Foggy of Valpariso, Ind., an old friend of the writer dropped in one day last week on a tour of inspection of the county with a view of locating in the Golden West, as he is completely disgusted with the horrible weather that prevailed there last winter and extended far into the spring. Oats are not all sown there yet and corn planting season is at hand.

Wisely Skookum is in a fever of excitement. He is trying to locate his successful competitor Mr. Williams who, he says will have to be found pretty soon or he will be the high man on the Republican ticket for County Recorder. While in Oregon City lately some one told him that Williams was in Frisco and another person told him Williams was in San Francisco Co. whereupon Wisely laboriously sent two messages to the Chief of Police of the two supposed different cities with instructions to find said Williams. Another party told him to put up a wireless station at his home and send dispatches all over the world to find Williams, at which scheme Skookum is now at work. Oh, you cant lose Wisely!

While over at Logan lately the writer visited the farm of Joseph Kerchner one mile east of Logan and saw two fine herd of deer, seven in number, consisting of two fawn about one week old. This man is an old pioneer having lived all his life on the same place. He says the county debt under Republican misrule is mounting higher and higher each year and is now over \$100,000 while taxes are going up by leaps and bounds. It's a long lane that has no turn.

There is over 1000 acres in one body along the Clackamas river towards Eagle Creek that is held by a Portland speculator at \$100 an acre. This is a fine body of land and is held out of use by a greedy boy or man while hundreds of people are without homes.

The "Wild Man from Borneo" or the wilds of Africa is swathing them with a "big stick" right and left. The big man at the White House wont have a look in at Chicago next month. It seems impossible to stop a cyclone. Some more strenuous life ahead of us? or looks like it.

The Japanese Counsel and his wife were guests for an afternoon. Every thing was prepared on a magnificent scale. A large refreshment tent was provided. The tables groaned with goodies and handsome gifts for the young couple. Games, pleasant chats, and a bounteous luncheon were features of the day which was one long stretch of pleasure to the young people and their parents. The future plans of Miss Leer are unknown, and all would have been pleased had she wished to engage for another term, but where ever she goes the good wishes of patrons and pupils will attend her. Beloved by her scholars and respected by all those who have known her, her work and its success will be long remembered by us all.

The class colors were white and purple and the class flower white carnation. The decorations were very pretty and the graduates were almost buried in flowers. The closing scene was a tableau of the graduates and their teacher with the flowers which made a beautiful picture, but was completely spoiled and the audience were panic stricken when some paper caught fire from the burning powder.
