## URGES GREATER INTEREST IN SCHOOLS

Salem, Oregon, June 7, 1912.  
To the Patrons of Oregon Schools:—We do not attach sufficient importance to our annual school meeting. This year our annual meeting occurs June 17. On this day one director and one clerk are to be elected in every school district in Oregon, a matter of much importance to each community. I should be very glad, indeed, to find that many of the Oregon school districts were making the day of the annual school meeting an important occasion, and at the same time taking advantage of being together to talk over the problems of the schools.  
The voting for director and clerk will take place at the school house. It should be remembered that women already have the privilege of suffrage in school elections. If all the women of the community will pack their lunch baskets, and assemble at the school house on the morning of June 17, I am confident that the men will be there also when the sun reaches the meridian. Of course, the members of the family under voting age will have to have dinner. So all will spend our lunch under some pleasant shade, and enjoy dinner together.  
After a good dinner all will be in the right frame of mind for selecting the officers, and discussing school affairs. The patrons will have this opportunity to investigate the conditions of the school house and grounds, and see what repairs are needed; whether the school house is properly heated, lighted and ventilated, and what books and pictures are most needed. Let us make June 17 a red letter day for our district!  
Yours for better schools,  
L. E. ALDERMAN,  
Supt. Public Instruction.

The three gentlemen had not met for many years and that the meeting was one of extreme pleasure to all is expressing it mildly.

## MILK STEALING BECOMES POPULAR

### Milk Being Stolen From Many Citizens—Numerous Arrests Have Been Made With No Results.

Milk stealing has become a popular fashion in Lents, or rather a popular and an unheeded crime. Numerous people are complaining to the authorities that parties have been helping themselves to milk belonging to others for several weeks. In most instances the milk is delivered and left at the door of the residences, or upon the porches, and it is from these places that the depredations are being committed. From all reports the stealing is being carried on with a high hand and more than a dozen families have been the victims.  
About two weeks ago Night Officer Fish arrested a boy that he caught in the act and the lad was held to appear before the judge of the Juvenile Court. It is said that before the day of hearing the boy was not to be found, and is now reported as being in Washington with his father. The latter part of last week the same officer arrested two other boys for the same offense, with no results up to the present time. The names of the boys are withheld owing to respect for the parents. But the neglecting of matters of this kind is not showing a proper respect or regard for those who are made the victims of the continued and wholesale thieving.  
Many Lents citizens are growing indignant over the matter, and state that unless the proper officials and authorities take necessary steps to stop the practice and hand out due justice they will take a personal hand in the matter. They are unable to see where any results are to be obtained by the simple arrests of the boys without giving the proper punishment. One citizen states that even though arrests are made by the wholesale nothing will be remedied unless the other branch of the law gives proper justice and punishment in the matter.  
It is evident that someone is negligent of duty. When an officer makes three arrests for the same offense, catching his victims committing the deed, something more should be done. A practice of this kind is not only an injustice to the people of Lents, but it is wrong to those who are addicted to the habit and to the rising generation. If crime is to be stopped it must be abated and punishment given to those who commit the wrong deeds. The Night Officer has done his part and it is now up to some of the judges to perform their official duty. After arrests have been made for criminal deeds it is up to the other fellow to perform his part.
