on all weights of grain and under all conditions. This is an exclusive CHAMPION feature.

The Force Feed Elevator and the Relief Rake Make the Champion Binder the Best Machine You Can Buy

These two features alone should be sufficient to convince any careful buyer that the Champion Binder is the most serviceable machine in the field, but when you consider, the many other advantages found on the Improved Champion Binder, among them the balancing Sectors which keep the machine perfectly balanced in all heights of grain, the ball and roller bearings which make it light running and easy pulling and the simple, efficient driving mechanism, there remains no room for doubt of the superiority of the Champion. It represents the greatest possible Binder value for the money.

Drop us a card for our big free Champion Catalog and testimonial circulars or pay the nearest Champion Agent a visit. It will be to your advantage.
