## Sanitary Laundering

Second Ave. and Foster Road

J. G. McDOUGALL, Prop. LENTS, OREGON

Dear Madam:—

If you are interested in having your Laundry handled in a careful, painstaking manner by skilled help and under the most sanitary conditions, it will pay you to mail a postal card for our wagon to call.

Our plant is complete in every detail and we use great care in selecting and training our help.

Every possible safeguard is employed here to insure prompt service without detriment to the most delicate fabrics—and we are in position to handle everything in the laundry line—from the finest lace waist down to the regular family washing.

We use only pure soap and clear water—and wash all articles in an old fashion honest manner. No alkali or chemicals are allowed to come into our plant—and the ironing is handled with a view to preserving the texture of the collars, cuffs and shirts and to prevent rents and saw edges.

Our work is giving satisfaction to many of our neighbors—it will do the same for you.

A trial will convince you that we know our business thoroughly and you will find our prices reasonable, based upon high grade work and honest methods.

We will not attempt to compete with people who bleach the work white with chemicals that eat up the goods. Even though such work is done at a lower price, it will prove the most expensive in the end because honest laundry work at a fair price is much cheaper than new clothes.

Yours very truly,  
New Method Laundry
