BREEZY ITEMS CONTRIBUTED BY HERALD REPORTERS AT NEARBY POINTS

### DOVER

Mr. Uptgrave presented his family  
with a nice new canopy top back.

Mr. Vanetta has bought a new cream  
separator and is selling cream to the  
Mt. Hood creamery Co.

Gramvill Cooper spent a few days in  
the mountains with his brother, Yano,  
the past week.

Miss Alice Berghouse was in Dover,  
Sunday.

evening for Vancouver.

J. G. DeShazer and family were visit-  
ing Jos. DeShazers Sunday.

Mr. and Mrs. Augustine Miller ex-  
pect to leave for Iowa in the near future.

The farmers are busy cutting and  
stacking grain.

### WEST SECTION LINE

Grandpa F. Moll left for Wisconsin  
on Tuesday last to visit relatives and  
old time friends. His many friends  
here wish for him a pleasant journey and  
a safe return.

Roy Buckley, after a months visit at  
home, left for Yamhill county to build  
a barn on his new farm. He was ac-  
companied by Master Coe Dunland who  
expects to put in many pleasant hours in  
the creeks there in the Grand Ronde  
Reservation famous for its trout fishing  
and picturesque scenery.

Arthur Chase, who was injured in an  
automobile accident some weeks ago, is  
able to be around.

Daniel Lynch is still at the Hospital  
but is reported better. He is out in a  
wheel chair.

Lots of potatoes about here but many  
have responded to second growth and  
are knotty.

Buckly Ave. is "going some" in its  
nice hard surface dressing. Mr. Kepka  
need not take a back seat when it comes  
to road building.

Most of the grain is out here in our  
burg and hay baled and cared for. If  
any of us have reason to fear the effects  
of the Presidential year there is a big  
crop of cabbage to keep the wolf from  
the door.

The old Seven Mile house has taken  
on a new name. It is "The Portland  
Gun Club."

### CHERRYVILLE

Rain in August.

The unexpected has happened.  
In spite of rain and somewhat cool  
weather the autos and campers abound.

W. H. Houser, a prominent business  
man of Portland, was here Sunday in  
company with his wife, in their auto.  
In a conversation Mr. Houser said he  
had always been a Republican but this  
year he would vote for Wilson as Taft is  
simply impossible and Teddy is to dom-  
ineering and backed by the steel trust.

Vincent Friel returned home last week  
from near Lewiston, Idaho, where he  
had been engaged in the wheat harvest.  
Vincent met with an accident while  
working around the machine which  
compelled his return.

John Walsh and family have moved  
into the house a mile west of Cherryville  
and will probably remain there all win-  
ter.

Work is progressing rapidly at the  
dam as active work is in progress on a  
coffer-dam at the new dam-site where a  
big force of men are at work. Over  
90,000 feet of lumber will be used in the  
construction of this immense structure.  
The canal, over one mile in length, from  
Camp No. 5 is now being laid in cement,  
both sides and the bottom. This is a  
tremendous task.

A. B. Brooke and three other settlers  
in the "3-6" country which is a big  
green timber proposition, have sold their  
claims or rather optioned them for two  
years, with a proviso that if not destroyed  
by fire in the interim the sale will  
be consummated at that time.

Dr. Jayne has sold his ranch on the  
hill consisting of 40 acres to a Mr. Wat-  
kins of Detroit, Mich. This gentleman  
will take possession about Oct. 1st.

Miss Lillian B. Averill has been en-  
gaged to teach the school at Cherryville  
the ensuing year.

Ben Selling has finally been smoked  
out. There was no question from the  
start where men of his kidney would be  
found in the final "round up." Selling  
will have to keep on "selling sheep  
clothing" as Dr. Lane is the next U. S.  
Senator from Oregon without a doubt.

In the last letter from Cherryville,  
the writer stated that Ira Flynn would  
run the Douglas ranch another year. It  
appears we were misinformed as Sam  
Mills is the one who will run the ranch.  
Mr. Flynn will work down at the dam.  
Dr. Boyed preached to a large and

appreciative congregation last Sunday in  
the M. E. Church here. The main  
point developed was the depths to which  
humanity can descend in the human ex-  
istence and the heights which they can  
attain by effort and earnest endeavor.  
Some, however, the Dr. stated, seemed  
to travel along a level plain of mediocrity  
never doing anything either good or  
evil.

ing his sister, Mrs. Buehke, at Camp  
Rusty.

to attend the wedding of his daughter,  
Miss Alice Boyle, to Oscar Johns.

