TREMONT HAS BOOSTER CLUB

Recently Organized Club Will Hold Open Meeting in Millard Ave. Presbyterian Church March 4.

W. J. Cummings, president; Geo. M. Morrison, vice president; F. E. Foat, treasurer; and G. E. Cameron, secretary; are officers of the Tremont, or 72 street Improvement Club. They are very enthusiastic in their work. They met Monday night in connection with the recently organized fire fighters and held a reorganization meeting. A constitution has been adopted and a large membership has been enrolled. Membership costs 25 cents a month and the liberality with which dues are paid proves the earnestness of the members.

One of the most important things so far accomplished by the company is the promoting of a local fire company and the erection of a very neat little meeting house or "fire house." The city has helped them to 500 feet of 4 inch hose, and cart, and a fire bell, and they have a promise of cooperation with the Kern Park department. The house was built by subscription, costing over \$100 in cash and the labor was donated. It is neatly plastered, electric lighted, bell tower attached. It will make a very convenient and practical neighborhood house and reflects great credit on the local spirit and pride.

They are planning some entertainments for this week and an open meeting to be held at Millard avenue Presbyterian church on the evening of March 4, when councilman Joy will address them on matters relative to car service.

The Fire department has elected officers as follows: Pres., R. M. Stearns; vice president, P. N. Strowbridge; secy., G. E. Cameron; Asst Secy., P. Wicks; Treas., J. H. Boake; Chief, Pete Wiser; Foreman, C. T. Linderman.

A dedication meeting will be held on Monday evening, March 3rd at 8 o'clock. The ladies are invited and a general social time is expected.

LENTS TO HAVE BASE BALL TEAM

Base ball enthusiasts met at the Lents Athletic Club rooms Monday evening and proceeded to outline their summer's program. The committee on ball park reported and it was decided to rent one several available pieces and fix up suitable stands and inclose it with a close fence. O. D. Forte, of 42nd and Beech streets, offered to finance the club until other arrangements could be made, or temporarily. He was chosen temporary captain. Arrangements will be started at once to line up a good string of players. It is thought that Johnnie Towser, formerly of Spokane, may be secured. A committee consisting of A. J. Boland, M. W. Webb and Fay Rayburn was appointed to look after finances. Wednesday evening, March 5th was selected as the date of the next meeting. Every body is invited, business men and all.

A short business meeting of the members of the Athletic Club will be held immediately following the ball-meeting. All members are urged to be present.

FUNERAL OF L. P. BROWN

L. P. Brown, of 7th Ave. and Rose St., passed away Sunday, and his funeral was held Monday. Mr. Brown formerly lived in Stayton, where he was a member of the Oddfellows. He was a draughtsman and had been ill for several months. The remains were interred at Stayton. He leaves a young wife and two small children who deserve the sympathy of the entire town. Their home is only partly paid for and friendly kindnesses will no doubt be welcome at this time.

Mr. G. Barnette left last Wednesday for Wasco, Oregon.

John Breshears and mother, who have been in San Francisco for a few weeks, arrived on the Rose City Friday.

Mr. and Mrs. C. G. Danielson, of Forest Grove, spent Sunday at the home of R. Wands, Elmo Heights.

A. W. Fankhauser, who has been visiting in Southern California the past three months is expected Friday evening.

LOYAL LEGION ENJOYS EVENING

Full House Greeted Musical and Literary Program Given by Juvenile Hosts Monday Evening.

A program of unusual merit was rendered on Monday evening under the auspices of the officers and members of the Loyal Legion of the M. E. church. The house was well filled and the program was pronounced a success by those who were entertained, and that was not a few, as the house was well filled. The following program was rendered:

Violin solo, The Old Oaken Bucket, Eugene Richardson; song, Victory; prayer; solo, Mrs. Daniels; address by president; Welcome, Beje Griffiths; "The Gentleman," Roscoe Stroud; "My Body is a Temple," Lois Sheets; "The Little Prohibitionist," Clyde Cox; song, "Temperance Soldiers"; "Jeremiah and His Pa," Lamont Dunbar; solo, "The Pledge"; "Since Papa Doesn't Drink," Luella Stroud; "A Treat from Tommy," Donald Davis; solo, "Right is Might," Bernice Brown; "A Little Girl's Plea," Myrtle Ott; "The Power of Example," Goethal Brady; song, "The Windmill"; "The Mouse and the Boy," Irene Hollenbeck; "Old Father Hubbard," Richard McGrew; cornet solo, Laurence Richardson; recitation, Ruth Russell; solo, Paul Daniels; recitation, Stella Wilson; song, "Are You Shingling the Rumseller's Roof?"; recitation, Merle Garret; collection—speech, Dora Dunbar.

