The afterpart seemed to right itself and bobbed up and down. Its top was black with men and women who could not be taken off because there were not sufficient lifeboats and rafts. Another explosion came and then the great mass of steel sank down into the waters, raised again and then plunged forward to disappear forever.

Through all the harrowing scene eight heroic bandsmen had played constantly to allay a panic. When the Titanic finally plunged under the surface, these brave musicians were sending out the strains of "Nearer, My God to Thee," playing their own funeral dirge as they stood knee deep in water with their eyes fixed on the giant iceberg which towered above them like a great white monument.

Thirteen Boat-Loads Picked up Thirteen boat loads of passengers and crew were picked up by the Carpathia after a thrilling journey through the icy sea. Four hundred and ninety-five passengers and 210 of the crew were landed at New York. The number of dead probably never will be exactly determined, inasmuch ing her vacation and was accompanied Little Floyd Taylor is studying music report of Captain Rostron, of the Carpathia.
