At a birthday party given recently at the home of his parents, Wm. A. Eatchel, Jr. Evergreen Park, to honor the second anniversary, Harry William Eatchel proved a very entertaining little host. OREGON TO BE AT LAND SHOWS

Excellent Display of State's Products Has Been Sent TO Minneapolis Land Show—Other Ore. Notes.

Portland, Or., Nov. 5, (Special)—Under the direction of the Oregon Immigration Commission a splendid exhibit of Oregon products has been sent to the land shows to be held at Minneapolis and Chicago. In gathering the exhibits, the commercial bodies holding membership in the Oregon Development League were of great assistance.

For the first time Oregon will have a good showing at these big land shows and the advertising value of such an exhibit will be very great. Visitors to the shows will see what Oregon can produce and there will be complete information about the state. A baggage car was filled with the products of fields, gardens and orchards, sent East, and the different products will cause Eastern people to wonder at the agricultural richness of this state.

Capturing more than 20 prizes at the Dry Farming Congress at Lethbridge, Alberta, Tillman Reuter, wizard of this branch of agriculture, returned to his home at Madras the past week. Mr. Reuter upheld Oregon's fame at Lethbridge and did his part in helping the United States win its share of the prizes against sharp competition from Canadian farmers.

Every dairyman in Oregon will be interested in the forthcoming Pacific International Dairy Show, to be held in Portland Nov. 18-23. It is promised that the largest number of strictly dairy cattle ever shown west of St. Louis will be gathered here at that time. Cattle of high degree will be shown from many parts of the county and much fine stock will be put up for sale.

That Oregon is somewhat of a wool state is shown by the fact one sheep produced a fleece of 6-inch staple wool weighing 28 pounds, worth almost \$8.50. This fleece was grown in Morrow County and has been shipped back to the Eastern land shows as one part of Oregon's exhibit.

Final arrangements are being completed for the Pacific Northwest Land Products show at Portland, November 18-23. So wide is the interest in this show that all the exhibit space in the main building has been engaged and part of Machinery Hall, an annex, is now being apportioned between the late entries. Everything indicates the affair will be a great success.

Astoria business men have arranged a special excursion to The Dalles November 15 to inspect the progress of the work on the Celilo Canal. Operations are now in full blast and the trip is made at the special invitation of the engineers of the canal. The Astorians are in favor of an open river and propose to show their interest by this trip.

Fish planted in Oregon streams this year numbered 7,247,546, a very large increase over additions to the finny tribe of any former year in the state's history. Salmon, trout, bass, croppies, cutfish, etc., were the fish liberated.
