FAIRVIEW

A special meeting of the city council was held last Saturday night to consider buying a site for a city park and playground. After considerable discussion on the part of the councilmen, also the visitors present, a vote was taken, the councilmen being unanimous in favor of buying the Stone park and the block adjoining it on the East and Attorney Hughes was instructed to prepare an ordinance whereby a special election will be held for voting upon the matter. The price asked for the property, which consists of two blocks, one being covered with a beautiful grove of firs and cedars, the other cleared, is \$4500. The city fathers think this is a good buy, and deem it advisable to secure such property while it is available at this reasonable figure.

At a meeting held here last Friday afternoon it was decided to form an association with a capital stock of \$20,000. S. A. Arata and J. W. A CORRECTION.

Last week the items appearing in The Herald from Troutdale, was one that gave account of the spelling contest in the primary grade. It stated that 40 pupils who participated in the contest two were perfect. A typographical error was made, making the number of those perfect 2 instead of 20. The Herald gladly makes the correction.

The Demons of The Swamp are mosquitos. As they sting they put deadly malaria germs in the blood. Then follow the icy chills and the fires of fever. The appetite flies and the strength fails; also malaria often paves the way for deadly typhoid. But Electric Bitters kill and cast out the malaria germs from the blood; give you a fine appetite and renew your strength. "After long suffering," wrote Wm. Fretwell, of Luca-ma, N. C., "three bottles drove all the malaria from my system, and I've had good health ever since." Best for all stomach, liver and kidney ills. 50 cts. at all dealers.

REBELS PROCLAIM GOMEZ PRESIDENT

El Paso, Tex.—Emilio Vasquez Gomez, a Mexican lawyer, was ordained provisional president of Mexico by proclamation of General Pascual Orozco, now at the front with the rebel troops, threatening the federal base at Torreon. Juarez now is the provisional capital, but this probably will be shifted to Chihuahua.

The appointment—for in all essentials that is what it amounts to—of the provisional president, it is commonly understood, will interfere in no wise with the administration of the affairs of the states of northern Mexico by General Orozco and by Gonzalo Enrile at Chihuahua.

The inauguration of the new provisional chief executive was without display and was determined upon, it is said, chiefly for what effect it might have upon the United States.

Children Crushed by Falling Walls Toronto, Ont.—Three persons were killed, one is missing and more than a dozen were seriously injured when the walls of the William Neilson company's five-story building collapsed, precipitating a large number of men, women and children to the basement and burying them in a tangled mass of debris and machinery.

Prison Physician is Ousted by West. Salem, Or.—Not only did Governor West definitely discharge Superintendent James from the head of the state penitentiary, but he once more swung the political ax by discharging Dr. Byrd as penitentiary physician. This latest innovation is promised to be followed up by others which may be announced within the next few days.

MISSISSIPPI RIVER IS STEADILY RISING

Governor Orders Militia Officers to Compel Negroes to Work on Levees.

New Orleans.—Large sections of 15 Louisiana parishes west of the Mississippi river are under water, four other parishes have some flood water and are bound to get more.

Thirty persons were drowned in Coupee parish when a flood of water from a break in the levee rushed suddenly into the district. Survivors reported that 12 bodies had been recovered and declared the death list probably would total 50.

Approximately 100,000 persons have been driven from their homes and about a dozen lives have been lost. Refugees are sheltered in cabins, churches and lodge buildings.

Urgent appeals for boats to be used in rescue work have been sent to Governor Sanders.

There are at least 1000 persons who remain to be rescued from the inundated country west of Letsworth and Batchelor. Some of them are drifting about on hastily constructed rafts.

Millions of dollars' worth of property is at stake, and thousands of lives would be jeopardized if some of the big levees gave way.

Lack of labor, due largely to the unconcern of the negroes, who have been drawing government rations, has been a most serious drawback. Governor Sanders has ordered the Louisiana militia to round up 500 negroes and compel them to do work on the levees. Nearly all the negroes refuse to work as long as they draw government rations.