## GERM PROBLEMS ON THE FARM

Oregon Agricultural College, Cor-  
vallis, Or., July 6.—"Teach your pupils  
at school to try to inculcate the doc-  
trine at home that dirt means filth,  
and filth means abnormal kinds of  
germs," said Prof. T. D. Beckwith,  
head of the bacteriology department  
at the Oregon Agricultural College,  
in an address before the teachers in  
the summer session classes.

Germs which cause milk to sour,  
bacteria which dispose of filth and  
aid in making fertile soil, and mi-  
crobes which cause disease were  
shown through a powerful microscope  
magnifying 1,400,000 times, and the  
professor explained their action on  
food and soil. The bacteria which  
cause the souring of milk were shown,  
15,000 of which placed in a line make  
just an inch.

"Germs are alive. It is safe to say  
the ordinary human being voids thirty-  
three million million germs a day,  
most of them by way of the feces,"  
said Prof. Beckwith. "Since a cow is  
so much larger, how much greater  
a number of germs it throws off each  
day."

"What do you think of the farmer  
who keeps his cow in a dark, muddy,  
wet stable dripping with manure, or  
in summer in the dry season allows  
her to accumulate an armor of ma-  
nure? Every bit of that filth is full  
of germs which, if they get into the  
milk, produce abnormal changes, some  
of them breeding disease."

"The farmer sits down under such  
a cow, without cleaning it, and milks  
into a wide-mouthed pail into which  
at every motion and every breath of  
air, there drop particles containing  
germs. Each germ makes two every  
twenty minutes—that is, they multi-  
ply to eight times their number ev-  
ery hour at ordinary temperatures.  
You can see what it means to allow  
the milk to cool slowly instead of  
cooling it artificially at once."

"If children drink milk from un-  
tested cows which have bovine tuber-  
culosis, the germs do not pass out,  
but remain in the body, and by slow  
change in twenty or twenty-five years  
become human tuberculosis. All dairy  
animals should be tested, so that we  
may know that there is no tubercu-  
losis. You teachers can do a great  
deal by teaching your pupils the im-  
portance of these things."

### SANDY

Sunday was an ideal day for auto-  
mobiling and motorcycling and many  
passed through here on their way to  
Mt. Hood. The late rains settled the  
dust and the roads are in excellent con-  
dition. Smith Brothers here were busy  
most of the forenoon welding auto  
springs and repairing other minor  
breaks, but no serious accidents were  
reported.

The first dance given by the band  
was held last Saturday night in Shelly's  
new hall. About 90 tickets were sold  
The band will give the next dance in  
two weeks.

Mrs. M. J. Wheeler, of Canby, spent  
the week with her niece, Mrs. Robert  
Smith.

Mrs. Jasper Junker and four children  
have spent a few days at Welches.

O. Dalgren has traded his confection-  
ery store here for a farm at Washougal,  
Wash. He, with his family, will move  
there soon, while Mr. Mills, the new  
owner, will take charge of the confection-  
ery store here.

Rev. Dr. Boyd, of the First Presby-  
terian Church of Portland, spoke at the  
Cherryville church Sunday before a  
large audience. Several Sandy people  
were in attendance.

Last week burglars entered the home  
of Guy Talmage and took his watch  
and some money. Several other houses  
have been visited since then, but no  
valuables were taken.

Harry Woods has moved here from  
Gresham with his family.

### Flying Men Fall

victims to stomach, liver and kidney  
troubles just like other people, with like  
results in loss of appetite, backache, ner-  
vousness, headache, and tired, listless,  
run-down feeling. But there's no need  
to feel like that as T. D. Peebles, Henry,  
Tenn., proved. "Six bottles of Electric  
Bitters" he writes, "did more to give me  
new strength and good appetite than all  
other stomach remedies I used." So they  
help everybody. Its folly to suffer when  
this great remedy will help you from  
the first dose. Try it. Only 50 cents at  
All Dealers.

Sallow complexion comes from bil-  
ious impurities in the blood and the  
fault lies with the liver and bowels—  
they are torpid. The medicine that gives

is a fine liver stimulant and bowel regu-  
lator. Price 50c. Sold by Lents Phar-