BIRTHDAY PARTY.

Complementing Miss Esther Minsinger, of Portland, the occasion being her seventeenth birthday, Mrs. Samuel Mcastney entertained a few of her friends at her beautiful home on Everglade avenue on the 8th instant. Cards, music and pleasant chat followed by a delicious luncheon made the evening hours pass delightfully by. The young honor guest is a charming pianist and as is also Miss Lucille Kemp who gave splendid evidence of their talents on the key board. Those present were, Mr. and Mrs. S. Mcartney; Mr. and Mrs. Barnett; Mr. and Mrs. Amspiger; Mr. and Mrs. Shultz; and their daughters, Agnes and Eva, Miss Kemp, Miss Minsinger, and Messrs. Garnet Mcartney, Lionel Buckley and John Wadour.

FIREMAN FUNDS CONSUMED.

Not exactly burned up, but exhausted, are the funds of the local firemen's association. It has been some time since anything in the line of benefits were received. Any person wishing to contribute to the maintenance of the company may leave their donations with Secretary Hazen. An attempt will be made soon to get up a benefit of some kind for the company.

MOTORCYCLE PROVES ITSELF POPULAR AMONG CANDIDATES

This is a picture of a scene familiar to hundred of boys and girls throughout the country. The automobile business has grown by leaps and bounds. But it has not exceeded the growth in popularity of the motor cycle since it came into use. Besides the thousands that are being sold in every state for mere pleasure riding the motor cycle is coming to be recognized as a practical utility. People in the cities use them for delivery purpose; people in the suburbs use them in riding to work; people in the country ride them for the mail, for neighborhood errands, to go shopping, to carry farm products, to market, and hundreds of other things which are more commonplace in themselves but which prove the practical value of a motor cycle.

And this popularity bids fair to grow. It is different from the bicycle. The bicycle was nice in its way. It was a little better than walking and it proved the possibility of a two wheel vehicle for pleasure riding and practical purpose. But the bicycle took too much energy. It was exhausting to a person of ordinary strength and its liability to produce overwork was evidenced in thousands of instances. You never knew just how hard you were working until you were overdone. Heart failure frequently followed a lengthy or difficult trip on a bicycle. Now with the motor cycle it is different, you feel your steed about two bits of gasoline, oil his joints, lead him out into the

road, mount him, give him a couple of little burns in the flank and you are off. All you do is hold the reigns and do a little steering, no work, no danger of exhaustion, just like sailing.

"Nor lighter does the swallow skim,
The smooth lakes level brim."

You run out to Mt. Hood, over to Vancouver, up to Oregon City or to Salem, and get back cool, vigorous, satisfied; you dust your machine off, try its valves, run it into the shed, ready for another day. You go to bed to rest and to awaken completely refreshed.

The popularity of the Eagle motor cycle is exceptional. It is one of the strongest machines made. It is an easy machine to ride and this is due to the saddle, the springs supporting it, and the shock absorbers, all combined to relieve the vibration arising in the motor, or the jar due to roughness of roads. The position of the handle bar grip, the pedals, all help to make riding on this machine comfortable. These facts, together with its powerful engine and simplicity of construction, have given it a lead over other makes, and perhaps that is the reason it is used as a premium in the Mt. Scott Publishing Co's popular voting contest, and why so many young people are interested in winning it as a prize. Before another week a fine sample of these machines will probably again be on exhibit at the office of The Herald and everybody is invited to call and see it.

SCHOOLS MAKE RECORD GROWTH

Began with Two Portables. Now Twelve Rooms and Portable Requiring Thirteen Teachers.

