LEGEND OF JERUSALEM.

Charity of Two Brothers Led to the Founding of the Temple.

Once, so runs the legend, there lived in far Judaea hills two affectionate brothers tilling a common farm together. One had a wife and a household of children; the other was a lonely man. One night in the harvest time the older brother said to his wife: "My brother is a lonely man. I will go out and move some of the sheaves from my side of the field over on his so that when he sees them in the morning his heart will be cheered by the abundance." And he did.

That same night the other brother said to his workmen: "My brother has a household and many mouths to fill. I am alone and do not need all this wealth. I will go and move some of my sheaves over on his field so that he shall rejoice in the morning when he sees how great is his store." And he did.

And they did it that night and the next in the sheltering dark. But on the third night the moon came out as they met face to face, each with his arms filled with sheaves. On that spot, says the legend, was built the temple of Jerusalem, for it was esteemed that there earth came nearest heaven.—Outlook.

Discount For Rent.

When the bachelor maid wrote a check for her rent she looked thoughtful. "What is the matter?" asked her mother. "I am wondering why tenants do not get a discount for cash in ten days. Merchants do. The usual rule in business is a discount of 5 per cent for cash in ten days. New York tenants, on the contrary, are asked to pay their rent thirty days in advance of the time it really is due, and such a thing as a discount never has been heard of so far as I know. Merchants do not pay for goods until they receive them, but we tenants are expected to pay for something we have not had and may never have if, for instance, the premises should burn. I am not much of a political economist. I wonder if some statesman could explain the situation to me—I mean an explanation that would really explain."—New York Press.
