### CHERRYVILLE

Let good will and good cheer abound! Try and forget that you have an enemy in the world on this Christmas week.

"In-as-much as ye did it unto the least of one of those, ye did it unto me." are the words of Him who spake as never man spake.

Dr. Botkin went to Portland last Saturday and will probably remain over Christmas.

Ray Murray and wife went to Portland last Wednesday and returned Saturday.

Will Allen and family came up to Cherryville on Sunday from Cottrell and will remain at their home on R. R. Avenue until after Christmas.

Chris Mensinger of Portland gave a fine Tom turkey that he raised on his ranch near here for a Christmas feast and the recipient treated it with more than loving kindness for some time previous to the appointed day of the feast, but the sagacious old bird after partaking freely of the choice feed given for a period of a month, and mistrusting that there would "be something doin'" around Christmas, took flight one early morning and despite that diligent search was made for him has not yet been found. He is probably hiding out somewhere in the brush until after the holiday season.

A. B. Brooke has returned to Cherryville for the holidays after three months absence at Hood River where he is developing a fruit ranch.

Will Allen and family, came back to Cherryville for the holidays and will remain at their home until the last of the week. Mr. Allen has a contract for delivering a lot of cord wood near Cottrell.

Quite a number of the Austrians at Camp Five and Six and also at Bull Run have gone back to Austria to "join the colors" on anticipation of a scrap with Servia.

Come to the banana belt!

Compliments of the season!

The right-of-way has been secured for the new railroad nearly all the way from Sandy to Welches so that the people of this vicinity have strong hopes of being in "the swim" in the not distant future.

The old year is rapidly drawing to a close. Pretty near time to swear off.

In a recent trip to the mountains, up to Mr. and Mrs. Ezra Truemans on the south side of the Sandy, near Bull Run Reserve, the writer was shown over the new projected road now partially completed up over the Cascades and it must be admitted that this new road is a complete surprise on account of the easy grade. This grade is barely 5 per cent and does not exceed this all of the way over the mountain. This is the best possible route over the Cascades up and down the entire length of the state. It requires but little discernment to foresee the day when this route will be utilized not only as an auto and scenic road over the mountains down into the world famous Hood River Valley but as an electric R. R. from Eastern Oregon into Portland. This road skirts Mt. Hood for more than 40 miles and commands a magnificent view of Mt. Hood the entire distance. The time is not far distant when this will be one of the most popular trips in the entire state both for autos and electric roads. People are now buying land near the Reserve for the purpose of getting in on the ground floor before the boom sets in.

A Mr. Totten, of Corvallis, and a former employee of the Forestry Department has taken up a claim on the Bull Run Reserve near Mr. Trumans with the expectation of getting it set off as agricultural land. It lays near the new road over the mountains and is all good land.

Pinchot, the great land conservator is writing letters to people in Oregon trying to get them to help keep the present Reserve intact and under charge of the National Government. "Nothing doin'" Oregon for Oregonians and all the vast tracts, R. R. grants, Military road grants, and Forest Reserves must be turned over to the state where they rightfully belong. Fully one-fourth of the state is now kept out of use and is greatly handicapped thereby.

The old Oregonian is terribly distressed over the report that Bryan is liable to be a member of the new Cabinet in the spring. A sincere patient worker for the common weal is rank poison to cold blooded, selfish greedy grabbing grafters everywhere. Every dog has his day and these tariff hogs, land thieves and corporations sharks, are out in the wet where they will stay the next four years.

Fred Bechel of Brightwood, is an old acquaintance of Senator Harry Lane of Portland and says there will sure be something "doin'" at Washington when he gets on the job. No mollycoddlers about him.

Ablaze with light and with walls highly decorated with Oregon grapes and Christmas bells. Buckley school was

the scene on Friday evening of a most enjoyable basket social and programme by the pupils of the school. With song, dialogues, and recitations the children entertained the large number of friends and neighbors gathered there. In sentiment and well drilled effort the program partook largely of Xmas and much credit is due Miss Kearns for her large share in the evenings entertainment. A pleasurable feature was the performance on the violin by Marie Chapman, niece of Mrs. Mooney, of Lents. She will soon graduate from St. Mary's academy of Portland and will soon after be taken to Europe to complete her education. A mere child, she bids fair to take her place in early womanhood with famous world musicians of the day. Henry Johnson played the role of auctioneer and sold the baskets to a good advantage. The proceeds, nearly \$17, will be added to that earned last year and used toward the purchase of a new organ.
