CONVENIENT IN SEWING ROOM
Handy Apron Will Save Time for the Woman Who Has Much of This Work to Do.

A very convenient apron to don when in the sewing room is made of white lawn and white dotted swiss. This is cut 18 inches long and 27 inches wide. The swiss is placed over the lawn and both cut rounding on the lower edge. About nine inches from this edge the swiss is cut away in a sweeping curve toward the waist line and the edges are bound with narrow bias bands of lawn or narrow satin ribbon in some pretty light shade. This forms two openings like pockets, for the upper part of the swiss is caught into the waistband with the lawn; this band, by the way, may be of ribbon matching that which binds the apron. In this deep pocket can be slipped the spools of thread, scissors and pieces of material on which you are working. It solves the problem of sewing on the porch, for in it are held all the necessary materials, and it can be taken off and folded with the work inside, if you wish to discontinue your sewing for a little while.

Proud of Title of "Bulldog."
It has been said of Prince Leopold of Anhalt-Dessau, one of Frederick the Great's most able generals, "In everything a soldier and an oddity, he was a prince in nothing, save in his love of power." His soldiers called him the "bulldog." He liked the name, for it set forth the traits on which he prided himself—tenacity, courage and toughness.

Take Time for Breakfast.
Common sense indicates that breakfast should be a substantial meal, enough time should be allowed to eat the morning meal at leisure and enjoy it. The manner in which some people gobble down their breakfast is becoming only to an ostrich. It is one of the great reasons for the existence of what is sometimes called "American dyspepsia."

The Coughs of Children
They may not cough today, but what about tomorrow? Better be prepared for it when it comes. Ask your doctor about keeping Ayer's Cherry Pectoral in the house. Then when the hard cold or cough first appears you have a doctor's medicine at hand. This cough medicine is especially good for children. No anodynes. No alcohol.
Many a child is called dull and stupid when the whole trouble is due to a lazy liver. We firmly believe your own doctor will tell you that an occasional dose of Ayer's Pills, sugar-coated, will do such children a great deal of good. Ask him.

NEAT BARN FOR SMALL FARM
Driveway Makes Convenient Storage for Wagons and Other Implements—Warm in Winter.

This barn should be built for \$450, especially where a man is so situated as can do most of the teaming at odd times. In size, it is 24 by 28 feet, and

the driveway during the greater part of the year makes a convenient storage for wagons and farm implements. As the distance is not too great to back out with an empty wagon, there are doors at only one end of the driveway. This should make the barn warmer in winter, writes W. A. Radford in the Farmer's Mail and

Breeze. A space is left over the driveway for putting hay up into the mow overhead. This mow is capable of holding 15 or 20 tons of hay.

PROPER FEED FOR THE COLT
Something More Than Mere Filling Is Required by Young Animal—Don't Use the Whip.

(By MAY PEINTNER)
A young and growing animal requires something more than mere filling. It must have nutritious and tissue-building, blood-making food. It is much easier and cheaper to put two years' growth on a colt the first year of its age than it is to "make up" for a year's loss of growth in two or three years. A good growth the first year of a colt's life costs less than at any other age and is twice as valuable to the breeder—a fact that is too often ignored. Spare the feed and spoil the colt is surely true. In training the colt do not use the whip simply because you have it. It is a very poor driver who makes a blow the starting signal. See that there is feed and water in abundance and a clean, dry bed.
Don't neglect the shoeing; it is vital on slippery roads or pavements; nor the blanket in cold weather, when the colt is standing out. Don't overload nor let the colt stand in the sun, nor where water drops on him. We believe that down in the heart of every man is some kindness and sense of justice.

To Avoid the Runtly Pig.
Runtly pigs stand a poor show at the feeding trough with a bunch of their husky brothers and sisters. As they are crowded out of place naturally they do not get enough to eat to keep them growing and they stay runtly.
A trough arranged with V-shaped partitions set strongly in the trough, would give the little fellows an equal show with the big ones, and the weaker ones could get their share of food. A handy man can make such a trough arrangement in an hour or so, and the even growth of his pigs would more than pay for his trouble.

Breaking the Colt.
The earlier the colt is made used to the harness, the better broken the animal will be when it comes time for him to do some light work. It is easier to keep colts from learning bad tricks than to break them of such habits. For that reason have every strap and rope used by the colts so strong that there is no danger of a break. Once a colt finds out that he can get away from a halter or other parts of the harness there will be trouble, perhaps for all time.
Eliminates Hard Work.
The hardest work any farm horse ever performed was to furnish power for the old-fashioned horse-killing threshing machine. The gasoline engine has stopped that species of cruelty.

Value of Good Halters.
It is cheaper to buy good halters than to pay the damages resulting from a runaway.

Bracelet Watch.
To travel without having a timepiece in a place where it may readily be consulted, is generally acknowledged to be so great a nuisance, that nearly every woman or girl who is contemplating a journey of any extent, is providing herself with a bracelet watch to be worn on the left arm between the wrist and the elbow. This timepiece may be as expensive as the prospective traveler can afford. It may be of solid gold or silver; the mechanism of Swiss workmanship imbedded upon a bracelet formed of a band of metal or of a succession of links. Or it may be of enameled metal, of gun or of plated silver. Eminent practical bracelet timepieces outfits show the watch works imbedded in a pigskin, sealskin or morocco half-case that is cut in one with a broad band fastening at the under side of the forearm with a small buckle of the trunk type.

Lack of Proper Courtesy.
There used to be a time, not so very long ago, when if one borrowed anything from a book to a shoe lace one was expected to return it promptly and in good condition. With our younger set one may consider it a miracle if one gets anything back under six months if at all. "I forgot," or "I lost it," seem to be the all apology that many young girls deem necessary.—Exchange.

WOMEN SHOULD BE PROTECTED
Against So Many Surgical Operations. How Mrs. Bethune and Mrs. Moore Escaped.
Sikeston, Mo.—"For seven years I suffered everything. I was in bed for four or five days a time every month, and so weak I could hardly walk. I cramped and had headache, and was so nervous and weak that I dreaded to see anyone or have anyone move in the room. The doctors gave me medicine to ease me at those times, and said that I ought to have an operation. I would not listen to that, and when a friend of my husband told him about Lydia E. Pinkham's Vegetable Compound and what it had done for his wife, I was willing to take it. Now I look the picture of health and feel like it, too. I can do my own housework, hoe my garden, and milk a cow. I can entertain company and enjoy them. I can visit when I choose, and walk as far as any ordinary woman, any day in the month. I wish I could talk to every suffering woman and girl."—Mrs. DEMA BETHUNE, Sikeston, Mo.
Murrayville, Ill.—"I have taken Lydia E. Pinkham's Vegetable Compound for a very bad case of female trouble and it made me a well woman. My health was all broken down, the doctors said I must have an operation, and I was ready to go to the hospital, but I was so that I began taking your Compound. I got along so well that I gave up the doctors and was saved from the operation."—Mrs. CHARLES MOORE, R. R. No. 3, Murrayville, Ill.

Personal Investigation.
An old woman walked into a bank in Inverness, threw down her deposit-book, and said she wished to draw all her money. Having got it, she retired to a corner of the room and counted it. She then marched up to the teller, and exclaimed: "Ay, that'll doe, ma man; jist pit it back again. I only wanted to see if it was a'richt."—Dundee News.
No Maltese Cats in Malta.
There are a few of the so-called Maltese terriers in Malta, but they are not of pure blood, and the puppies which the street hawkers offer for sale to tourists are more or less mongrel, with a strain of the old breed. The Maltese cat does not exist in Malta; at least not one has been seen here of the color called Maltese in the United States.
