DELIGIOUS DRINK

OREGON AGRICULTURAL COL-Mrs. F. R. Peterson and young daugh- The shawl made by one of the in- LFGE, Corvallis, Ore., July 13-Prof. C. I. Lewis of the Oregon Agricultural berry, has an excellent method of prethrough the winter.

> "Loganberries make a most delightful beverage, "says Prof. Lewis. "To prepare the juice, put the berries on the stove with just enough water to keep the fruit from scorching. Heat slowly, mixing and crushing occasionally with a large spoon. Be sure not to allow the berries to boil; 180 degrees would be, probably, as much heat as reces ary. After the berries have softened, put them in an ordinary cloth bag and drain out the juice. The process can be much simplified by a small fruit press. "In choosing the berries try to get

SPRAYING FOR SCALE INSCECTS

OREGON AGRICULTURAL COL-LEGE, Corvallis, Ore., July 13-Farm-Prof. A. F. Herschner made a trip to ers and fruit growers troubled by scale are advised by A. L. Lovett, assistant Miss Adams, of Toledo, Ohio, is visit- entomologist at the Oregon Agricultural ing in this city at the home of her sister | College to spray with lime-sulphur, kerosene emulsion, and whale oil soap, as

"For scale insects of such a type as benfit of the Volunteer Fire Department. the San Jose, use the lime-sulphur spray of winter strength, "says Mr. Lovett. "For the soft scales, such as occur on the blackberry, prune and Letters remaining, uncalled for in the plum, use the kerosene emulsion or Lents Postoffice week ending July 6, or whale oil soap. Kerosene emulsion is prepared as follows: Heat a gallon Anderson J. E.; Carlson Mrs. Belle; of water (soft if possible) to boiling; soap is Remove forcing the solution through the hose kirk Kenyon; Van Clair E. R. 260 and back into the container. For use in the dormant season this should be Olivia: Cook Mrs. Maggie; Carter J. C.; pound of whale oil soap to four gallons of water may be used as a summer spray for soft scale. "For plant lice on roses and garden truck crops any of the tobacco solutions may be used. For plants having a slick foliage, or where the aphids are especially bad, there should be added a pound of fish oil soap dissolved in a gallon of hot water to each eight gallons of the spray. "On fruit trees, as the apple and peach, the spray used in early spring when the buds are starting should be a combination of winter strength limesulphur and "Black Leaf 40", using one part of the Black Lesf to 800 of solution. "Pardon me, Sir Henry, but I wish If applied ordinarily the aphids do not become especially bad. Where the trouble is severe the tobacco solution should be used."

Portland,

TO THE PUBLIC

Having disp sed of all my interests in the E. W. Miller Lumber Co. and having delivered possession thereof to Bert Wilberg, a former resident of Twin Falls, Idaho, I desire, through the columns of The Herald to extend my heartiest thanks to the residents of Lents and the Mt. Scott district for their liberal patronage and support accorded during the history of the firm and during the time thank you and assure you of my appreciation, but desire to recommend my successor as being a man of long experience in the lumber business and a man of good business judgement and fairness. I ask and trust that all my patrons, and all others, will give him a liberal patronage and the same support Quench your thirst with an Electric that I have been accorded, assuring you Milk Shake. Lambert & Thompson. that only courteous treatment will be tf. accorded you by him. Wishing my successor, all former patrons and my B 2569 friends success I beg to remain,

> Sincerely Yours, E. W. MILLER.
