TEXAS DRIVES OUT MEXICAN REBELS

Governor Gives Revolutionists Two Days in Which to Depart From Laredo.

Austin, Tex.—"All revolutionists in the vicinity of Laredo must leave within 48 hours," reads a specific order from Governor Colquitt, of Texas, to Adjutant-General Hutchinson, who is at Laredo trying to cope with the situation there.

Federal authorities seized a quantity of ammunition and arms said to be a part of a store provided by persons who hoped to lead a revolt against the Madero government in Mexico.

Governor Colquitt has received a telegram from President Taft saying he had instructed Secretary Stimson to co-operate with the Texas governor in every way to stop the movement within this state.

This telegram came in response to a message to the President from Governor Colquitt in which he said he had information that there were 500 revolutionists in the vicinity of Laredo planning to divide into two attacking parties and begin the new Mexican revolution at Nuevo Laredo.

Governor Colquitt notified the President that he did not intend to have a repetition of the incident at El Paso, where Texas citizens were killed by flying bullets from the Mexican battles at Jaurez.

Appeal in Rate Cases Is Filed.
Washington.—Counsel for the government filed with the Commerce Court a writ of appeal in the transcontinental rate cases. The appeal is from the temporary injunctions granted by the Commerce Court in the cases involving the long and short haul provision of the law.

GENERAL DISTRUST ALLEGED
Baker Says Fear of Roads Is Bar to Big Fleet

Washington.—In his testimony before the Senate committee on interstate commerce, Bernard N. Baker, of Baltimore, attributed his failure to finance the Pacific Steamship Company, not to any direct and illegal influence of the railroads, but rather to a general fear that his company, if formed, would be crushed out by competition from steamship lines which transcontinental roads might build and operate at a loss for the specific purpose of wiping out injurious water competition through the Panama canal.

Mr. Baker testified that the Pacific Mail Steamship Company, owned by the Southern Pacific had not, in his judgment, been a money-maker, but had been maintained to protect the rail business of this corporation.

Oregon City Waterway Price Fixed.
Salem, Ore.—Members of the State Canal Commission reached the conclusion to recommend to Major McIndoe, of the United States Engineers, that the locks on the west side of the Willamette River, at Oregon City, be purchased at a compromise price of \$450,000.

FLOOD CUTS OFF SEATTLE'S WATER

Seattle.—Seattle's water supply cut off, the municipal light plant out of commission, railroad service demolished, bridges washed out, and valley towns and farms under water represent the damage done by the floods in Western Washington caused by heavy rains in the low lands and the sudden melting of six feet of snow in the Cascade Mountains.

The most serious aspect of the flood is the cutting off of Seattle's water supply, which is obtained from Cedar Lake, 35 miles east of here. A bridge 16 miles west of Moncton, that carried the pipe lines across Cedar River, was washed out when a deluge of water came over the power dam just above Moncton. The Seattle municipal power plant is situated at this point. The power plant was put out of commission by the washing away of the intake pipe that feeds the big turbines.

Wiley Fights Absinthe.
Washington.—Absinthe is an enemy which the pure food board is going to fight until it is banished from the United States, according to Dr. Wiley. It is a foe, he asserted, which as yet has not gripped the people of this country, "and we will try to keep it from getting any hold," he added.

SUPERINTENDENT IS AMBUSHED AT SALEM

Salem.—Shot at from the side of the road by an unidentified person, Dr. Frank E. Smith, superintendent of the State School of Feeble-Minded, had a narrow escape Sunday night as he started from the institution in his automobile for the city. The attack followed receipt of several threatening letters by the superintendent "from an anonymous source."

Since receiving the threatening letters, Dr. Smith has been in the habit of carrying a revolver, and had his weapon on the seat beside him. He fired three shots in the direction of the flash.

Hurrying to town he secured assistance. A .32-caliber revolver was found lying on the ground, where it had evidently been shot out of the hand of Dr. Smith's assailant. The night was so dark that further search for the fugitive was abandoned.

WRIT DENIED TO PACKERS

Government Interprets Decision as Meaning Trial Will Now Begin.

Chicago.—The government won another move in its fight to bring to trial nine indicted Chicago meat packers when Judge Kohlsaat, in the United States circuit court, quashed a writ of habeas corpus. Judge Kohlsaat, however, agreed to delay the entering of a formal order quashing the habeas corpus writs and remanding the nine packers to their surties. Lawyers for the packers obtained this delay after a sharp fight with the counsel for the government, who urged that the trial be begun Monday.

The decision means that after nine years of legal action the packers must go to trial, according to the interpretation of the government counsel. Attorneys for the packers, however, contend that their appeal to the supreme court will act as a stay to prevent immediate trial in the district court.

Tarring of Girl Is Told.
Lincoln Center, Kan.—While the young victim sat motionless, betraying not the least sign of a tear, Chester Anderson, a laborer, related to a jury the startling story of how ten men of Lincoln County, himself one of them, dragged Miss Mary Chamberlain, a school teacher, from a buggy and applied a coat of tar to her naked body.