Two years ago last fall plans were made for the location of a new school to be coined out of the western half of the Lents school district, and two small portable buildings were moved in to serve as the temporary housing of a school that began with about 70 children. That winter the west half of the north wing was erected, being the first concrete building erected in the city for school purposes. Last fall this was enlarged to a twelve room building with ample hallways and a fine large auditorium and an extensive covered playground. The entire basement is finished in concrete and when the building is completed there will be over an acre of concreted floor laid on the ground. The finish work of the buildings and the floors are of wood, the floors being maple.

At the present time there are thirteen teachers employed, one being located in a portable at the north side of the main building. The enrollment is 462 pupils, and at the rate of growth of the past terms, will need about four more rooms again another school year opens up. To meet this increase, Principal W. A. Petteys says the school board is planning to complete the building, by beginning in a short time on an eight room annex on the south side. He thinks he will have to have at least sixteen teachers at the opening of the fall term of this year. They also have in view a two room manual training building.

A visit to the school finds it moving along very nicely. Principal Petteys reports an unusually finely disposed lot of boys and girls and says he finds it very easy to maintain discipline. The classes are not sufficiently advanced to turn out graduates from the ninth grade this year, and in fact, it is probable that there will be no classes for another year as a large part of the pupils for this school were taken from the lower grades of the Lents school and have not advanced to the upper grades yet.

One of the interesting facts showing harmonious conditions in the school is the existence of an orchestra composed of the boys and girls of the school, while the principal is now organizing a glee club composed of a large number of the boys. There seems to be a very cordial relation between the teachers and the children, all of which portends a happy future for the new educational center.

MISSIONARY ADDRESSES AUDIENCE AT PARSONAGE

Miss Can, a Chinese missionary and daughter of Rev. Can of the Chinese Mission of Portland gave an excellent address at the Methodist Parsonage Saturday evening, Feb. 22, under the auspices of the Epworth League. Her subject was the new China. She told of the advancement of China under religious training and of the wonderful strides her mother country was making even in one short year. Miss Can has a very pleasing manner. She favored the audience with several instrumental pieces, and hymns, one being in her native tongue. Miss Can is a graduate of a Chicago teachers training school.

Her great desire is to return to China and help lift up her own people. She spoke before the M. E. Sunday school and Junior League on Sunday following.

P. R. L. & P. ERECTS NEW FREIGHT HOUSE HERE

The Portland Railway Light and Power Co. has just completed a new freight shed for its Lents patrons. This is a much needed addition. It is safe to say that it will more than double the traffic handled by the company to this point. But another improvement is due, a convenient, comfortable, clean inclosed waiting room. Lents deserves it. Its patronage merits it. The company would profit by it. The people would appreciate it.

LENTS MAN BADLY HURT.

Mr. English, of 3rd avenue, was badly crippled when getting off the car at 3rd avenue Wednesday evening. It is reported that he will lose one foot as a result of the accident. He appears to have been leaving the car and was caught and thrown to the ground in front of the wheels. He was taken to the hospital.

NEW FIRM TAKES OVER BUSINESS

E. W. Miller & Co. of Creston Dispose of Interests to L. R. Kollock & Co. of Portland.

Announcement is made of the purchase by L. R. Kollock & Co. of Portland, of the business of E. W. Miller & Co. of Creston. Kollock & Co. are among the largest dealers in building materials in Portland and the Northwest, and their investment here shows that they have great faith in the future of the Mt. Scott district. Mr. Percy of Percy & Strickler will be associated with them and manage the business from the old stand at 50th and Powell Valley Road.

The newly formed firm will carry a complete line of building material, cement, plaster, lime, sand, etc. The Apex brand of plaster manufactured by the Pacific Lime and Gypsum Co., produced locally, will be sold. The "Apex" people have recently erected and equipped a large plant at Gypsum, Oregon, and will be able to turn out daily about 800 tons of plaster which cannot be surpassed for quality by any plaster in the world. It is delivered here fresh and undoubtedly the superior of older stock. Mt. Scott contractors will be glad to welcome the new product which promises to sell at competitive prices.
