

# LENTS IS GROWING BUSINESS IS GOOD

## READ AND BELIEVE

**W**HO says Business is dull. We think that it is good. Just stop and think of the many new houses that have been erected in our town the past 12 months. We know because we have furnished the Lumber for the most of them. Excuse us for making the following statement but the reason we furnished the Lumber is because we sell good Lumber, Good Roofing and Builders Hardware and also the Good Service we render and the Right Treatment we give the people.

Our individual sales have reached the 3,000 mark. We have grown from one of the smallest to one of the largest Lumber Yards in the district. No order too small for our best attention—none too large.
