CHERRYVILLE

The golden lined October. Weather a good deal like Indian summer.

Twenty-one families have taken up claims on the so called railroad land around Cherryville this season.

A young man from Virginia was killed last week at McCabes camp, up near Marmot while working around a saw-mill. It appears that he slipped and fell against one of the giant saws and was horribly mangled. He lived in a semiconscious condition for about one hour. His people in Virginia were informed by wire of his sad fate.

A drunken Indian passed through here one day last week on his way back to the Warm Springs in an exceedingly joyful state of exhibition. It appears he came off best in a pony race at Sandy and with a part of the stake laid in a goodly supply of fire-water. He left here after having been assisted to mount his victorious pony, holding fast to his bottle and weaving back and forth in his saddle. By the way there is a severe penalty for selling liquor to an Indian, but that makes no difference whenever poor Lo has an absorbing thirst if he has the price, he gets the same.

While driving along a narrow road last week not wide enough for teams to pass one another, the writer met a four horse team which in attempting to pass fell over into the canyon dragging the whole outfit nearly to the bottom. The driver and owner, Mr. Hanson, owning a saw-mill near Marmot, displayed the utmost coolness and nerve and although the wagon was on top of one of the horses he succeeded with some help in getting the horses loose and hitting them to the end of the wagon tongue by means of a long chain finally succeeded in getting the whole outfit up. If any injury or damage had been sustained it is certain that Clackamas County would have been in for the damage as that piece of road is not passable.

One of the soldiers belonging to the section of U. S. Artillery that stopped here last week on the way to the Warm Spring Indian Reservation for practice got so crazy drunk at Sandy that he came very near killing one of his comrades. Nice business that, selling whiskey to Indians and soldiers so that some innocent person or persons are liable any minute to get killed by a drunken brute who does not know enough to let the rotten stuff alone.

P. J. Shelly left Monday morning for a brief trip to Hood River.

The committee appointed by the Sandy Commercial Club to look into the right of ways for the railroad has been very busy the past two weeks. The correspondent has been able to learn nothing definite as yet.

A number of Sandy people attended the Gresham Fair. The races were the main attraction and considerable interest was manifested in Mr. Shelley's little mare "Starlight" ridden by Frank McCormack.

One of the soldiers going through town last week created a disturbance that threatened for a time, to end disastrously. He filled up on "boozie" and proceeded to shoot up the town. In Moran's saloon the bullet missed the bar tender by a scant six inches. The bar tender floored him with a billiard cue and another soldier closed with the bar man in an attempt to secure the gun. Several shots were fired but fortunately no one was hurt and the unruly individual was taken into custody by the troop. How long the decent respectable class of people in Sandy going to stand for this sort of thing. It was only by a miracle that some innocent bystander was not killed in this saloon brawl. Almost any night one can step on the main street and hear language that is too vile and awful to even pollute the air with, let alone listen to. And yet they are allowed to go on selling the vile stuff and our children dare not venture on the streets unless we wish them to hear things and see sights that are a disgrace to civilization. How long is it going to continue?

Otto Meinig had the misfortune to lose one of his big work mares last week.

P. R. Meinig has the old store building moved and in place across the road from the new store. We understand it will be used as a ware house and possibly as a hall.

Mr. Huffman is occupying his new butcher shop.

HUGE TILLABLE AREA IN OREGON

Oregon Agricultural College, Corvallis, Ore., Sept.— That there are 22,917,930 acres of tillable land in the state of Oregon has just been estimated by Dr. James Withycombe, director of experiment stations at the Oregon Agricultural College in some new statistics which he has recently compiled.

There are in the state 60,957,760 acres of land, and after the forests are removed and all available land is brought under cultivation, Dr. Withycombe estimates that the various counties will have the following agricultural acreage: Baker, 478,720; Benton, 207,840; Clackamas, 8228,400; Clatsop, 392,640; Columbia, 240,780; Coos, 502,240; Crook, 1,707,520; Curry, 474,560; Douglas, 815,840; Gilliam, 439,480; Grant, 574,912; Harney, 1,895,640; Hood River, 115,712; Jackson, 446,720; Josephine, 274,880; Klamath, 978,560; Lake, 1,282,560; Lane, 1,953,120; Lincoln, 318,720; Linn, 1,088,640; Malheur, 1,569,360; Marion, 633,312; Morrow, 324,560; Multnomah, 187,946; Polk, 382,176; Sherman, 384,960; Tillamook, 576,000; Umatilla, 939,840; Union, 721,008; Wallowa, 1,071,360; Wasco, 531,472; Washington, 447,360; Wheeler, 271,200; Yamhill, 360,448.

Forced To Leave Home.

Every year a large number of poor sufferers, whose lungs are sore and racked with coughs, are urged to go to another climate. But this is costly and not always sure. There's a better way. Let Dr. King's New Discovery cure you at home. "It cured me of lung trouble," writes W. R. Nelson, of Calamine, Ark., "when all else failed and I gained 47 pounds in weight. Its surely the king of all cough and lung cures." Thousands owe their lives and health to it. It's positively guaranteed for Coughs, Colds, LaGrippe, Asthma, Croup—all Throat and Lung troubles. 50c and \$1.00. Trial bottles free, at all dealers.

"TEA AND TOAST"

There's something quaint about the mere suggestion; there are traditions behind it that hark back to a less strenuous age; to an age when the dear old ladies met at the weekly sewing circle to coin nice ripe gossip, and sip tea—and eat Toast.

As a universal institution the sewing circle is now a memory, but "Tea and Toast" is more popular than ever.

This popularity is largely due to the invention of the Electric Radiant Toaster. This attractive little device makes Toast scientifically, for its radiant heat forces the absolutely necessary chemical change in the bread. This means Perfect Toast in any degree that suits your individual taste. And it will surprise you to know that the net cost is the merest fraction of a cent per slice. Also that it makes toast faster than the average family can eat it.

Entirely aside from these vital features—utility, speed and economy—there is a genuine charm in operating the Electric Toaster. The soothing glow of the coils on a neat porcelain base creates a snug and cheerful atmosphere. The Electric Radiant Toaster is a unique ornament wherever it is used—on the finest polished table, or on the finest damask table cloth.

CIRCULATING MONEY

WHEN we advise you to circulate your money we don't mean to urge you to spend it, but to put it into circulation through the bank. That is in reality a duty you owe yourself and the community at large, for it is money in circulation that enables business life to go forward.

When you deposit your money in the bank the bank does not let it lay idle by any means, but sets it to work promptly. Thus through the bank your money is helping along the general prosperity, while at the same time you are not parting with your money at all, but are simply putting it where it will be kept safer for you than you could keep it yourself.

For your own interest and also that of the community, you ought to become a regular bank depositor.
