

# BEAVER STATE HERALD

Entered as Second Class Mail Matter at Lents, Oregon, August 25, 1911

Published Every Thursday at Lents, Ore., by the Mt. Scott Publishing Co.

H. A. DARNALL, EDITOR AND MANAGER.

Office Phone: Home 1111. Residence: Tabor 2813

ONE of the most important meetings ever held in the state was that which convened in the Commercial Club rooms in Portland last Saturday. This meeting was called at the suggestion of the president of the Agricultural College and was for the purpose of promoting an interest in that institution and to get some notion as to a system of procedure for the administration of the extension fund provided by the recent legislature action. Two different funds were provided. One of them is available for the college unconditionally. The other may be used in any county, conditional on the county's raising an equal amount for cooperative work, the expenditure in any county by the state not to exceed \$4000 annually. The college may spend \$25,000 annually in its independent extension work. This will go to the support of itinerant schools, personal investigations, institutes, and related expenses.

All these things were discussed and more. Prominent among the persons who were called upon to discuss the movement were Mr. Wilcox, of the Oregon Development League; Mr. C. L. Smith, Agricultural Agent for the Oregon-Washington railroad; Mr. C. E. Spence and Mr. Darnall, of the State Grange; Mr. Davis and Mr. Shumway, of the Farmer's Union; Mr. Miller, of Eugene; Mr. Young, of the North Bank Road; Mr. Bates, of the Northwest Farmer; Mr. Minton, of the Oregon Agriculturist; Mr. Hetzel, of the College. The O. W. R. N. furnished a fine lunch—all Oregon products.

The idea generally seemed to be that methods in present use by the college were most practical at this time and that by pursuing this course a tendency toward county co-operation would be developed. It was proposed to promote the end in view, also, through meetings of farmers, commercial clubs, or other public gatherings.

THE "Biennial Crop Pest and Horticultural Report" of the Agricultural College Experiment Station has just been issued and is the most replete publication of its kind that we have seen in the state. Its index includes over thirty distinct subjects and many of these are so general as to cover several allied topics. There is a survey of the "Prune Industry," "Frost Investigation," Tomato and Logan Berry Culture, Apple Adaptability and Destructive "Insects" are the main divisions. The insects injurious to roses, and garden truck, berries and larger fruits are all taken up. The habits, work and remedies are all given and in such a concise and satisfactory manner that every one that reads may be edified. Considerable space is given to fungus diseases of plants and fruits are taken up including various forms of blight. The volume will prove a worthy text book for the uninformed or a reference volume for those of more experience.

Every person in the eastern Mt. Scott section should be interested in the coming city election. That election comes, we are informed pretty soon, and the most important matter to come up in it is the vote on a commission form of government. While Lents people will not be officially annexed until July first, they should get all the information they can regarding this matter. If they do go into the city they

will be affected by the result. If you know nothing of commission government now is a good time to study it.

Now comes the Rural School Advocate of LaCenter, Washington who is out with an appeal for a new state, to extend from California to Puget Sound. The cause of all this rebellion is the attitude of Gov. Lister on the inter-state bridge question. If a portion of a state is justified in seceding every time the governor thinks differently, things are going to be lively henceforth.

#### Crop Bound Chickens.

This malady is often caused by eating dirt, therefore I would advise to stop feeding chickens on the ground. The quickest and most effective treatment is to cut crop open and remove contents. Cut a slit two inches long in skin over crop, then cut crop about same length. Remove contents with teaspoon or finger. Wash out thoroughly with sterilized (boiled) water, having it lukewarm. Sew up crop first with No. 1 catgut sutures (your druggist has them), about five stitches. Then rinse well with bichloride water.

#### The Cause of Rheumatism

Stomach trouble, lazy liver and deformed kidneys are the cause of rheumatism. Get your stomach, liver, kidneys and bowels in healthy condition by taking Electric Bitters, and you will not be troubled with the pains of rheumatism. Charles B. Allen, a school principal, of Sylvania, Ga., who suffered indescribable torture from rheumatism, liver and stomach trouble and diseased kidneys, writes: "All remedies failed until I used Electric Bitters, but four bottles of this wonderful remedy cured me completely." Maybe your rheumatic pains come from stomach, liver and kidney troubles. Electric Bitters will give you prompt relief. 50c and \$1.00. [Recommended by All Druggists.]

## CLASSIFIED

Lents, March 18, 1913.

## NOTES OF THE W. C. T. U.

The passing of the inter state liquor Kenyon-Webb bill over the veto of President Taft, shows very clearly the temper of the recently elected members of congress. There are many former towns people of Senator Kenyon in Oregon. In fact, two members of Mt. Scott Union were from the Iowa town which has been his home for many years. Senator Kenyon's father was a Presbyterian minister and college president. "I purpose to take no thought for to-morrow politically," said Senator Kenyon upon his re-election by the town legislature in joint session. I have a course mapped out to fight a battle in the legislative halls of the nation in the next two years to do something for human rights and moral laws and decency in politics. He backed his declaration with the measure which has now become a law and it is believed will remain a law, inasmuch as the supreme court has sustained a measure of similar intent, that of the white slave traffic.

A pleasing incident occurred at a meeting of the Union at the home of Mrs. Gesell recently. Mrs. Garlock sang a temperance song after which, Mrs. Richardson played the piano accompaniment to a charming melody played upon the violin by her daughter. At the close of the violin solo Mrs. Garlock came forward with the vocal arrangement of the piece which chanced to be in her music roll, and sang the words of the beautiful spring song so sweetly played by Miss Richardson. It was a surprise all around which was much enjoyed by all who listened.

Every woman living west of Grays Crossing is urged to register for the coming election. The people of Lents being deprived of the privilege of registering this spring are determined to at least have the pleasure of rustling others to the front.

Mrs. Gibbs, formerly of South Main Street but now in Scotland, has been the recipient of many congratulatory cards breathing expressions of joy, and hope for an abundance of health for herself and infant son.

Mrs. Wilkins, who has been absent from the city, has promised to attend the meeting on the 24th which is to be a Neal Dow red letter day.

## DO YOUR BUSINESS WITH A GOOD BANK

A bank account means more than the dollars you put into it, when you make up your mind to start.

A banking connection means a lot to every young man. Banking relations—financial friends—are needed before launching in any business. If you think we can help you call on us.

## The Best Light At The Lowest Cost

ELECTRIC LIGHT is the most suitable for homes, offices, shops and other places needing light. Electricity can be used in any quantity, large or small, thereby furnishing any required amount of light. Furthermore, electric lamps can be located in any place, thus affording any desired distribution of light.

No other lamps possess these qualifications, therefore it is not surprising that electric lamps are rapidly replacing all others in modern establishments.
