COLUMBIA HEIGHTS.

Mrs. George Knieriem, who has been on the sick list of late is now reported to be improving.

E. E. Quay has been sacking potatoes for shipment during the past week while most of the farmers haven't been able to dig on account of rain.

We understand Mr. A. Dehaven is going to install a feed mill which will be very convenient for the neighbors.

Most of the people in this neighborhood have been snowed under ever since election and haven't been able to dig out.

Mrs. G. Lusted visited relatives and friends in Portland several days last week.

E. D. Hamilton was in Portland last week on business.

CHERRYVILLE

Joe Wall up near Salmon River near the school house shot a big black bear lately that weighed 300 pounds. This bear was very fat and nearly 20 gallons of bear grease was obtained from this carcass. The dog-treed him back of Mr. Walls house on the mountain.

An Austrian was blown to pieces over near Camp Five one day last week. It appears he ventured too near the dynamite shack with a gun and it is supposed discharged it either at the shack or at a bird or small animal and this caused an explosion. Nothing but one foot and a part of a suspender was ever found of the unfortunate man. This shack is some distance from the camp and warnings are put up about fire-arms and lighting a fire near the building.

The Cherryville Commercial Club gave a benefit box social and hop at the hotel and store last Saturday night which was quite well attended. Music was furnished by N. A. Stone, Chas. W. Harris and Frank Rhodes. The festivities were extended until the "wee sma hours."

Chas. W. Harris sold a coming five year old steer for \$85 lately to a Sandy butcher. This steer got his growth and fine condition on the ranges almost entirely. Now then some everlasting fools and silly fat heads want to prohibit the cattle from running at large thus de-

priving many ranchers from making a living in these wild hills and narrow valleys. There are thousands of acres here going to waste some of it that never anything visits but deer and bear. Stock do well on this wild pasture as no flies bothers them and rich browse and some wild grass abounds everywhere.

Now then the women have a chance to vote. Good! and Oregon steps in line with California and Washington and other mountain states. This denigrating a woman the right to vote in free America is nothing but a relic of barbarism, as the time was when a woman was overtaken in a fault she was stoned to death while the far more guilty co-responder was never punished in the least. All savage and ignorant races serve their people the same way. The writer has seen Indian women with the end of their noses cut off for unfaithfulness while the far more guilty man was never touched.

Some of the old Oregonians are predicting a very fine December as they say this dreary wet spell will stop before Thanksgiving. We live in hope if we drown in despair.

Well old Ohio, the exceedingly "safe and sane" old conservative state has adopted a new constitution. Will wonders never cease?

WOODMERE

A dancing party will be given Nov. 27th by the young people of St. Pauls Club at the Woodmere Hall. Invitations will be out within a few days.

Tickets also are being sold by members to their friends in order to give any one who do not care to attend the party a chance to assist the Club in its winter work. Mrs. Geo. W. VanWaters, Mrs. O. W. Taylor and the ladies of the Guild will act as patronesses. St. Pauls Church bazaar will be held Dec. 3. Miss Johnson will be in charge of the candy booth. She will be assisted by Miss Della Puddin, Miss Florence Taylor, Miss Thompson and Miss Vera Tibbles, Miss Brong will preside at the tea table. Refreshments will be served in the evening. A real fortune teller will disclose the future for anyone for 10 cents.

Woodmere did herself proud on suffrage. Yes 111, No. 37, three to one in favor. Fifteen expressed no opinion.

Mr. A. W. Powers is suffering from an attack of rheumatism.

Mrs. Curtis is spending the winter in California with her daughter. Her son is occupying the Woodmere home.

Through the kindness of the rector Rev. O. W. Taylor, his parishioners received tickets to the course of lectures given by Bishop Scaduing at Grace Memorial parish house. The lectures are illustrated and are very instructive as well as entertaining.

Roy Powers has finished the addition to the Weston school. There is talk of changing the name of this school to the Woodmere school as the former name is easily confused with Creston.

COTTRELL.

The Multnomah Central R. R. Co. has their right-of-way almost cleared between Cottrell and Sandy. The grading will commence as soon as the weather clears up in the spring. Then the road will be completed as fast as possible.

Paul Dunn purchased a thoroughbred registered, Holstein bull 8 months old from Ernest Schindler of Gresham. If people keep on improving their stock we will have a better class of cows in a few years.

P. T. Dunn bought a good driving horse from Jess Radford.

Mr. Joe Hall & Sons has built a kitchen on Tom Dunn house also a woodshed and barn which is a great improvement to Mr. Dunn's farm also to the neighborhood.

PLEASANT HOME

Miss Minnie Shriner, was home to spend Sunday.

Mr. and Mrs. Markell visited friends in Portland Sunday.

The M. E. Ladies' Aid spent the day, Tuesday, with Mrs. Denny tacking comforters. The same society are planning for a fair to be held sometime before Xmas.

J. B. Kelly has a large force of men at work pruning his orchard and setting a holly hedge around his place, and various other work.

This is the dull season of the year and it is liable to be quiet for several months yet. See how many nickles you can put away for the rainy season in the spring.

Do you know just what you pay for everything you buy. Are you doing what you can to help reduce the high cost of living? Why not investigate all these matters and see if you cannot do better. If you pay 10 cents for an article that you can buy for 9 cents you are not saving what you should.

The Best Light At The Lowest Cost

ELECTRIC LIGHT is the most suitable for homes, offices, shops and other places needing light. Electricity can be used in any quantity, large or small, thereby furnishing any required amount of light. Furthermore, electric lamps can be located in any place, thus affording any desired distribution of light.

No other lamps possess these qualifications, therefore it is not surprising that electric lamps are rapidly replacing all others in modern establishments.
