## Dill Pickles

Take one gallon of rain water, two quarts cider vinegar, one pint salt, two tablespoons mixed spices, one full handful of dill. Mix all these together, then pour this quantity over one peck green cucumbers the desired size. Put in large stone jar and cover with a cloth, which must be taken off and washed out every morning, as the crispness of the pickles depends largely on this.—Mary E. H. Colville.

## CHERRYVILLE

The summer is past and gone.

Fine beneficial rain the first of this week.

Dr. Bolkins is building a fine large barn on his farm one mile east of town.

Miss Ruth Friel went to visit her sister last week at Bridal Veil Falls. It is to be presumed that Bridal Veil Falls is a popular resort with young folks.

Miss Constance Ewing of Portland is visiting at the home of Mr. and Mrs. Rube of this place. Miss Ewing once taught the Cherryville school.

Our school began this week on Monday Labor Day, under the charge of Miss Lola Herald of Lents, who taught the school last term. It is thought the number of pupils this term will be fully 30, as several families have moved in this season.

"If we allow the Government to run the coal mines in Alaska and the railroads in Panama, when will this thing stop, says the Secretary of the Interior Fisher?" Never will stop until the Government runs and owns all of the public utilities the same as they do in New Zealand, the most progressive and best conducted Government on earth.

In Col. Belts book, late W. S. Consul to this progressive colony he says that Government owns 2,325 miles of railroad, which takes passengers for one cent and school children free and rates are ten times lower than here and yet the Government makes money and all profits go to extending the system and improving the roads. The Government owns the public lands and lets encouraging settlers go upon them, giving them an opportunity to pay for them in less time, and even furnishing them capital at 2 per cent to develop and improve the land, and purchase stock. Here we give everything to railroad corporations, bankers and great Captains of industry like Rockefeller and Morgan in manufacturers who are already enormously rich. It is needless to add that the day of the rule of the privileged few is rapidly drawing to an end. Gerald Massey, the poet well and truly wrote more than 20 years ago. That the few shall not forever rule. The many toil in sorrow. The gates of hell are strong today. But right shall rule tomorrow.

The Marquis of Queensburg of England recently arrived in this country looking for a job, as he says the Lordship business is about played out or is fast playing out and he is tired of being called "My Lordship", when there is nothing in it for him. As long as they can make an easy living by working the absurd racket about Kings, Lords, Dukes, and high church prelates it will be done. MacCauley, the great English Historian said, "If large pecuniary interests were at stake, so well established and so generally accepted, a doctrine as the law of gravitation would be denied and strenuously denied."

A battleship of the Dread nought Class cost \$10,000,000 and as there are built, being built or contemplated 100 of them at a cost of \$1,000,000,000, to be paid for by the productive classes, for all wealth must come out of the field, the forest, the steam or the mines. It can readily be seen what an enormous tax this is upon the people, the working people. This kind of nonsense will play out one of these days. Suppose this enormous sum was used to provide homes for the struggling poor.

Dr. J. H. Moore of the M. E. Church occupied the pulpit of M. E. Church at this place last Sunday. He took for his text, a verse in Matthew, where it says "If you have faith like a grain of mustard seed you will say to this mountain, be removed and it would be cast into the sea." A quick and expeditious way of leveling down this rough part of the state. It is coming to be recognized more and more, that we are governed by natural laws as fixed and unmovable as the laws of the Medes and Persians. The Orthodox church rules, supreme in Russia and what kind of a country have they got? A regular hell upon earth. The same in Spain. All of the old systems are headed for the junk pile.

Mr. Doty and daughter of Portland, were out on their ranch last week near Marmot. Mr. Doty has one of the finest collections of pheasants in the state and is constantly adding new novelties. He is on the track of some fancy poultry from Sicily, known as the Butter Cups from the shape of their combs. They have the world's record, as layers, having laid 300 eggs a year. They are also good size with a fine yellow skin.

Some idea of the magnitude of the work done near here on the dam, across the Big Sandy may be realized when it is known that 150 men are employed there night and day, and Sundays and that five big auto trucks run constantly night and day with five tons of cement at each load. The dam will be sixty feet high, built of solid cement. The road is planked from the dam to Bull Run a distance of six miles. This means the expenditure of a vast sum of money and gives work to hundreds of men who are coming and going continually. The company allows no one to sell liquor on these grounds or anywhere near if they can help it. A drunken man is a nuisance anywhere you put him.

## DOVER

The farmers are through threshing.

Crops were fairly good, and everybody is rejoicing over the nice rain. It is doing lots of good to late crops and stopping the forest fires and clearing the heavens of smoke.

A great many have gone to the huckleberry patch and come back laden with berries.

The quarterly conference was held Saturday. Rev. Moore preached a very interesting sermon.

Jacob De Shazer and family of Madras are visiting his brother, J. G. De Shazer, and is on his way to the hop fields. He is getting tired of hauling water as he was raised a wet foot.

Mrs. G. R. Woodie was visiting Mrs. Cooper one day last week.

## No Need to Stop Work.

When your doctor orders you to stop work, it staggers you. "I can't!" you say. You know you are weak, run-down and failing in health, day by day, but you must work as long as you can stand. What you need is Electric Bitters to give tone, strength, and vigor to your system, to prevent breakdown and build you up. Don't be weak, sickly or ailing when Electric Bitters will benefit you from the first dose. Thousands bless them for their glorious health and strength. Try them. Every bottle is guaranteed to satisfy. Only 50c at all dealers.

Mr. and Mrs. Cotton have closed up their mountain Bungalow, Hearts Delight, for the season and have returned to their home at Gresham.

Mr. Charles Gedeleska and J. F. Roberts and sons cottages have each received a new coat of paint.

The camping season is almost ended. There are only 5 or 6 camps yet on the grounds, and they will pull out probably about the 10th of the month.

Mr. Douglas, the Road Supervisor of this district is making extensive improvements between Brightwood and Welches, making an entirely new road. It will follow the old bank of the Sandy River, giving a road with a good drainage all along the new part and also making a nearly straight road which will be wonderful improvement for this district.

Welches district is to have a new school house. It is reported that it will be up-to-date, and first-class and as good as the best of its size and class.

Miss Lillie Welch has a fine new saddle for her pony, Fox, of which she is quite proud.
