# Fighting The Trusts

Here is a Plain Statement of Facts That is Worth Dollars to You

Six weeks ago we purchased a new and complete line of "Sincerity Shoes" sold by the Fithian-Barker Shoe Co. These shoes were placed on our shelves and sold for what we believed to be a reasonable price—allowing us a good profit. It so happened that a Lents competitor purchased the same line. Our competitor was given the Trust price and so were we, but, because we sold this line for a price less than the one maintained by the Fithian-Barker Co., our competitor reported the fact to the company with the result that the said company would accept no further orders from us. We tried to get the company to take back the line already on hand and had the shoes boxed ready for shipment, but they refused to do so. Now we are selling them at actual cost. This is the result of our attempt to save our customers on the price of Trust Made Shoes. This is one of the reasons for the high cost of living. Now in order to get rid of this entire line we are going to offer the public
