ELECTRIC CHRISTMAS GIFTS ARE POPULAR

They still possess that element of novelty dear to the American heart and thus solve the problem of giving Christmas gifts that are "different."

Imagine how pleased most men would be to receive an electric shaving cup or electric cigar lighter, instead of neckties, socks and handkerchiefs "as usual."

A tea kettle for grandmother, a samovar for Madam's five o'clock teas, a chafing dish for the college girl or bachelor maid, a disk stove for the bachelor, a flatiron or sewing machine motor for the practical housewife—all these novel and useful gifts will be appreciated by whoever receives them.

It should not be forgotten that these electric Christmas gifts are all useful gifts. Each of these devices is designed to do some one thing better than it can be done any other way, whether it is to percolate coffee, toast bread or furnish the power for running a sewing machine.

The line of electric Christmas gifts is so complete that in it will be found a suitable gift for every member of the family.
